School Board Members:

The Fiscal Year 2020/21 budget reflects the School Board's continued commitment to student achievement, health and safety, and to support for a community of students and staff that embrace learning. The Tentative Fiscal Year 2020/21 Budget as presented, is based on the information currently available and as we finalize plans to reopen our schools in the face of a world-wide pandemic, adjustments are very likely to occur during development of the final Fiscal Year 2020/21, which will be presented to the School Board on September 9, 2020.

Over the past year, our District faced extraordinary challenges. Yet, together, we found ways to meet and overcome them – a testament to our resiliency, commitment to educating our students and ensuring the well-being of one another.

Near the start of the 2019/20 school year, our District prepared for Hurricane Dorian. Although South Florida was spared the worst, our friends and families in the Bahamas were devastated. Our school community opened its heart and welcomed hundreds of families into our schools with resources, school supplies, clothing, food and more, to help them recover and rebuild their lives.

Always at our foundation is our core mission of educating all students to reach their highest potential. Throughout the year, the District increased its emphasis on social and emotional learning and provided mental health supports, while continuing to focus on safety and security. We expanded innovative programs and earned our highest graduation rate of all time. In addition, we narrowed achievement gaps, expanded innovative programs, increased debate and computer science in schools, provided strong reading foundations for our youngest learners and worked to offer unique learning opportunities in all grade levels.

Then came the threat of the COVID-19 pandemic and the requirement for immediate transition to distance learning to keep our students and staff safe while we continued to provide education. Within a few weeks, our District supplied 100,000 computer devices to students, made certain families had access to low-cost or free internet services, secured hotspots for those who faced housing insecurity, and served more than two million meals to Broward families. These efforts reinforced our promise to the community in Broward County Public Schools (BCPS) learning never closes.

Below are additional highlights from the 2019/20 school year:

- BCPS 2018/19 Federal Graduation Rate of 86.2% is the highest for our District since the Federal Uniform Graduation Rate was adopted in 2010/11 and marks an increase of nearly 2 percentage points from 2017/18 (84.3%).
- Scores for 11th grade students in Broward taking the PSAT/NMSQT outpaced scores statewide.
- Fifteen BCPS high schools were recognized among the best in the nation in the 2020 edition of U.S. News & World Report's Best High Schools, with four high schools ranking in the top 5%: Pompano Beach High School, William T. McFatter Technical High School, Cypress Bay

High School and Sheridan Technical High School. These four also made the list of the top 50 high schools in Florida.

- BCPS middle and high school students enrolled in career and technical pathways earned nearly 8,000 industry and digital tool certifications. This number will continue to rise as the state extends deadlines to accommodate students who qualified for certification testing during the 2019/20 school but were impacted by school closures due to the coronavirus pandemic.
- BCPS provided 48,000 book packs (five books per pack), for a total of approximately 240,000 books, to pre-K through second grade students from Title I schools to enrich their home libraries. The books were free for families as part of the District's continued focus on ensuring learning never closes during the coronavirus pandemic.
- For a fourth consecutive year, BCPS career and technical education students at Atlantic Technical College, McFatter Technical College and Sheridan Technical College were No. 1 in the state, earning the highest number of industry certifications for the 2018/19 school year. Students at the three Broward Technical Colleges outperformed their counterparts in the state by more than 15%, with 889 credentials earned.
- Six District high schools earned the Advanced Placement (AP) Computer Science Female Diversity Award. This award is presented by the College Board and recognizes schools for increasing participation among female students in rigorous AP computer science courses.
- There were 20 National Merit Scholarship winners from BCPS in 2020.
- More than 15,000 BCPS students in elementary, middle and high school participated in the District's debate initiative – the largest debate program in the nation.
- Through Child Find, BCPS facilitated and supported Pre-K evaluation teams in the early intervention efforts of more than 4,000 students at risk of developing disabilities. Almost 1,600 were eligible for Pre-K ESE programs.
- The District's *School is Cool: Reimagining Middle Grades* initiative continues to make great progress and is entering the third year of a \$3 million grant from the Community Foundation of Broward County.
- The District's bond ratings were reaffirmed by Fitch (GO: AA-; COPs A+) and Moody's (GO: Aa2; COPs Aa3).
- One-third of all SMART funded schools have renovations in progress, representing a total of 77 projects valued at \$486 million. An additional 80 schools have completed the design phase and will be advertising to hire contractors next. A total of 15 schools have completed all primary renovations and are in final closeout.

With the support of a dynamic School Board, effective leadership, dedicated staff and community support, we remain focused on ensuring our students and school communities have the resources they need. The budget supports our shared vision and values. We will continue to work through the unprecedented challenges our District faces, while remaining steadfast in our commitment to provide students with a world-class education to prepare them for their futures.

Sincerely,

Robert W. Runcie

EXECUTIVE SUMMARY

Broward County

Broward County was established in 1915 and is beautifully located in southeast Florida which boast 24 miles of white sandy beaches to the east, with 797 square miles of protected wetlands to the west. Of the 1,224 total square miles in Broward County, only 35 percent are deemed developable, while the remaining 65 percent of the county consists of the Everglades Wildlife Management Area and Miccosukee Reservation Lands.

Population

Today, Broward County is Florida's second largest populated county with over 1.9 million people residing in 31 municipalities. Broward County residents represent a diverse population of many racial and ethnic backgrounds. The Hispanic/Latino population is the most rapidly growing demographic in Broward County, nearly doubling in size since 2000. As of July 2019, 35.6 percent of Broward's population is Caucasian, followed by Hispanic at 30.4 percent, African American 30.1 percent, Asian 3.9 percent, two or more races 2.3 percent, and Native Hawaiian, Indian and Alaskan 0.5 percent.

The school-aged population (5 to 17 years) in Broward County has remained relatively consistent at 16 percent. The expansion of colleges locally may account for the relative increase of 15 to 29 year-olds. However, those born between 1965 and 1980 is the largest and fastest growing population at 22.5 percent, which now surpasses the "Baby Boomers", those born between 1946 and 1964.

Economy

Prior to the outbreak of the COVID-19 pandemic, Broward's economy was experiencing rapid growth in various industries and record low unemployment rate of 2.6 percent. As the pandemic continues to spread, Broward has the second highest number of confirmed cases in the State, followed by neighboring Miami-Dade County. On March 22nd, Broward County issued an Emergency Order closing all nonessential businesses and individuals were strongly urged to remain at home, except to the extent necessary to perform Minimum Basic Operations (MBO). The sudden spike of unemployment claims significantly impacted Broward's economy. In April 2020, Broward's record low unemployment rate spiked to 14.5 percent.

As the county's largest employer, Broward County Public Schools (BCPS) initiated several provisions to ensure the safety of students, teachers and staff members. The District enacted eLearning for the remainder of the school year and virtual graduation for seniors. In addition, the District provided most staff members the ability to telecommute from home, limited the number of employees on campuses and administrative buildings, required physical distancing and proper Personal Protection Equipment (PPE). As of May 21st, Broward entered into the initial phase of reopening nonessential businesses which must comply with capacity limitations and PPE requirements, maintain physical distancing, and all measures as advised by the Centers for Disease Control and Prevention (CDC).

Broward County Public Schools (BCPS)

In 1899, the first two public schools opened in what would become Broward County. The first school teacher was Ivy Cromartie, who later married one of Florida's most notable pioneers, Frank Stranahan. In 1915, the Broward County School System was officially established, along with the newly formed county.

BCPS is the sixth largest school system in the United States and second largest in Florida. In addition, BCPS is Florida's first fully accredited school system since 1962, meeting the rigorous accreditation standards established by AdvancED, the largest accreditation agency in the nation.

EXECUTIVE SUMMARY

BCPS utilizes an Innovation Zone concept that groups schools together in a collaborative effort to provide better educational opportunities for students. In molding the Innovation Zone concept, the main priority requires all facets of the educational environment be addressed. Schools are organized in a feeder pattern, or community-centered concept, to promote a smooth, constant base of support. Each Innovation Zone consists of a cluster of schools that includes a high school, middle schools, elementary schools, and centers. The zones divide the District into 28 representative, responsive, and manageable geographic areas, while maintaining the importance and influence that a large school district demands.

Educational Levels Offered

BCPS serves students from infants through adults. In addition to the various educational programs offered to kindergarten through 12th grade students, pre-kindergarten services include programs for babies of teen parents who are progressing toward achieving high school diplomas, programs for special education infants and toddlers below the age of three, programs for three and four-year old disabled students, and programs for eligible low income, at-risk students. Additionally, a Voluntary Pre-Kindergarten (VPK) program is offered for four-year-old students to give them an accelerated beginning to their education.

In addition to services provided for children, Broward County Public Schools offers programs for adults to learn the necessary skills to enter the workforce or increase opportunities for advancement in current positions. Adult students from foreign countries have the opportunity to learn communication skills through our English for Speakers of Other Languages (ESOL) programs, and all citizens can take fee-supported courses to increase personal development in

various subjects such as computers, photography and personal financial planning.

There are 232 District schools: 136 elementary, 36 middle, 30 high, 8 multi-level, 3 technical colleges, 19 centers, which includes 2 virtual schools. In addition, there are 93 charter schools in Broward County, for a total of 323 educational locations for Pre-K through 12th grade students.

Enrollment

2019-20 Benchmark Pre-Kindergarten to Grade 12	
Pre-Kindergarten	5,714
Elementary (K - 5)	92,473
Middle (6 - 8)	48,781
High (9 - 12)	69,841
Centers	4,457
District Managed Schools	221,266
Charter Schools	46,704
Total 2019-20 Benchmark	267,970

* Includes non-ESE pre-kindergarten students who are not part of FTE counts or calculations and charter school students.

EXECUTIVE SUMMARY

To forecast enrollment at District innovative schools, the Demographics & Student Assignments Department uses a geographically-based cohort survival model, similar to the one used by the Florida Department of Education (FLDOE) for its enrollment projections and by the U.S. Census Bureau for its population projections. A baseline kindergarten group, or cohort, is first calculated based on birth data obtained from The Bureau of Vital Statistics. The model then uses an "aging" concept that moves the cohort of students into the future and increases or decreases their numbers by attrition rates calculated from the three previous years' enrollment trends by grade. The resulting projection is then modified to reflect the impact of confounding variables such as trends in residential development, students' school choice options, the opening and closing of charter schools, and natural disasters which can cause sudden changes in student enrollment.

According to the Five-Year Student Enrollment Projections memorandum, a slight decline in District school enrollment is forecasted for all levels through 2024/25. Overall enrollment in kindergarten through twelfth grade is anticipated to decrease by 3,681 students by the end of the five-year period, with a decrease of 2,276 students kindergarten through fifth grade, 810 students in sixth through eighth grade, and 595 in ninth through twelfth grades. Enrollment in prekindergarten and center schools, as well as at schools without assigned attendances, is not projected, but rather remains constant with the prior year's enrollment carried out over the upcoming five years, as these schools have controlled enrollment.

Demographics and enrollment planning staff employ a method for charter schools that identifies historic trends in the proportion of charter school enrollment to the total District enrollment and continue that trend for a five-year projection period, which back-calculates anticipated charter school enrollment from projected District school enrollment. The resulting enrollment projection is then distributed by elementary, middle, and high school levels, and is not disaggregated for individual charter schools. Total enrollment for charter schools is projected to increase by 4,035 students over the next five years to 50,739.

EXECUTIVE SUMMARY

EXECUTIVE SUMMARY

District Profile

FIRST fully accredited school system in Florida since 1962

SECOND largest school system in Florida

SIXTH largest school system in the US

FIRST Cambridge District Award in the United States

OUR MISSION

BROWARD COUNTY PUBLIC SCHOOLS** is committed to **EDUCATING** all **STUDENTS** to reach their **Highest Potential

OUR VISION

EDUCATING** today's students to **SUCCEED** in tomorrow's **WORLD

Florida's FIRST school district to earn accreditation from AdvancED, a global leader in advancing education excellence.

- ❖ **BCPS** enrollment is approximately **268,000** school-age students, an additional 4,000 VPK and Head Start students, and **110,000** adult students in **232** District schools and **93** charter schools. The award winning **Broward Virtual School** offers full and part-time enrollment for Grades K-12.
- ❖ **BCPS** serves a diverse population of students that speak **151** different languages from **174** countries. Over **31,000** students receive services through the District's **English Language Learners (ELL)** program.
- ❖ **BCPS** High School Federal **Graduation Rate** rose to all time high of **86 percent**, and the graduation rate for **BCPS** District high schools maintained its highest level of **95.1 percent**. All **33 District high schools** made the list of the **nation's best high schools**, according to the U.S. News & World Report's 2019 Best High School national rankings.
- ❖ **BCPS** career and technical education students at **Atlantic Technical College**, **McFatter Technical College** and **Sheridan Technical College** earned the highest number of industry certifications for the fourth consecutive year, ranking them number one in the State of Florida. **BCPS** offers over **70 Career, Technical, Adult and Community Educational (CTACE)** programs in middle and high schools.
- ❖ **BCPS** is one of only four districts in the nation to be awarded the **U.S. Department of Education's Magnet Assistance Program (MSAP)** grant for more than **\$14 million**. The 2019 **Magnet School of Distinction** was awarded to eight BCBS schools, and four schools received the **Magnet Schools of Excellence Award**.
- ❖ **BCPS** offers one of the **largest debate programs** in the nation, providing approximately **15,000** students with the skillsets to reach their highest potential. The **BCPS Debate Initiative** is available in all **BCPS** middle and high schools, and quickly expanding to all elementary schools and centers.

EXECUTIVE SUMMARY

School and Student Performance Background Information

All fifty states have designed and implemented a state accountability system that can be used to assess the success of individual school personnel to ensure students meet state-determined standards. Florida's A+ Plan for Education law was signed into effect in 1999. This initiative holds schools accountable by annually issuing them a letter grade of A through F, with A being the highest grade.

The Florida Department of Education (FLDOE) revised the school grade calculation as of the 2014-15 school year. The intent of the revision was to simplify the school grade formula and refocus on student outcomes to align with the 2015 Florida Statutes, specifically F.S. 1008.22. The revised formula focuses on achievement, learning gains, acceleration, and graduation rate.

Additional changes included a more rigorous method of calculating learning gains, a requirement for schools to test 95 percent of their students in order to receive a school grade, and the creation of a new scale for assigning school grades. This change decompressed the range between grades so that there is a minimum of five percentage points between each grade.

Achievement is based on the percent of students who achieve satisfactory scores, defined as level 3 or higher, on a number of standardized tests. These tests include the Florida Standards Assessment (FSA) for English Language Arts (ELA) in grades 3-10 and mathematics in grades 3-8, the State Standardized Assessment for science in grades 5 and 8, and End-of-Course exams for Algebra I, Biology, Civics, Geometry, and US History.

School year 2014-15 marks the first year that the FSA was administered. The FSA replaced the FCAT 2.0 in reading and math. Similar to the FCAT 2.0, the FSA is a criterion-referenced, performance-based test. The FSA differs from the FCAT 2.0 in that it is designed to measure students' mastery of the new Florida Standards which require greater demonstration of critical thinking, problem solving, and communication skills, and thus better prepare students for college, career, and life.

EXECUTIVE SUMMARY

EXECUTIVE SUMMARY

2020-21 District Budget

The BCPS budget is a detailed operating plan that identifies estimated expenditures in relation to estimated revenues. The budget reflects the School Board's priorities and represents a process through which policy decisions are made, implemented, and controlled. Funding for schools is derived from three main sources of funding – federal, state, and local.

For the twenty-fifth consecutive year, BCPS received the Meritorious Budget Award from the Association of School Business Officials International (ASBO) for its 2019-20 annual budget. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, an operations guide, a financial plan, and a communications device. The award represents a significant achievement by the District and reflects the commitment of the School Board and staff to meeting the highest standards of school budgeting.

Budget Process

Federal funds are received from the United States government. These funds are either allocated directly from the federal government or the state as the distributing agency.

State funds to school districts are provided primarily by legislative appropriations from the state's General Revenue Funds through the Florida Education Finance Program (FEFP). While a number of tax sources are deposited in the state's General Revenue Fund, the predominant tax source is the sales tax, which is currently at seven percent. State funds appropriated to finance the FEFP for all districts in 2020-21 are \$9.7 billion, up \$512 million from 2019-20. On

June 29th, 2020, Governor Ron DeSantis vetoed the School Recognition line item from the HB 5001, General Appropriations Act. The Class Size Reduction (CSR) allocation for 2020-21 is \$3.15 billion, up \$34.7 million from 2019-20.

EXECUTIVE SUMMARY

Secure the Next Generation Referendum

On May 8, 2018, The School Board of Broward County, Florida (SBBC) voted to approve a referendum for a question on the August 28, 2018 ballot regarding a levy of ad-valorem taxes for essential operating expenses.

During the following months and all the way to the primary election on August 28, 2018, District's Board, Superintendent, and union groups work tirelessly via many events in the community to clearly demonstrate and define to the public the need for this referendum and the benefits it would bring to the overall Broward community.

Broward County residents voted to approve the Secure the Next Generation Referendum on the August 28, 2018 ballot. This referendum supports our continued commitment to secure a high-quality education and safe learning environment for our students, teachers, and staff. Referendum funds have secured safety and security positions, improved compensation for teachers and school-related staff, and expanded educational opportunities for our students. The funds generated from the referendum became available to the District beginning in the 2019-20 school year.

The message of thank you and hope was delivered by the Broward County Public Schools (BCPS) Superintendent Robert W. Runcie at August 29, 2018 news conference "Thank you to all of our parents, students, teachers, staff and community members for supporting the Secure the Next Generation ½ mill referendum. Following last year's tragedy, we remain focused on our shared recovery and healing. The approval of the referendum is a testament to our community's commitment to ensuring our schools are safe, our teachers and school-related staff receive better compensation, and our commitment to doing everything we can to support the well-being of our students."

Based on July 1st, 2020, Ad Valorem estimates, the Referendum revenue for the 2020-21 school year is calculated at \$105.4 million based on 93 percent collectivity rate.

EXECUTIVE SUMMARY

Budget at a Glance

Local funding, mainly from property taxes, is required from each school district in order to participate in the Florida Education Finance Program (FEFP). The District is authorized by Florida Statutes to levy property taxes for district operations, capital improvements, and debt service. This is accomplished by establishing millage rates based on the county's gross taxable value as certified by the Property Appraiser. Upon receipt of this certification, the District has 24 days to submit to the Board a proposed budget to be advertised for the fiscal year. The Board must approve the budget within 80 days of the receipt of certification of property values. Preliminary and final hearings are conducted and the budget is then submitted to the Commissioner of Education for approval. Potential revenue to be generated statewide through property taxes for 2020-21 is \$9.7 billion, up approximately \$249 million from 2019-20.

Budgetary control is maintained at the expenditure object level within each function. Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward, if applicable, to the following year for the General Fund and are closed after a three-month period. Management may not amend the budget without the specific approval of the School Board. Budgets for all funds are amended during the year by submitting amendments to the Board for approval. Accordingly, no expenditure may be authorized and no obligation incurred in excess of the current budgetary appropriation without Board authorization.

2020-21 Budget Calendar	
✓	By July 1, 2020 Property Appraiser certifies tax roll.
✓	By July 19, 2020 District receives Required Local Effort from Florida Dept. of Education (FLDOE).
✓	July 24, 2020 Provide tentative budget to the Board.
✓	July 24, 2020 Advertise in the newspaper.
✓	July 28, 2020 First Public Hearing on proposed millage rate and tentative budget.
✓	August 4 2020 Advise Property Appraiser of proposed millage rate.
✓	September 9, 2020 Second Public Hearing to adopt millage rate and final budget.
✓	September 11, 2020 Submit budget to FLDOE. Notify Property Appraiser, Tax Collector, and Dept. of Revenue of adopted millage rate.

BCPS has adopted the philosophy of school-based management. Recognizing that each school has unique needs, the principal, in conjunction with the School Advisory Council (SAC), determines what staffing pattern will best meet school needs. As such, each school is given a sum of money based on the number and types of students in each program. Funds are distributed as an Instructional Allocation and a Support Allocation. However, all funds may be used to best serve the students of the school.

EXECUTIVE SUMMARY

Budget Message

BCPS is committed to maintaining current educational programs for students. The 2020-21 Tentative Budget reflects the District's continued commitment to student achievement, school safety, and decision-making focused on students. At its core, the Tentative Budget allocates funds to items holding community values, such as safe learning environments, highly qualified teachers and school staff, choice options for families, and continued fiscal strength.

The School Board provided clear guidance on how to fiscally proceed in 2020-21; balance the budget, cut District-level administrative costs and find resources to give our instructional and support staff enhanced compensation. The administration took those instructions and, through a comprehensive and arduous process, the executive leadership convened to review all non-school budgets in order to balance the budget. After several budget workshops with the Board, as well as additional reviews, staff balanced the budget and was able to begin to identify resources to set aside for compensation.

Broward County property tax values began to rebound six years ago with a 4.08 percent increase in 2013-14, an 8.09 percent increase in 2014-15, a 7.26 percent increase in 2015-16, an 8.57 percent increase in 2016-17, an 8.20 percent increase in 2017-18, a 6.1 percent increase in 2018-19, a 5.76

percent increase in 2019-20, and a 4.41 percent increase in 2020-21. Funding through the Florida Education Finance Program (FEFP) has correspondingly shown increases in the last six years. In 2013-14 and 2014-15, there were corresponding increases of 4.73 percent and 3.65 percent; however, included in those increases was \$47 million designated for teacher raises. In 2015-16 and 2016-17, there were increases in the amounts of 4.33 percent and 2.57 percent respectively. Although there was a 2.50 percent increase in 2017-18, the District was able to give salary increases to its employees, as well as fund a number of instructional related priorities. In 2018-19, there was a less than one percent increase in total funding, giving BCPS the lowest increase among all 67 counties in the State. In 2019-20 and in 2020-21, the increase in funding was projected at 2.38 percent and 2.64 percent respectively.

These are some of the highlights the 2020-21 Tentative Budget achieves:

- \$105.4 million revenue from the Next Generation Referendum
- \$75.9 million (or 72 percent) for compensation for teachers and school-related staff
- \$21.1 million (or 20 percent) for School Resource Officers & security staff
- \$8.4 million (or 8 percent) for other essential school programs
- The District paused programs (they will be reviewed next year and reinstated if necessary), reduced divisional budgets by \$6.8 million.
- Hard freeze of 123 administrative positions was implemented (currently identified 106 positions in General Fund in the amount of \$8.9 million in salary and benefits combined and 17 positions in Capital Fund in the amount of \$1.8 million in salary and benefits combined).
- Realignment of professional development appropriations in the amount of \$2.0 million to be funded by Grants in FY 2020-21.
- The District reduced departmental travel budgets by 95 percent for FY 2020-21.

EXECUTIVE SUMMARY

Florida Education Finance Program (FEFP)

The focus of the State finance program bases financial support for education upon the individual student participating in a particular educational program rather than upon the number of teachers or classrooms. Managed by the Florida Department of Education, the Florida Education Finance Program (FEFP) funds are primarily generated by multiplying the number of full-time equivalent students (FTE) in each of the educational programs by cost factors to obtain weighted FTE. Weighted FTEs are then multiplied by a state base student allocation and a district cost differential to determine the state and local FEFP funds. Program cost factors are determined by the Legislature and represent relative cost differences among the FEFP programs.

Each school board participating in the state allocation of funds for school operations must levy the Required Local Effort (RLE) millage for its required local funding. Each district's share of the state total of RLE is determined by a statutory procedure, beginning with certification of the property tax valuations of each district by the Department of Revenue. The Commissioner of Education certifies each district's RLE millage rate (calculated by dividing the amount to be raised through the Required Local Effort by 96 percent of the gross taxable value of the school district). Certifications vary due to the use of assessment ratios designed to equalize the effort on the FEFP of differing levels of property appraisal in the counties. Millage rates are also adjusted as RLE may not exceed 90 percent of a district's total FEFP entitlement.

For the 2020-21 school year, the State has required that BCPS contribute \$799.7 million in property tax dollars in order to receive \$2.1 billion in total State and Local FEFP funds. In order to generate the required portion, the District must levy 3.6510 mills, which does not include the mills for the Prior Period Adjustment on \$217.1 billion of property value. The \$799.7 million will be appropriated by the State and it represents 96 percent collectability of Broward County's Gross Taxable Value for 2020.

	2019-20	2020-21*	% Inc/(Dec)
Property Value (billion)	\$217.1	\$226.7	4.41%
Millage	2019-20 Millage Rate	2020-21* Millage Rate	% Inc/(Dec)
Non-Voted:			
RLE	3.8250	3.6510	(6.07%)
RLE Prior Period Adj	0.0620	0.0000	
Discretionary	0.7480	0.7480	0.00%
Add'l Discretionary	0.0000	0.0000	0.00%
Capital	1.5000	1.5000	0.00%
Sub-Total	6.1350	5.8990	(3.85%)
Voted:			
Referendum	0.5000	0.5000	
GOB Debt Service	0.1043	0.0912	(12.56%)
Total	6.7393	6.4902	(3.70%)

The State mandated Required Local Effort (RLE) has increased to \$799.7 million in 2020-21. The RLE millage has decreased 6.07 percent and the overall non-voted millage has decreased by 3.85 percent. Inclusive of the voter approved General Obligation Bond (GOB), and the referendum, the total millage has decreased by 3.70 percent. The gross taxable value in Broward County as of budget adoption has increased \$9.6 billion, or 4.41 percent from \$217.1 billion to \$226.7 billion.

In addition to the RLE, school boards may set the following types of discretionary tax levies:

- **Capital Outlay and Maintenance:** school boards may levy up to 1.500 mills for new construction and remodeling, site improvement or expansion to new sites, existing sites, auxiliary facilities, renovation and repair of existing school plants, maintenance, purchase of new and replacement equipment, school bus purchases, enterprise resource software applications, and driver education vehicles. Payments for lease-purchase agreements for educational sites and facilities are authorized by board policy not to exceed 60 percent of the proceeds of the millage levied under this authority. Proceeds may also be used for the payment of costs for leasing re-locatable educational facilities and for renting or leasing educational facilities and sites. The Capital millage for the 2020-21 school year is 1.5000, generating approximately \$326.3 million in revenue.

EXECUTIVE SUMMARY

- **Current Operations:** the maximum discretionary current operation millage set by the Legislature for 2020-21 is 0.7480 mills, which will result in approximately \$162.7 million in revenue. There is no additional discretionary millage for 2020-21.

In addition to the board-set levies, there are two provisions for voter approved millage levies to address short-term needs. The first provision provides for additional millage for up to two years, and the money can be used for both operating and capital expenses. This levy would not count against the 10.0000 mill cap, which does not include debt service. The second provision provides for additional millage for up to four years that can be used for operating purposes. This levy would count against the 10.0000 mill cap. Tax levies for debt service are in addition to the levies for current operations but are limited by a State Board of Education Rule to 6.0000 mills and 20 years duration, except with specific State Board approval. Qualified electors may vote for a local bond issue to be retired by a millage levy. The District's GOB Debt Service Millage for the 2020-21 school year is 0.0912 mills, which will result in approximately \$19.8 million. Finally, the 2018 Referendum ½ millage, which was estimated to levy approximately \$105.4 million.

*2020-21 Millage rates, and Taxable Value, based on 1st Calculation Conference Report, and 6/1/2020 Taxable Value Report

Governmental Funds

The accounts of the District are organized on the basis of funds and account groups. The individual funds account for the governmental resources allocated for the purpose of carrying out specific activities in accordance with special regulations, restrictions, or limitations. The funds are used to account for the programs and activities of the governmental functions of the District and are grouped into two fund types, which are further divided into five generic funds:

Governmental

- General Fund
- Capital Funds
- Debt Service
- Special Revenue

Proprietary

- Other Internal Service

EXECUTIVE SUMMARY

General Fund (\$000,000)

This fund serves as the primary operating fund of the District. All general tax revenues and other receipts that are not allocated by law or by contractual agreement to another fund are accounted for in this fund. Local ad valorem taxes, the Florida Education Finance Program (FEFP), and selected State categorical programs constitute the primary resources of the General Fund. Daily operational costs, such as personnel salaries and benefits, materials and supplies, pupil transportation, maintenance, security, and utilities are also reflected in this fund.

The General Fund budget for the 2020-21 school year is \$2,652.5 million, an increase of \$57.4 million, or 2.2 percent, from the 2019-20 adopted budget. State and Federal sources account for 51.8 percent of the total revenue, with Local sources comprising another 48.2

General Fund Revenue	2019-20 Budget	2020-21 Budget	Inc/(Dec)
Federal Direct	\$2.3	\$2.3	\$0.0

Transfers and Ending Fund Balance	182.9	176.4	(6.5)
Total	\$2,595.1	\$2,652.5	\$57.4

The total budget includes funding for centralized functions such as Financial Services, Human Resources, Research and Evaluation, Maintenance, and Transportation, as well as funding for employee benefits at \$417.4 million and for various initiatives such as class size reduction at \$303.0 million.

EXECUTIVE SUMMARY

Capital Projects Funds (\$000,000)

Capital Projects Funds are used to account for revenue to acquire, construct or maintain facilities and capital equipment. The major sources of revenue for capital projects funds are local revenues that include ad valorem taxes (property taxes or capital millage) and local school impact fees. State Revenues include Public Education Capital Outlay (PECO), Capital Outlay and Debt Service (CO&DS) and State Hardening Grant. Other financing sources include local sale of capital assets and technology and vehicle leases. Committed project balances make up a significant source and are to complete the

Capital Outlay Budget Revenue	2019-20 Budget	2020-21 Budget	Incr/(Decr)
Federal	\$2.7	\$2.7	\$0.0
State:			
PECO	0.0	0.0	0.0
PECO - Charter Schools	25.1	25.1	0.0
Other	37.6	29.2	(8.4)
Local:			
Millage	312.7	326.5	13.8
Other	14.1	14.1	0.0
Transfers	0.0	0.0	0.0
Other Financing Sources	474.8	462.2	(12.6)
Committed Project Balances	447.4	621.6	174.2
Total	\$1,314.4	\$1,481.4	\$167.0

Safety, Music and Art, Athletics, Renovation, and Technology (SMART) projects, which include General Obligation Bond (GOB). As more SMART projects are completed, less capital projects funds will carry over each year resulting in decreases in the capital projects annual budget. The capital projects funds budget for the 2020-21 school year is \$1,481.4 million, an increase of \$167.0 million, 12.7 percent higher than the previous year. The increase to the capital budget is primarily the result of the District's issuance of an additional \$250 million in Certificate of Participation (COP) in fiscal year 2019-20 to provide additional funds to the SMART Program. Estimated revenue is

calculated based on official State notifications, certified county tax estimates, historical experience and long-term local projections. The primary source of capital outlay revenue this year is the capital millage, which is determined by using the certified property tax roll. The State revenue sources of the PECO, local impact fees and Capital Outlay and Debt Service (CO&DS) are budgeted at the official notification amounts. Interest income, impact fees, and miscellaneous income are based on expected cash flow and projected interest rates.

The District utilizes a comprehensive process to gather information, prioritize capital outlay needs and develop the five-year District Educational Facilities Plan (DEFP) that was approved by the School Board and became the starting point for the 2020-21 Capital Outlay Budget. All projects in the DEFP are prioritized based on need and available funding. Most of the construction projects in the DEFP this year are part of the District's SMART Program that is primarily supported by the \$800 million voter-approved general obligation bond. As stated in Section 1013.41(3), Florida Statutes, "The purpose of the educational facilities plan is to keep the district school board, local governments, and the public fully informed as to whether the district is using sound policies and practices that meet the essential needs of students and that warrant public confidence in district operations." This year the DEFP provides the School Board and the public a detailed capital outlay plan that appropriates \$3,191.1 million in estimated capital projects funds through fiscal year 2024-25.

Capital Outlay Budget Appropriations	2019-20 Budget	2020-21 Budget	Incr/(Decr)
Library Books (new libraries)	\$0.0	\$0.0	\$0.0
Audio Visual Materials	0.0	0.0	0.0
Buildings, Furn. & Fixtures	98.0	92.5	(5.5)
Furniture & Equipment	80.3	105.3	25.0
Motor Vehicles (incl. Buses)	14.2	28.6	14.4
Land	0.0	0.0	0.0
Improvements other than Buildings	10.1	8.6	(1.5)
Remodeling & Renovations	815.4	927.7	112.3
Computer Software	0.0	0.0	0.0
Transfers	296.4	318.7	22.3
Total	\$1,314.4	\$1,481.4	\$167.0

The annual preparation of the Capital Outlay Budget is a multi-step process. The major components of the Capital Outlay Budget are facilities projects, capital equipment including technology devices, and the maintenance and debt service transfers. The appropriation for debt service is determined by the Treasurer using the debt service amortization schedules.

EXECUTIVE SUMMARY

Special Revenue Funds (\$000,000)

These funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted or committed to expenditures for specific purposes. There are two major components to the Special Revenue Funds: Special Revenue, Food Service and Special Revenue, Other.

Special Revenue, Food Service is used to fund the District-wide school cafeteria program. The Food Service budget for the 2020-21 school year is \$159.1 million, an increase of \$21.8 million from the previous year.

Special Revenue, Food Service Revenue	2019-20 Budget	2020-21 Budget	Inc/(Dec)

Transfers	0.0	1.0	1.0
Fund Balance	17.0	28.8	11.8
Total	\$137.3	\$159.1	\$21.8

Special Revenue, Other contains funding that is primarily from federal sources for the purpose of providing specific educational programs to be administered by the District. The four major programs, which account for 61 percent of the total funding, are the Elementary and Secondary Education Act (ESEA), Title I Program at \$90.1 million, Individuals with Disabilities Education Act (IDEA) at \$62.4 million, Teacher and Principal Training and Recruiting, Title II, Part A at \$14.7 million, and Early Head Start and Head Start at \$17.3 million. Head Start and Early Head Start are programs designed to serve three and four-year old children and their families by providing a variety of learning experiences to foster intellectual, social and emotional growth, thereby enabling the development of school readiness skills needed in kindergarten.

Title I is a federally funded program for economically disadvantaged children who reside in school attendance areas with a high concentration of low-income families. IDEA is a federally funded program for the purpose of supporting Exceptional Student Education (ESE). Title II, Part A funds for 2020-21 include staff development for academic improvement and improved teacher quality.

The **Special Revenue, Other** budget for the 2020-21 school year is \$304.2 million, an increase of \$66.7 million dollars. These types of dollars are only recognized when actually awarded by the funding agency.

Special Revenue, Other Revenue	2019-20 Budget	2020-21 Budget	Inc/(Dec)

EXECUTIVE SUMMARY

Debt Service Funds (\$000,000)

These funds are used to account for the accumulation of resources for and the payment of interest and principal on general long-term debt. Major sources of revenue for these funds include State Board of Education State revenue. The Debt Service budget for FY2020-21 is \$225.1 million. Overall result for the annual debt service is a net increase of \$25.2 million (\$200.0 in FY2020 vs \$225.1 in FY2021) attributed to expected issuance of third tranche of GO Bonds of \$13.2 million and payments to newly issued COPs Series 2020A and leases for a net effect of \$11.1 million. The changes in Other Financing Sources result from refunding of COPs Series for 2019A & 2019B, at this time there are no plans to refund COPs during FY2021 unless an advantageous market exists.

Debt instruments are issued to finance new school construction and renovate existing facilities, as well as to facilitate major purchases such as computers and buses. In addition, the District is continually reviewing opportunities to reduce existing debt service by restructuring or refinancing existing obligations. To minimize taxpayer costs, the District strives to ensure that debt service millage, levied for bonded debt, is the least necessary to adequately fund debt service costs in a given fiscal year.

As of June 30, 2020, the District had \$1.75 billion in outstanding debt compared to \$1.64 billion last fiscal year. These outstanding debt issues included \$.307 billion in General Obligation Bonds (GOBs), \$1.35 billion in Certificates of Participation (COPs), \$.0896 billion in financing leases and \$.007 billion in bonds to be retired by the State of Florida levying motor vehicle license taxes.

EXECUTIVE SUMMARY

Proprietary Funds (\$000,000)

These funds are used to account for the financing of goods or services provided by one department to other departments of the District. The District's Proprietary Funds are the Internal Services Fund.

On January 1, 2013, the District became self-insured for health insurance. Prior to 2013-14, the Self-Insurance Fund was used to account for and finance the uninsured risks of loss for worker's compensation, as well as auto and general liability claims. Claim activity is now recorded in the General Fund.

The Other Internal Services Fund for the District is used to account for printing services. The primary source of revenue for this fund is from cost centers within the District on a cost reimbursement basis. The projected operating revenues for 2020-21 are almost \$1.0 million.

EXECUTIVE SUMMARY

Florida Lottery

On June 29th, 2020, Governor Ron DeSantis vetoed the District Lottery and School Recognition Program line item from House Bill 5001, General Appropriations Act. Therefore, the District Lottery and School Recognition funding source will be paused for fiscal year 2020-21 and no funds will be distributed. Historically, in the last four years the District Lottery and School Recognition share has been between \$13.9 million in 2016-17 to \$14.0 million in 2019-20.

BCPS Lottery Revenue Trend - 5 Years

School Taxable Value Growth Rates

The July 1, 2020, Broward County Property Appraiser’s (BCPA) taxable value estimates are slightly lower than previous projections by the State’s Office of Economic and Demographic Research (EDR). This was anticipated due to recent economic impacts of the Coronavirus (COVID-19). To ensure a conservative approach during these unprecedented economic conditions, the local estimates include an additional reduction beyond what EDR last projected. BCPA taxable value estimates for the 2020-21 budget result in a 4.4 percent increase over the 2019-20 estimated school taxable values used to adopt the capital and general fund budgets last September. Over the next five years the District will not generate additional capital outlay millage (1.5 mills) or general fund discretionary millage (0.748 mills) when compared to estimates from last year.

The chart below shows that the taxable value of property in Broward County is projected to continue increasing, but at a slower pace than the previous four-year period.

EXECUTIVE SUMMARY

Staffing – All Funds

The 2020-21 Staffing - All Funds analysis shows that General Fund positions are 84 percent of the budgeted full-time equivalent positions in the District. Positions within the Special Revenue Funds make up 15 percent of the total staffing, and 1 percent of District positions are in the Capital Fund. Budgeted positions include vacant positions as well as filled positions. Full-time equivalent positions are determined by dividing the total of all standard salaries in a position by the standard salary for that position.

Fund:	<u>Budgeted Full Time Equivalent Positions</u>					2020-21 % to Total
	2016-17	2017-18	2018-19	2019-20	2020-21	
General Fund	23,125	23,575	23,594	24,114	23,617	84%
Special Revenue Fund	3,461	4,232	4,088	4,251	4,281	15%
Debt Service Fund	0	0	0	0	0	0%
Capital Fund	183	187	187	187	188	1%
Internal Services Fund	9	8	9	9	9	0%
TOTAL	26,778	28,002	27,878	28,561	28,095	100%

Overall, staffing from 2019-20 to 2020-21 is projected to decrease by 1 percent across all funds. A total of 30 Special Revenue Fund positions were created in 2020-21, which are primarily attributed to IDEA and Title II. Capital Fund positions increased by 1 position in 2020-21. Internal Service Fund did not have any changes in total number of positions in 2020-21.

EXECUTIVE SUMMARY

[This page intentionally left blank]

SCHOOL SAFETY FUNDING

History and Background

The funding allocation for the Safe Schools Program dates back to the 1983-84 school year. In 1986, the Florida Legislature enacted the Florida Safe Schools Act, where funding was based solely on the juvenile crime index. This method of funding continued through the 1992-93 school year. The Florida Safe Schools Act went unfunded for several years until it was rescinded in 1997.

In 1994, safe school activities were funded through proviso language in the General Appropriations Act. Each district received a minimum allocation of \$62,660 from the Safe Schools Appropriation Fund. The balance of the fund was then distributed among the 67 districts, with two-thirds based on the Florida Department of Law Enforcement (FDLE) Crime Index and one-third based on each district's share of the state's total unweighted FTE (UFTE).

In 2018, the Florida Legislature approved to increase the Safe School Allocation to \$180.0 million statewide, which includes a minimum allocation of \$250,000 per district. The funding is based on one-third of the FLDE Crime Index and two-thirds of the district's proportional share of the state's total unweighted FTE.

As of the 2020-21 Florida Education Finance Program (FEFP) Initial Calculation, the statewide total allocation for Safe Schools remained at \$180.0 million; however, the District's proportional share was reduced by \$81,892 as compared to the 2019-20 FEFP Fourth Calculation for a total allocation of \$15,976,610.

LEGISLATION SUMMARY

Marjory Stoneman Douglas High School Public Safety Act

In March of 2018, the Marjory Stoneman Douglas High School (MSDHS) Public Safety Act, Senate Bill (SB) 7026, was passed by the Florida Legislature and mandates several school safety reforms:

- Creation of the FLDOE Office of Safe Schools (www.fl DOE.org/safe-schools/)
- Allowing sheriffs to establish a Coach Aaron Feis Guardian Program
- Creation of the FortifyFL suspicious activity mobile app
- Establishment of the Marjory Stoneman Douglas High School Public Safety Commission
- New requirements for mental health services and training
- Requirements for a safe-school officer (SSO) at each public school
- School safety assessments for each public school
- Appropriations of funding for school safety needs
- Creates the Mental Health Assistance Allocation within the FEFP to provide funding to assist school districts in establishing or expanding school-based mental healthcare
- Clarifies that the cost per student station does not include specified costs related to improving school safety

In May 2019, the Florida Legislature enacted Senate Bill (SB) 7030 which enhances the school safety and security requirements established in Senate Bill (SB) 7026 as follows:

- Expands the Guardian Program
 - At school districts discretion to allow classroom teachers to participate in the program
 - County sheriffs now must provide training
 - 144 hours of training
 - 3rd degree felony to act as a guardian without approval of the sheriff and superintendent
- Requires school boards to promote FortifyFL
- School Hardening and Harm Mitigation Workgroup
- Behavior Threat Assessments
 - By August 2019, standardized, statewide behavior threat assessment
 - By August 2020, FLDOE to evaluate each district's threat assessment procedures
 - Statewide threat assessment database
- Active Shooter Drills in accordance with developmentally and age-appropriate procedures
- Each district must adopt active assailant response plan
- Each school board is required to adopt policies to ensure accurate and timely reporting of School Environmental Safety Incident Reporting (SESIR)
- Expands resources available for mental health services
- Authorizes the transfer of funds from other categoricals to the Safe Schools Allocation
- Modifies Safe School Allocation formula to one-third FLDOE Crime Index and two-third unweighted FTE (UFTE)

LEGISLATION SUMMARY

Alyssa's Law

In early March 2020, both the Florida House of Representatives and the Senate voted to unanimously pass Alyssa's Law SB 70. This bill creates "Alyssa's Law" and modifies the school safety statute to require each public school, including charter schools, beginning with the 2021-22 school year, to implement a mobile panic alert system, known as "Alyssa's Alert". The system must be capable of connecting diverse emergency services technologies to ensure real-time coordination between multiple first responder agencies.

The public school district may implement additional strategies or systems to any implemented mobile panic alert system to ensure real-time coordination between multiple first responder agencies in a school security emergency.

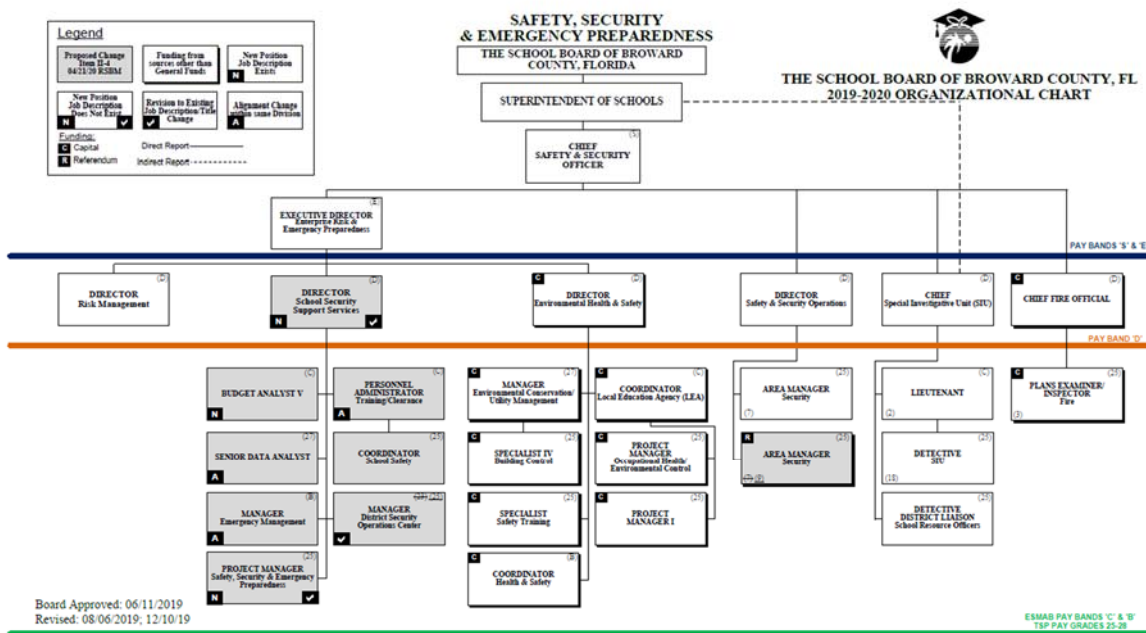

For the 2020-21 fiscal year and subject to the appropriation of funds in the General Appropriations Act, FLDOE shall develop a competitive solicitation to contract for a mobile panic alert system that may be used by each school district. Furthermore, FLDOE is required to consult with the MSDHS Public Safety Commission, the FLDE, and the Florida Division of Emergency Management (FDEM) in the development of the competitive solicitation for the mobile panic alert system.

On June 30th, 2020, Governor Ron DeSantis signed Alyssa's law and allocated \$8 million dollars in the State's budget to implement that law.

SAFETY AND SECURITY UPDATES

Development of the Division of Safety, Security and Emergency Preparedness

On February 14, 2019, Brian Katz joined the District as Chief Safety and Security Officer and was tasked with building the new Division of Safety, Security and Emergency Preparedness. With assistance from a few temporary employees, Chief Katz identified more than 500 tasks related to the build out of the new Division including development of an organizational chart, creation of new job descriptions, identifying professional development requirements, allocation of referendum and safe schools spending and more.

Since the Board’s adoption of the organizational chart on July 1, 2019, the Division has hired more than 500 new security personnel comprised of Campus Monitors, Security Specialists, Guardians and Area Security Managers, as well as additional administrative personnel necessary to support the operation of a large Division.

Since that time the Board has also approved the creation of a Campus Security Manager role. The Campus Security Manager will serve as the on-site supervisor of the security team at 43 of the District’s largest schools and will be a direct liaison between the school administration, Area Security Manager and security staff. This new role creates an additional opportunity for existing security staff to advance their careers and earn recognition for the management and mentoring work they do, all while allowing the Area Security Managers to better support the school-based teams.

With continued growth, the Division identified a need for additional support roles to carry out critical infrastructural tasks such as payroll, HR and budget. Since the original organizational chart did not account for these additional support roles, the Division proposed a revision to migrate these roles under centralized direction. This revision includes the addition of a Director of School Security Support Services, which is responsible for overseeing emergency preparedness, communications, data and other critical support functions. The School Board adopted this revised organizational chart on April 21, 2020.

As work continues to fully staff the new Division, progress is also being made on a number of important safety and security related projects.

SAFETY AND SECURITY UPDATES

Safety and Security Administrative Building

Buildout of a centrally located space for the Division's personnel is now complete. This space houses the 24/7 District Security Operations Center in addition to serving as the primary workspace for administrative personnel supporting school-based security operations and floater pool positions. The building has also been designed to facilitate large training sessions and meetings.

School Security Risk Assessments

As required by the MSDHS Public Safety Act (SB 7026), the District completed 250 School Security Risk Assessments (SSRA) in the summer of 2019, with the assistance of school-based teams, District personnel and first responder agencies within the respective municipal jurisdictions. These assessments built on assessments completed in 2018 by the District's independent security consulting firm, Safe Havens International. The information contained in the SSRAs, when aggregated, also identified opportunities to enhance the safety and security at all District schools.

Expansion of Video Surveillance

The video surveillance expansion project provides \$6.2 million to install approximately 2,500 new analytic and digital cameras throughout all schools in priority areas on campuses identified by Safe Havens International. The District completed Phase II of the video surveillance expansion project in January 2020. In Phase II, current video surveillance coverage was improved by adding camera views and leveraging enhanced camera analytics based on site assessments performed at every school in the District. Additionally, since the completion of Phase I, the District has entered into formal agreements with the Broward Sheriff's Office and 12 other municipalities to provide live, real-time access to all of the District's cameras.

Radio System Migration and Enhancement

The first phase of this project migrated the District's bus and other non-emergency radio traffic off of Broward County's existing public radio safety radio system and on to the newly developed local government radio system. The migration of the District's bus radios was completed in August 2019. The second phase of this project is to purchase additional radios and repeaters to enhance existing local radio networks at all schools. 1,100 radios were purchased by District for wide distribution and an additional 300 radios were purchased by SSEP to pair with the additional security staff at schools. Phase II is scheduled to be completed before the start of the 2020-2021 school year. In total, the School Board authorized \$4.5 million for this critical project.

Upgrade of Intercom Systems

The School Board approved \$17 million to enhance and maintain the intercom systems to improve District-wide communication including the capability for centralized communications. The initial implementation phase focuses on high schools, centers, combinations schools, technical colleges, and community schools. The agreement was awarded to Rauland-Borg Corporation of Florida and NDR Corporation on April 23, 2019, for a period of three years. Implementation began prior to the end of the 2018-19 school year.

SAFETY AND SECURITY UPDATES

Implementation of New Enterprise Risk Management Framework

The initial roll out of Enterprise Risk Management is complete and the District is now in Phase II of Implementation. This phase focuses on Infrastructure Build, which involves creating a Governance Structure and developing an Enterprise Risk Management Schedule.

Navigate 360 Emergency Response Information Portal

The District has procured an Emergency Response Information Portal (ERIP) which will allow for electronic school safety/security plans that are interactive at the school and District level and additional access to FISH plans and drill schedules. This tool will be available to District staff through mobile applications and in the future, shareable with law enforcement to aid in response.

Work is now underway to customize the tool and it should be ready for use by the start of the 2020-21 school year.

Threat Reporting Applications

The District continues to partner with SaferWatch and the Broward Sheriff’s Office (BSO) to provide opportunities for students, parents, and teachers to send non-emergency text, photo, video, and audio tips from a smartphone to the District and BSO.

State legislation also promotes the FortifyFL reporting app, which allows individuals to instantly report suspicious activity to appropriate law enforcement agencies and school officials. The smartphone app is supported by the Florida Department of Education (FLDOE). Both FortifyFL and SaferWatch can be downloaded from the Apple App Store and Google Play.

SAFERWATCH
Communicate with law enforcement seamlessly and report potential threats and suspicious activity.

FORTIFYFL
Instantly report suspicious activity to appropriate law enforcement agencies and school officials.

SAFETY AND SECURITY UPDATES

Enforcement of Existing Security Protocols

BCPS has stressed the necessity of adhering to existing safety and security protocols. Outlined below are several examples of these important protocols.

- **School Safety Plans** – Are regularly reviewed and updated with input from appropriate District personnel, local law enforcement and fire officials.
- **Classroom Doors** – **All** classroom doors must be locked at all times.
- **RAPTOR Visitor and Volunteer Management System** – The District is transitioning from the STAR Visitor Management System to RAPTOR. **All** visitors must be processed through the active volunteer and visitor management system at their school.
- **Student and Staff ID Badges** – All schools must have identification badges produced for students and staff members. All visitors must wear a visible identification badge.

Single Point of Entry (SPE)

As a part of the District's SMART initiative safety and security enhancements, we continue to enhance our single points of entry to make them more secure and user friendly for visitors and the schools.

BCPS will receive \$4.8 million in School Hardening Grants from the Florida Department of Education to assist with these enhancements.

The grant money will be used to improve the physical security of school buildings based on the findings of annual School Security Risk Assessments (SSRA) that are completed by each school.

SAFE-SCHOOLS OFFICER (SSO)

On August 28, 2018, Broward County residents approved a referendum to increase the local millage by ½ mil for a period of four years, beginning in the 2019-20 school year. Although the referendum proceeds are primarily for teacher and school staff compensation, up to 20 percent of the funds are designated for school safety. These funds will serve to increase the number of safe-school officers (SSOs) on school campuses to achieve a ratio of one safe-school officer for every 1,000 students in a school and standardize the quantity and layers of security staff at schools.

During the 2019-20 school year significant progress has been made toward hiring 46 additional School Guardians, along with 413 Campus Monitors and 55 Security Specialists will to ensure every school in the District is assigned a safe-school officer (SSO). The estimated additional cost is \$20.7 million. An additional 8 percent of the referendum funds will pay for additional guidance counselors, social workers and behavior specialists.

Senate Bill (SB) 7030 provides schools districts options to implement the requirement for at least one safe-school officer (SSO) at each public school facility. The legislation includes four SSO options:

1. School Resource Officer
2. School Safety Officer, law enforcement employed by district
3. School Guardian
4. School Security Guard

BCPS’s preference was to expand the District’s School Resource Officer (SRO) Program. For the 2019-2020 school year, BCPS raised its contribution to SRO salaries by 5 percent, increasing from \$52,000 to \$54,600. For overall funding of both armed and un-armed school-based security staff, BCPS contributes 70.4 percent of funding as compared to 29.6 percent provided by city/municipalities.

GRAND TOTAL	\$ 48,991,572	\$ 20,600,000	\$ 69,591,572	70.4%	29.6%	43.4%	56.6%
SRO Cost \$ (BCPS)	Total BCPS Cost \$	City Cost \$ - SRO	TOTAL Security Team Cost \$ (BCPS + City)	BCPS % Contrib (ALL)	City % Contrib (ALL)	BCPS % - Armed Only	City % - Armed Only

However, it became necessary to participate in the guardian program to ensure a safe-school officer (SSO) at every campus. In 2019-20, 56 School Guardians have successfully completed all facets of training and have been assigned to school campuses.

For the beginning of the 2020-21 school year, the District assigned a Safe-School Officer (SSO) at every district-managed school throughout the county.

MENTAL HEALTH

[This page intentionally left blank]

MENTAL HEALTH ASSISTANCE FUNDING

Legislation Background

Senate Bill (SB) 7026 was passed in 2019 by the Florida Legislature to address school safety, in part, through a Mental Health Assistance Allocation (MHAA), which provides funding to school districts to establish or expand school-based mental health care. Funds are to be allocated each year in the General Appropriations Act (GAA) or through other law, with each school district receiving a minimum of \$100,000 and the remaining balance to be distributed proportionately based on a district’s total unweighted full-time equivalent (UFTE) student enrolment.

In 2019 the Florida Legislature passed SB 7030, implementing legislation recommendations from the Marjory Stoneman Douglas High School Public Safety Commission, which comprehensively addresses school safety. SB 7030 amended the MHAA, in part, to ensure that each Florida public school student has access to a mental health professional at school by the 2019-20 school year. This will be accomplished through the training of both educators and school staff to be able to detect and respond to mental health issues, and to provide follow through by connecting children, youth and families who experience behavioral health issues with appropriate services.

Mental Health Assistance Allocation Plan (MHAA Plan)

School districts are required to develop and submit a plan annually outlining the local program and planned expenditures to their district’s school boards for approval, as specified by SB 7030. Plans approved by the district school boards are to be submitted to the Commissioner of Education by August 1st of each fiscal year. The district’s MHAA Plan must include all district schools, including charter schools, unless a charter school submits a MHAA Plan independent of the school district.

Each district’s MHAA Plan (S. 1011.62(16)(a) and (b), F.S.) must include:

- A Multi-Tiered System of Supports to deliver mental health care assessment, diagnosis, intervention, treatment and recovery services to students with one or more substance abuse diagnoses or those students at high-risk, and must be coordinated with the student’s primary mental health care provider or other mental health providers involved in the student’s care.
- Direct employment of school-based mental health service providers to reduce the ratio of students to staff to better align with nationally recommended ratio models.
- Strategies to increase the amount of time that school-based student services personnel spend providing direct services to students.
- Contracts or interagency agreements with one or more local community behavioral health providers or providers of Community Action Team services to provide services and a behavioral health staff presence at district schools. Behavioral health services may be provided on or off school campus and may be supplemented by telehealth.

MENTAL HEALTH ASSISTANCE FUNDING

- Policy and procedures to ensure students who are referred to mental health services providers for mental health screening occur within 15 days of referral. School-based mental health services must be initiated within 15 days after identification and assessment. Students referred to community-based mental health service providers must be initiated within 30 days after the school or district makes a referral.
- Strategies or programs to reduce the likelihood of at-risk students developing social, emotional or behavioral health problems.
- Strategies to improve the early identification of social, emotional or behavioral problems or substance abuse/misuse disorders.

In addition, SB 7030 specifies that charter schools that submit a MHAA Plan separate from the school district are entitled to a proportionate share of the district Mental Health Allocation funding. Each school district must work with charter schools to ensure the school district submits all approved MHAA Plans to the Commissioner of Education by August 1st.

District MHAA Expenditures Funded by FEFP MHAA for 2020-21

The 2020-21 FEFP total District funding for the MHAA is 8.8 million, and the charter schools proportionate share is 1.6 million. The District solely allocates the MHAA state funds to expand school-based mental health services; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth and families with appropriate behavioral health services.

Mental Health Providers

The District school’s FEFP allocation is 7.2 million of the FY 2020-21 MHAA for the following school-based mental health providers, along with related training and materials.

Job Title	Allocated
5 Clinical Nurses	\$455,483
1 Clinical Nursing Supervisor	\$109,512
3 EAP Counselors	\$246,176
10 Family Counseling Program, Therapist	\$729,225
1 Family Counselor	\$64,051
10 Positive Behavior Specialists	\$1,013,363
10 School Counselors	\$762,271
4 School Psychologist	\$319,027
12 School Social Workers	\$857,315
Total Personnel	\$4,556,423
Training & Materials	\$360,000
Total Program Cost	\$4,916,423

Mental Health Plan Regions

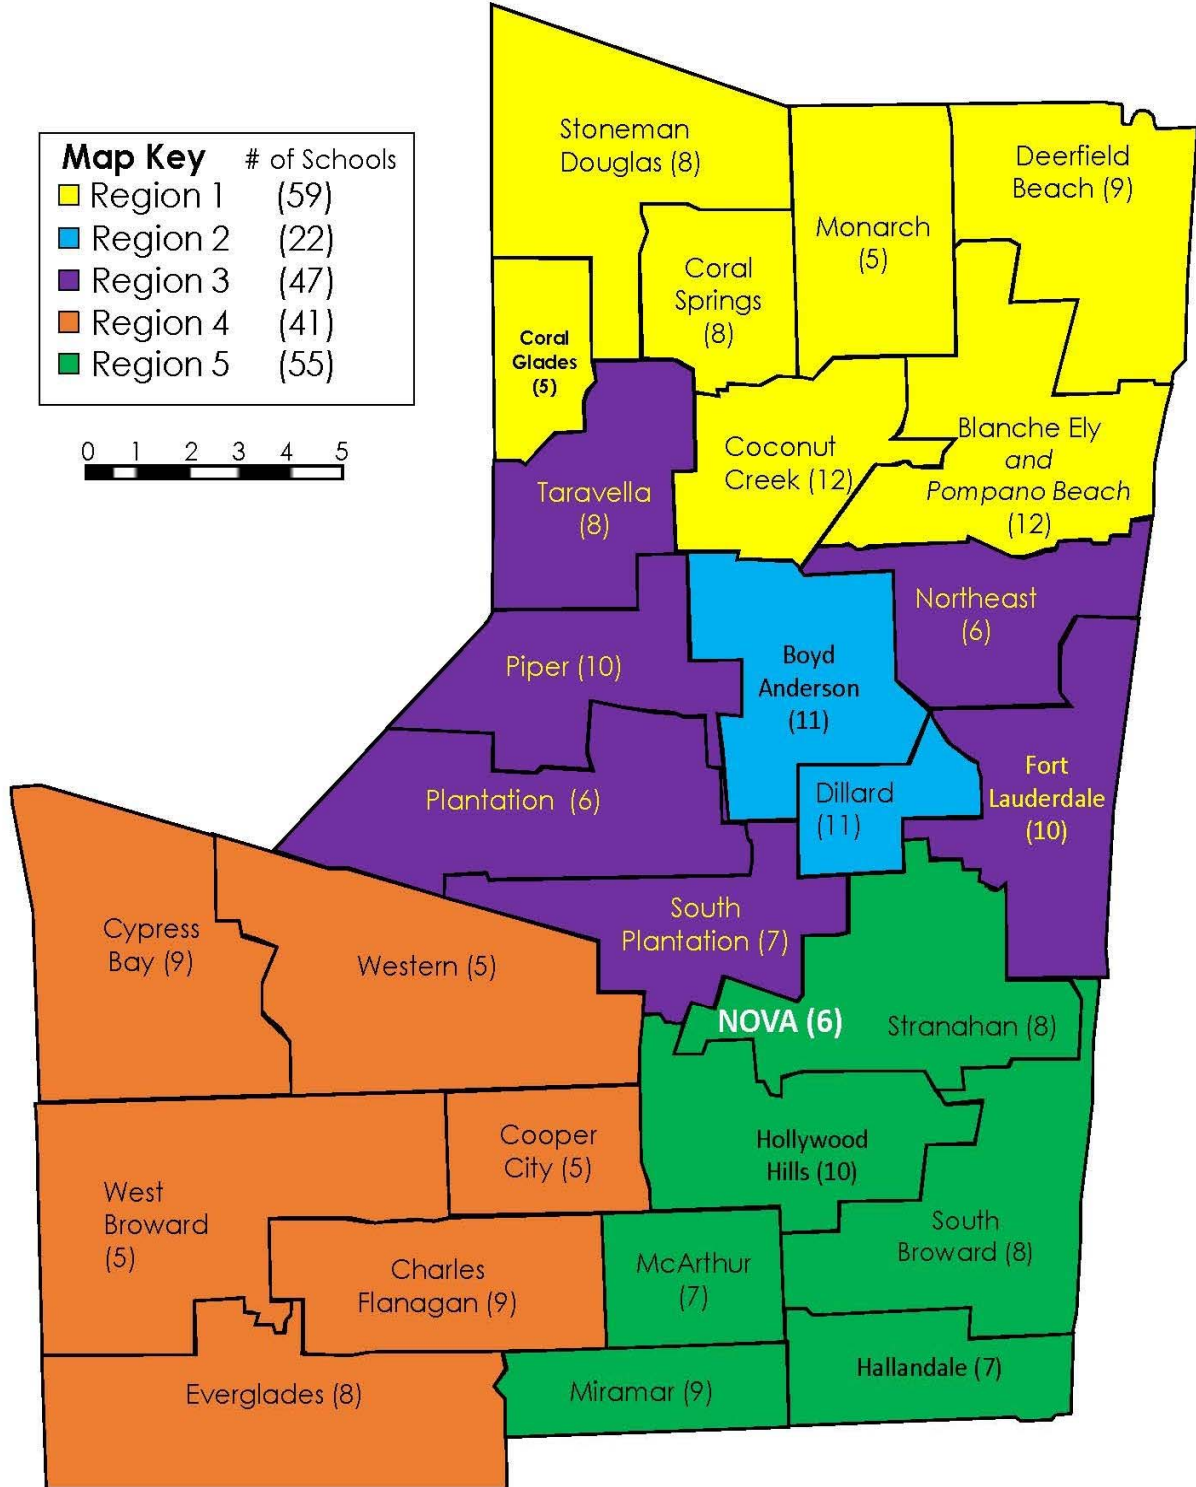

In order to expand the delivery of direct mental health services in a timely manner to all schools throughout the District, the mental health staff to be funded by this allocation will be strategically assigned to locations throughout the District. This regional configuration will allow for an immediate response from a highly qualified team of mental health professionals to address a crisis or acute mental health needs.

MENTAL HEALTH ASSISTANCE FUNDING

Mental Health Assistance Allocation Regional Teams

MENTAL HEALTH ASSISTANCE FUNDING

Contract-Based Mental Health Providers and Agencies

The District’s expenditures for services provided by contract-based collaborative efforts or partnerships with community mental health program agencies and providers are as follows:

- The District schools have a contract with a Child & Adolescent Psychiatrist (M.D.)
- The District’s Psychological Services has consultative agreements with a Child & Adolescent Psychiatrist (M.D.) and a Pediatric Neurologist (M.D.)
- Two-thirds of the District’s current nursing staff (ARNP, RN, and LPN) are provided through contractual agreements with community agencies.

Training and Certification

- Training and national certification in Trauma-Focused Cognitive Behavioral Therapy (TF-CBT), \$250 per certificate, up to 25 individuals.
- Introduction to Neurosequential Model Therapeutics, as an assessment tool, \$250 per individual.

MHAA funds do not supplant other funding sources, increase salaries, or provide staff bonuses. The BCPS MHAA Plan addresses service limitations and enhances the quality and fidelity of program implementation. Targeted and/or intensive interventions will be provided based on unique school needs. The BCPS MHAA Plan does not replace current service delivery, nor will it be used for salaries or staff bonuses. All staff in the BCPS MHAA Plan will be newly hired.

Maximizing Other Funding Sources

The District continues to seek reimbursement for services through Medicaid reimbursement, third-party payments and grants. A significant portion of the funds allocated for mental health services in BCPS is sourced by grants. The table below provides details on each of the funding sources.

2019-20 Mental Health Grant Funding

- **Table 1.** Mental Health Other Funding Sources. This table includes **\$12,954,346** in grant funding with **102** staff and other training expenditures.

Name of Grant (Broward’s Name)	Funding Source	Allocation Amount	Duration of Grant	Staff	Descriptor	Department Management
Family Counseling Grant (FCP)	Broward County Children’s Services Administration Section	\$1.5M	3 years Renewed annually	24	Funding to support programs and services for individual and family counseling in school settings. FCP is available to all students and families in Broward. Services include individual and family counseling utilizing evidence-based treatment modalities including cognitive behavior therapy. Family therapist also provides crises intervention management, particularly in the areas of suicidal, self-destructive, and bullying behaviors.	Student Services

Elementary Schools Grant</p>	<p>USDOJ Juvenile Division</p>	<p>\$500,000</p>	<p>3 years; Sunset Sept 30, 2021</p>	<p>1</p>	<p>BCPS proposes to provide training to teachers and family members along with peer-to-peer education to students with the intent to prevent student violence.</p> <p>The FY 2018-19 STOP Violence grant will expand district-wide support for "Start with Hello" and SAVE Promise Clubs at the elementary level and with school feeder patterns. The program plan ties together current peer counseling programs, prosocial clubs, evidence-based violence prevention programming, and universal response to intervention practices across the District.</p>	<p>School Climate & Discipline</p>
<p>Comprehensive Universal Reduction of Violence (BCURV) Grant</p>	<p>USDOJ Juvenile Division</p>	<p>\$775,000</p>	<p>3 years; sunset Sept 30, 2021</p>	<p>2</p>	<p>BCURV will enhance efforts to prevent and reduce youth violence and victimization district-wide for students in grades K-12 through the provision of MTSS. The anticipated major deliverables to ascertain BCURV success include:</p> <ol style="list-style-type: none"> 1. Statistically significant reduction in Acts Against Persons (AAP) discipline district-wide. 2. Significant increase in the number of violence related to MTSS Tier 2 and Tier 3 curriculum, programs and services available and utilized. 3. A significant reduction in the number of BCPS middle school students who report being electronically bullied. 	<p>School Climate & Discipline</p>

MENTAL HEALTH ASSISTANCE FUNDING

Name of Grant (Broward's Name)	Funding Source	Allocation Amount	Duration of Grant	Staff	Descriptor	Department Management
Mental Health Service Professional Demonstration Collaborative Internship for All (CIA)	USDOE National Center on Safe Supportive Learning Environment (NCSSLE)	\$2.3M	3 years; Sunset Sept 30, 2022	1	Through the Collaborative Model of School-Based Mental Health Internship, BCPS will increase the pipeline of school-based mental health practitioners in order to increase access to mental health services for students, employees, and families in its high-need schools.	Student Services

Secure the Next Generation Referendum

- **Table 2.** Secure the Next Generation Referendum Staff Utilization. The referendum provided funding for 90 full time staff as depicted in the table below.

Referendum Position Titles	Number of Positions	Average Salary	Total Cost
School Psychologists	20	87,291	\$1,745,821
School Social Workers	17	65,597	\$1,115,150
School Counselors (Guidance)	25	77,976	\$1,949,391
Family Therapists	12	73,861	\$886,335
ESLS Counselors	10	74,232	\$742,315
Teachers on Special Assignment (Suicide Prevention)	5	73,228	\$366,141
Hospital Homebound Teachers (MSD)	1	60,398	\$60,398
Total	90	FTE Staff Total	\$6,865,552
Mental Health Screening Project, Professional Services, Assessments, and Supplies			\$614,400
Total Referendum Mental Health			\$7,479,952

MENTAL HEALTH ASSISTANCE FUNDING

Program Implementation and Outcomes

The table below identifies the number of FLDOE certified or licensed, school-based mental health services providers employed by the District. (i.e., school psychologist, school social workers, school counselors and other mental health services providers by licensure type.)

Professionals	Number of Staff
Counselor, EAP (Staff)	2
School Counselors (Guidance Counselors)	455
Exceptional Student Education (ESE) Counselors	52
School Psychologists	156
Family Therapists	61
School Social Workers	140
Health Services (Nurses)	23

BCPS Tracking Systems of High Risk Students

In accordance with the MHAA, districts are required to establish systems for tracking the number of students at high-risk for mental health or co-occurring substance abuse disorders who received mental health screenings or assessments; number of students referred to school-based mental health service providers; number of students referred to community-based mental health services providers; number of students who received school-based interventions, services or assistance; and number of students who received community-based interventions, services or assistance.

Below are the tracking systems utilized by the District for services and programs provided:

- **Family Counseling Program:** Student demographic information is entered into a local database and the total number of referrals is reported annually.
- **School Social Work Program:** Student referrals are documented in the Behavior and Academic Support Intervention Services (BASIS) database. The BASIS database also includes the number and types of interventions provided to each student.
- **Psychological Services:** For a psychoeducational evaluation, referrals are created in BASIS and sent to the District office to be opened and assigned to a school psychologist. The database includes types of referrals, consent received dates, and evaluation completion dates. When a student is referred to a school psychologist for mental health counseling, the services are documented by the individual practitioner in Accelify. This includes student names, type of services provided, frequency/duration, and date/time of service.

MENTAL HEALTH ASSISTANCE FUNDING

- **Exceptional Student Education (ESE) Counseling:** When it is determined through data collection (i.e., observations, prior interventions) that a student with an Individualized Education Plan (IEP) may benefit from counseling, the IEP team convenes to determine if the service is needed. Counseling is then added as a related service to the IEP and documented in Accellify as it occurs.
- **School Counseling (Guidance):** Formal and informal referrals for school counseling services are made by staff, students, or stakeholders via school-based systems. Interventions are documented in the student information system based on the services delivery model and American School Counselor Association (ASCA) standards.
- **Nursing (Student Health):** Students with chronic health conditions requiring counseling services are referred to the school social worker as is appropriate. The total number of referrals are entered on a monthly summary log and reported to the Florida Department of Health (FLDOH).
- **Positive Behavior Interventions and Support:** Students accruing 10 or more behavioral incidents are supported by Specialists to ensure fidelity of implementation of school-based interventions to reduce subsequent behavioral incidents.
- **Community Providers:** Referrals through BASIS to community providers are tracked to identify the number and status of referrals.

BROWARD COUNTY PUBLIC SCHOOLS

Broward County is situated between the Atlantic Ocean and the Everglades in southeast Florida and was first incorporated in 1915. There are approximately 1,224 square miles of land area, of which the western 797 square miles are conservation area and are protected from development. Within the remaining 427 developable square miles of land, there are 31 municipalities. The county has 24 miles of white sandy beaches and 266 linear miles of canals, of which 126 miles are navigable.

The first two public schools opened in Broward County in 1899. The school district for Broward County was established in 1915 and is now the sixth largest in the United States and second largest in Florida. Broward County Public Schools (BCPS) is Florida’s first fully accredited school system since 1962, meeting rigorous accreditation standards established by AdvancED, the largest accreditation agency in the nation. There are 2,098 separate sites consisting of 232 District schools, and numerous ancillary facilities totaling over 35 million square feet.

BCPS is an independent school district that provides educational opportunities to students from infants through adults. Pre-kindergarten through grade 12 students are representative of a diverse multicultural/multi-ethnic population from over 174 countries speaking 151 languages, and over 32,000 of those students are identified as English Language Learners (ELL’s). Exceptional Student Learning Support (ESLS) is provided to over 52,011 – 39,175 students with special needs as well as over 12,836 gifted students. There are more than 110,000 adult and continuing education students.

There are 232 District schools in Broward County offering a wealth of opportunities for education: 136 elementary, 36 middle, 30 high, 8 multi-level, 3 technical colleges, and 19 centers, which includes 2 virtual schools. In addition, there are 93 charter schools in Broward County.

For the 2020-21 school year, students are scheduled to start school on August 19, 2020 and their last day is scheduled for on June 9, 2021. Within the 180 instructional days, six days are designated as early release for all students so schools can provide staff development and training. Teachers are contracted for a 196-day calendar consisting of ten staff planning days and six paid holidays.

2019-20 Benchmark	
Pre-Kindergarten to Grade 12	
Pre-Kindergarten	5,714
Elementary (K - 5)	92,473
Middle (6 - 8)	48,781
High (9 - 12)	69,841
Centers	4,457
District Managed Schools	221,266
Charter Schools	46,704
Total 2019-20 Benchmark	267,970

* Includes pre-kindergarten students who are not part of FTE counts or calculations and charter school students.

DISTRICT'S VALUES

OUR VALUES

- > All students will learn when their individual needs are met
- > Learning is a lifelong process
- > Every student has a right to a high-quality educational option
- > Engaged families combined with highly effective teachers and school leaders are the core components of a successful school
- > Positive character education is essential to whole child development
- > The diversity of our community is valuable and must be embraced
- > Students must be prepared as innovative thinkers and responsible citizens to compete in a global economy
- > High-quality customer service is a critical component of high-quality education
- > Positive stakeholder involvement enhances student achievement
- > Everyone must be held to the highest ethical standards to achieve excellence
- > Everyone must contribute to and be held accountable for student achievement
- > An equitable education provides all necessary resources to meet student needs
- > All District services must clearly tie to student achievement
- > Respect and dignity are critical, both in and out of the classroom
- > Public education is the foundation of a democratic society
- > It is essential that the District develops an informed, engaged, and responsible citizenry

DISTRICT'S STRATEGIC PLAN

Structure of the Strategic Plan

The District's Strategic Plan is built in layers and cascades from our Vision, Mission, and Core Values. These guiding principles are supported and realized through Strategic Goals, which translate ideas into action.

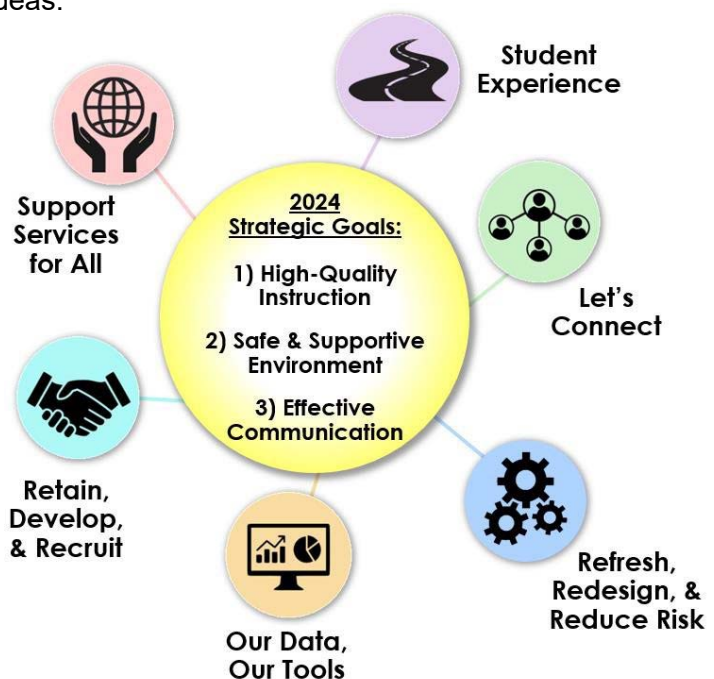

Our three Strategic Goals are High-Quality Instruction, Safe & Supportive Environment, and Effective Communication. The Goals will be monitored via defined quantitative Metrics, and are supported through the six Campaigns. Each Campaign includes multiple Initiatives bundled beneath it. These Campaigns underscore the collaborative and cross-functional approach required to achieve the District's Strategic Goals.

Progress for each Initiative, and hence the associated Campaign, will be monitored based on the completion of defined Tactics as leading activities. Embedded within the lists of Tactics for each Initiative are Continuous Improvement Ideas.

NOTE: The Key Tactics included for each Initiative in this document are only a subset of the full list of leading activities and tasks identified, which can be found within the detailed Project Plans housed separately.

The District's Six Campaigns:

1. Student Experience
2. Support Services for All
3. Retain, Develop, & Recruit
4. Refresh, Redesign, & Reduce Risk
5. Let's Connect
6. Our Data, Our Tools

DISTRICT'S STRATEGIC PLAN**Vision, Mission, & Core Values**

Broward County Public Schools continues to be guided by the essential Vision and Mission statements:

OUR VISION:

Educating today's students to succeed in tomorrow's world.

OUR MISSION:

Educating all students to reach their highest potential.

While the above Vision and Mission statements continue to guide our work for the next five years, our Core Values have been critically reviewed, updated, and streamlined by the Strategic Plan Committee with extensive feedback from stakeholders. Streamlining the Core Values from 16 complex statements to five short phrases comprising the "STARS" acronym will help to more effectively guide our current and planned work.

OUR CORE VALUES:

Student Focus
Teaching Excellence
Accountability
Respect
Safety

All District Initiatives and activities should be aligned with and guided by these Core Values.

DISTRICT'S STRATEGIC PLAN

Strategic Goals

The District is focused on three Strategic Goals of High-Quality Instruction, Safe & Supportive Environment, and Effective Communication. This plan articulates these specific Goals and describes the Key Tactics and opportunities for continuous improvement identified to accomplish them.

This plan will serve as both a guiding document for the District, as well as a platform for communicating performance and change management to our stakeholders. It should be considered a dynamic, living document, which will be reviewed and revised as needed annually so that as an organization, we remain flexible and responsive to the evolving needs of our community.

High-Quality Instruction

Teaching and learning is our core business.

Learning includes mastering academic standards, undergoing social-emotional development, and applying knowledge and skills in new situations. We continuously focus on providing high-quality instruction from pre-kindergarten through adult.

Our benchmarking of progress, achievement, and growth will ensure all students' needs are met along their personalized educational pathways toward college, career, and life readiness.

Safe & Supportive Environment

We recognize that students and staff need to feel safe and supported in order to perform and achieve at their maximum potential.

Therefore, we strive to develop approaches which foster safer schools and buildings, adequate social and emotional supports for students and staff, innovative and efficient systems and processes, and quality professional learning opportunities for all.

Effective Communication

We strive to increase the effectiveness of both our internal and external communications with stakeholders, to convey and accomplish our District's Vision, Mission, Core Values, and Goals, as well as to leverage feedback to continually improve our services.

Additionally, we work diligently to implement effective marketing strategies to enhance public perception of BCPS and the value we provide to our community.

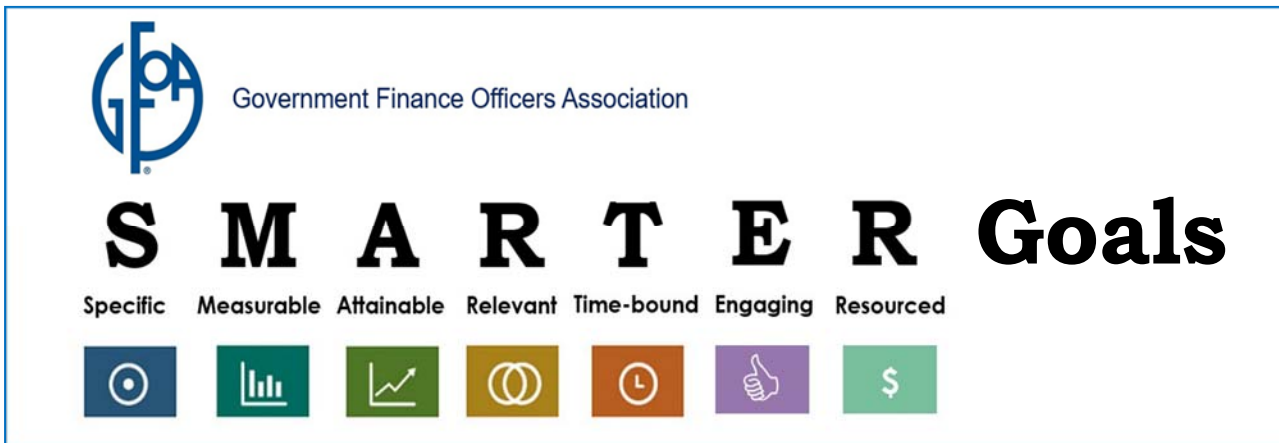

DISTRICT'S STRATEGIC PLAN

Metrics & Targets

The Strategic Plan Initiatives are each designed so that when fully implemented in concert, they will move the District forward towards meeting the three Strategic Goals. **Key Performance Indicators (KPIs)** have been operationalized as Metrics to align with the Strategic Goals, as outlined on the following page. Baseline information as of the 2018-19 school year or three-year averages where appropriate are provided, as well as Targets for future year(s).

The District has adopted the **SMARTER goal-setting and budget-alignment framework** prescribed by the Government Finance Officers Association (GFOA). Targets are set based on a methodology including historical trend analysis; peer District comparisons; statistical analysis; best practices identified at the national, state, and local levels; relevant compliance standards; projections based on both external and internal factors influencing future direction; resource availability; and stakeholder input as consideration toward refinement. Progress will be carefully monitored and regularly reviewed. Targets will be recalibrated annually as needed based on those reviews.

We also ensure alignment of our Metrics and Targets to the Council of the Great City Schools (CGCS) for **national benchmarking of KPIs across both Academics and Operations areas** where appropriate; **AdvancED for meeting standards of accreditation**; the Florida Department of Education (FL DOE) for **compliance with State statutory requirements**; and the US Department of Education for compliance with such requirements as the **Every Student Succeeds Act (ESSA)**.

The diagram illustrates the SMARTER Goals framework. At the top left is the GFOA logo (Government Finance Officers Association). Below it, the acronym **SMARTER** is written in large, bold, black letters, followed by the word **Goals**. Underneath each letter of SMARTER is a corresponding descriptor: Specific, Measurable, Attainable, Relevant, Time-bound, Engaging, and Resourced. Below these descriptors are seven colored squares, each containing a white icon: a target symbol (Specific), a bar chart (Measurable), a line graph (Attainable), two interlocking circles (Relevant), a clock (Time-bound), a thumbs up (Engaging), and a dollar sign (Resourced).

Council of the Great City Schools

DISTRICT'S STRATEGIC PLAN

2024 Strategic Plan Metrics

Strategic Goal: High-Quality Instruction

- School Academic Performance
- Student Academic Performance
- Graduation Rate
- Connection to School
- College and Career Exploration
- Personalized Educational Pathways

Strategic Goal: Safe & Supportive Environment

- Safety Preparedness
- Perceptions of Safety and Supports
- Student Attendance
- Teacher Retention
- Professional Learning
- Student Behavior Supports
- Social-Emotional Learning
- Operational Efficiency

Strategic Goal: Effective Communication

- Perceptions of Communication
- Community Partnerships
- Communications Ambassadors
- Family Connection
- Positive Media Coverage
- Social Media Usage

NOTES:

1. In some cases, data needs to be gathered to establish baselines and Targets. ⚠️
2. Targets will be based on the Ghosh statistical model where appropriate, using three-year averages for baselines when available, and a 90 percent or 95 percent confidence interval applied as indicated.
3. Specific Targets and progress on the Primary Metrics as outlined on the following pages will be available through the Strategic Plan Dashboards and Annual Outcomes Reports published by the Office of Strategic Initiative Management.
4. See separate Metrics Appendix for complete data definitions.

BUDGET MESSAGE PRIORITIES AND ISSUES

The District continues to recover from the economic downturn that started in 2008. The road to recovery has not been easy. It can be seen in the chart on page 4-12 that funding levels reflect a slow upper trend. It is also indicated in the chart on page 6-11 that the county’s property values have steadily risen since 2011-12.

Administrative Cost in the State

The Educational Funding Accountability Act establishes an accountability system that provides administrative expenditures based upon data submitted by the school district in the program cost report. The summary of administrative expenditures per unweighted full-time equivalent (UFTE) students is presented pursuant to Section 1010.215(6), Florida Statutes, (F.S.).

Source: FLDOE Educational Accountability Act
Summary of Administrative Expenditures

BUDGET MESSAGE PRIORITIES AND ISSUES

The 2020-21 Tentative Budget achieves the following:

- \$105.4 million revenue from the Referendum:
 - \$75.9 million (or 72 percent) for compensation for teachers and school-related staff
 - \$21.1 million (or 20 percent) for School Resource Officers & security staff
 - \$8.4 million (or 8 percent) for other essential school programs
- The District paused programs (they will be reviewed next year and reinstated if necessary), reduced divisional budgets by \$6.8 million.
- Hard freeze of 123 administrative positions was implemented (currently identified 106 positions in General Fund in the amount of \$8.9 million in salary and benefits combined and 17 positions in Capital Fund in the amount of \$1.8 million in salary and benefits combined).
- Realignment of Professional Development appropriations in the amount of \$2.0 million to be funded by Grants in FY 2020-21.
- The District reduced departmental travel budgets by 95 percent for FY 2020-21.
- The cost of Health insurance was kept cost neutral for FY 2020-21.
- Includes the increase of FRS rates from the State for FY 2020-21 in the amount of \$23.0 million, as well as cost increases in property & casualty insurance.
- In anticipation of the costs related to the reopening of schools and a potential mid-year holdback from the State, the District set aside estimated nonrecurring resources from Cares Act Funding of \$42.8 million, as well as a reduction in salary costs as a result of a shift to distance learning and related cost avoidance savings from FY 2019-20 of \$30.0 million.

BUDGET MESSAGE PRIORITIES AND ISSUES

Revenue per Student

State funding for school districts is provided primarily by legislative appropriations. While a number of tax sources are deposited in the state’s General Revenue Fund, the predominant source is sales tax.

Local revenue in the FEFP comes from property taxes levied by the school district on the taxable value of real and personal property located within the county.

The chart below shows per student funding from the Florida Education Finance Program (FEFP) for school years 2012-13 through 2020-21.

Note: Projected data is as of the 2020-21 FEFP Conference Report (First Calculation)

On June 29th, 2020, Governor Ron DeSantis vetoed the District Lottery and School Recognition Program line item from House Bill 5001, General Appropriations Act. This action reduced the 2020-21 funding per student by \$52, from \$7,805 to \$7,753.

[This page intentionally left blank]

CAPITAL OUTLAY BUDGET FUNDING PRIORITIES

The District's five-year capital plan provides the School Board and the public a detailed and financially feasible capital outlay plan that appropriates \$3.2 billion in estimated capital revenues over the next five-year period ending June 30, 2025.

This plan identifies the following elements in capital planning:

School Safety Funding

Since the Marjory Stoneman Douglas (MSD) High School tragedy, District and school leadership remain focused on meeting the needs of students, employees and the entire school community during our emotional and difficult recovery process. In FY 2018-19, SB 7026 provided funding for MSD to meet the facility needs necessary to recover from this tragedy. In total, the 2018 Florida Legislature approved \$26.3 million for the District to:

- Provide portables
- Build a new permanent building
- Demolish Building 12
- Construct a monument

In the 2018-19 State budget the District received funding from a State security grant that the District used to fund \$6.2 million for security cameras and \$1.8 million on public announcement (PA) systems at schools. The District also entered into a \$19.8 million capital lease to implement additional PA systems and upgrade the District's radio communications system. In the 2019-20 State budget there is an additional \$4 million in State security grant funding that is included in this DEFP FY 2019-20 update that will be used to implement additional school security upgrades. In DEFP FY 2020-21 the District is expected to get an additional \$3.3 million in funding for security items from the funds allocated in the State grant. In addition the District is using Federal funding in the E-rate program to further improve its infrastructure to support security cameras.

Funding for Capital Outlay Needs

The DEFP FY 2020-21 presented sustains funding for district-wide maintenance, student and staff computers, school buses and white fleet vehicles. The plan also funds the District's debt service for past and current financings as well as funding for building leases, capital outlay staff and charter school capital outlay.

New allocations in this plan include funding to support student information system, technology infrastructure and VOIP upgrade, as well as covered walkways and upgrades to BECON's infrastructure.

SMART Program

The SMART Program is currently \$1,260.1 million and is supported with funding from the \$800 million General Obligation Bond (GOB) and other capital outlay funding. The scope of the SMART Program is mostly unchanged from the DEFP FY 2019-20. When the School Board approves budget amendments to projects as the construction contracts were awarded those amendments are incorporated into the individual school-by-school pages that outline the funding plan for each school.

CAPITAL OUTLAY BUDGET FUNDING PRIORITIES

More information about the SMART Program is available on a quarterly basis when the District prepares the quarterly Bond Oversight Committee reports. The website where this information can be found is: <http://www.broward.k12.fl.us/boc/index.html>

Each quarter after the Bond Oversight Committee meets, a representative from the Committee presents an update to the School Board at a workshop.

Reserves

The District sustains reserves to stabilize the SMART Program and other projects in the DEFP. These reserves protect ongoing projects over the duration of the SMART Program so that changes in the economic environment and other risks are mitigated. There are SMART reserve funds the Board previously identified to be set aside for the SMART Program and additional funds are added in FY 2020-21. These reserves are shown on the Appropriations page, and details of the approved transactions that impact the reserve funds are shown in the Appendix.

Total SMART Reserve

\$225 million SMART Reserve established FY 2017-18
\$211 million COPs Series 2020A
\$436 million

The capital budget also includes an unallocated reserve that can be used for future SMART Program budget impacts. Additional allocations to the SMART Program require the Board's approval, and all future amounts are subject to change based on economic conditions and the results of annual legislative action.

**2021 LEGISLATIVE SESSION
FISCAL IMPACT**

Budget	
Florida Education Finance Program (FEFP)	\$134 increase in per-student funding for BCPS FTE: \$7,753 per-student funding for BCPS
Base Student Allocation	\$40 Per student
Safe Schools Allocation	\$180 million state-wide (level funding) (no increase from prior year)
Mental Health Assistance Allocation	\$100,000,000 (33 percent increase) state-wide
Teacher Salary Increase Allocation	\$500 million state-wide (\$47 million for BCPS): 80 percent of the total allocation is provided to increase the minimum base salary for full-time classroom teachers plus certified prekindergarten teachers funded in the FEFP to at least \$47,500, or to the maximum amount achievable. 20 percent of the total allocation, plus any remaining funds from the district's share of the 80 percent allocation can be used for other teachers.
Digital Classrooms Allocation	\$8,000,000 (\$12 million decrease) state-wide
Florida Retirement System	HB 5007 increases the employer contribution rate. Financial Negative Impact to BCPS \$23 million.
Special Session	A Special Session will likely be held to adjust the 2020-21 budget due to COVID-19's impact on state revenue.
PECO Public: NO FUNDING Charter: \$159 million *	School Hardening Grant \$42 million state-wide has been allocated to the Department of Education for school hardening grants.
Additional Funding \$800,000 for BCPS Adults with Disabilities	Workforce BCPS received an increase of \$781,000 (second largest amount in the State).
House Bill 70: Alert System in Public Schools	
<ul style="list-style-type: none"> Requires each public school beginning with the 2021-2022 school year, to implement a mobile panic alert system known as "Alyssa's Alert", capable of connecting diverse emergency services technologies to ensure real-time coordination between multiple first responders. For the 2020-2021 fiscal year and subject to legislative appropriation, the Department of Education in consultation with the Marjory Stoneman Douglas High School Public Safety Commission, the Florida Department of Law Enforcement, and the Division of Emergency Management is required to develop a competitive solicitation to contract for a mobile panic alert system, that maybe used by each school district. \$8 million appropriations for FLDOE to Implement. 	
House Bill 7067: Voucher Program	
<p>K-12 Scholarship Programs (Family Empowerment Scholarship Program):</p> <ul style="list-style-type: none"> Revises initial scholarship eligibility criteria for the Family Empowerment Scholarship Program. Requires that priority be given to students whose household income levels do not exceed a specified amount or who are in foster care or out-of-home. Potential financial impact ranges from \$10-15 million depending on how 	

**2021 LEGISLATIVE SESSION
FISCAL IMPACT**

House Bill 7097: Taxation

- Senate Bill 707 Requires sharing capital outlay surtaxes with eligible charter schools for referendums approved after July 1, 2020.
- Establishes a back-to-school sales tax holiday from August 7 to August 9, 2020.

House Bill 641: Articulated Acceleration Mechanisms In Education

- Removes a limitation on the number of semester credit hours a student may be awarded in certain programs.
- Revising the annual allocation to school districts to include an additional calculation of full-time equivalent membership for students who earn a College Board Advanced Placement Capstone Diploma beginning in a specified fiscal year.
- Creates the **Teacher Salary Allocation**.
- Deletes the **Best and Brightest Program**.
- Allows a delay of the ELA authorizing instructional materials adoption.

Congress' Response to COVID-19

Phase 1	H.R. 6074- Coronavirus Preparedness and Response Supplemental Appropriations Acts, 2020: \$8 billion to address research and public health strategies for the coronavirus.
Phase 2	H.R. 6201- Families First Coronavirus Response Act: includes provisions addressing emergency food assistance including waiver and funding authority for school meal programs, free coronavirus testing, expanded Family and Medical protected leave and paid leave including tax credits for some employers (school districts are not eligible), extended unemployment insurance, and increased Medicaid reimbursement for states.
Phase 3(a)	Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"): \$2 trillion, includes an Education Stabilization Fund of \$30 billion of which \$13 billion is provided for K-12 education, \$14 billion for higher education, and \$3 billion for each governor's discretionary use. The total CARES Act funding designated for BCPS is \$62 million, of which approximately \$10.5 and \$4.2 million will be shared with charter and private schools respectively.
Phase 3(b)	Additional funds were passed for the CARES Act to fund Paycheck Protection Program (\$310 billion), Hospitals (\$75 billion), and COVID-19 Testing (\$25 billion).
Phase 4	Pending: BCPS is working with the congressional delegation to include additional funds for K-12.

*Since the State is properly funding charter schools, school districts are not required to share millage funding.

DISTRICT FINANCES

Broward County Public Schools (BCPS) is an independent school district. The District shall:

- Take steps to ensure that students have adequate educational facilities and to provide for the operation of all public schools, both elementary and secondary, as free schools for a term of at least 180 days or the equivalent on an hourly basis. In addition to state funds, the District will determine district school funds necessary to operate all schools for the minimum term and arrange for the levying of district school taxes necessary to provide the amount needed from district sources.
- Prepare and execute the annual school budget to promote the improvement of the District school system.
- Adopt a resolution fixing the District school tax levy necessary to carry on the school program adopted for the District for the next ensuing fiscal year.
- Keep an accurate account of all funds from all sources that should be transmitted to the District School Board for school purposes during the year and, if any funds are not transmitted promptly, take the necessary steps to have such funds made available.
- Borrow money when necessary in anticipation of funds to be reasonably expected during the year as shown by the budget.
- Provide for keeping accurate records of all financial transactions.
- Implement a system of accounting and budgetary controls to ensure that payments do not exceed amounts budgeted and make available all records for proper audit.
- Fix and prescribe the bonds, and pay the premium on all such bonds, of all school employees who are responsible for school funds in order to provide reasonable safeguards for all such funds or property.
- Contract for materials, supplies, and services needed for the District school system. No contract for supplying these needs shall be made with any member of the District School Board, with the District School Superintendent, or with any business organization in which any District School Board member or the District School Superintendent has any financial interest whatsoever.
- Provide for adequate protection against any loss or damage to school property or loss resulting from any liability for which the district school board or its officers, agents, or employees may be responsible under law.
- Employ an internal auditor to perform ongoing financial verification of the financial records of the District. The internal auditor shall report directly to the District School Board or its designee.
- Contract with an independent certified public accountant to conduct a financial or performance audit of its accounts and records.

FINANCIAL POLICIES

State Statutes

Florida Statutes and public law govern the financial operations of all Florida public education institutions. The Superintendent of Schools and designated staff are responsible for keeping adequate records and accounts of all financial transactions as prescribed by the Commissioner of Education (*Financial and Program Cost Accounting and Reporting for Florida Schools, 2001*). This manual is incorporated in Rule 6A-1.001, Florida Administrative Code, pursuant to requirements of Section 1010.01, Florida Statutes.

Florida Statute 1011.02 requires an annual budget be prepared by the Superintendent for the School Board, advertised and presented at two public hearings, adopted by the Board, and submitted to the Department of Education. The budget is prepared in accordance with the regulations dictated by the State Board of Education and must include an amount for required local effort revenue, as determined by the legislature. The total budget and each of the component funds must be balanced, i.e., proposed expenditures, plus transfers and ending fund balances may not exceed proposed income, transfers and beginning fund balances.

School Board Policies

To maintain the financial integrity and stability, an adequate Fund Balance must be maintained in order to meet unexpected and emergency needs. Fund Balance shall be defined unreserved and undesignated balance in the General fund in accordance with generally accepted accounting principles; therefore, the Broward County School Board implemented Policy 3111, which requires the District to maintain a contingency reserve equal to 3 percent of total General Fund appropriations and outgoing transfers, to meet unforeseen expenditures. In the event the Fund Balance decreases to less than 3 percent, the Chief Financial Officer (CFO) shall prepare, for Board approval, a financial plan and timeline to restore the Fund Balance to the minimum set forth herein.

School Board policy 3110 sets forth the District's investment policy. The purpose of this policy is to set forth the investment objectives and parameters for the management of public funds of The School Board of Broward County, Florida. This policy is designed to ensure the prudent management of public funds, the availability of operating and capital funds when needed, and an investment return competitive with comparable funds and financial market indices. The District may only purchase securities from financial institutions, which are qualified as public depositories by the Treasurer of the State of Florida, or institutions designated as "primary securities dealers" by the Federal Reserve Bank of New York. Repurchase agreements may be entered into with financial institutions that are state qualified public depositories and primary securities dealers as designated by the Federal Reserve Bank of New York. A competitive bid process must be held prior to the selection of an investment. The policy specifically authorizes and places portfolio limits on the District's investment in The Florida Local Government Surplus Funds Trust Fund (SBA), U.S. Government securities, U.S. Government agencies, U.S. Government sponsored agencies, interest bearing time deposits, repurchase agreements, commercial paper, corporate notes, bankers' acceptances, state and local government taxable and tax-exempt debt, and money market mutual funds.

The main purpose of School Board policy 3120, Debt Management, is to assist the District in the implementation and management of its overall strategy by contributing to the continued financial health and stability of the District while assuring the future access to the debt markets to meet both scheduled and unscheduled needs.

DISTRICT BUDGET

An annual budget for the District School Board shall be prepared, advertised, presented at a public hearing pursuant to the advertisement, and adopted by the Board.

The adopted budget shall be submitted to the Commissioner of Education for review and approval of the following items:

- Estimated federal, state, and local revenue.
- Estimated non-revenue loans, bond sales, etc.
- Schedule of maturities of indebtedness and information concerning authorized obligations.
- Transfers and debt service appropriations.
- Ending balances and reserves.
 - Fund balance is the difference between revenue and expenditures.
 - Cash balances to be carried forward shall not exceed 20 percent of the anticipated tax receipt for operational purposes (the cash balance may exceed the 20 percent level when documented evidence justifies the need).
 - Unappropriated fund balances may not exceed 10 percent of total appropriations and transfers for operational purposes (the fund balance may exceed the 10 percent level when documented evidence justifies the need).

No expenditure shall be authorized or obligation incurred which is in excess of a budgetary appropriation. The School Board shall adopt procedures whereby amendments to the original budget are made as needed in order to comply with this rule.

- The School Board shall approve amendments to the District school budget whenever the function amounts in the budget accounts are changed in the original budget approved by the School Board.
- The School Board may adopt procedures whereby amendments to the budget of the Special Revenue – Other fund are considered approved by the School Board at the time the Board approves an entitlement grant, if such grant application includes a budget summary. The effect of such grant shall be reflected in the next monthly district financial report to the School Board.
- No budget amendment shall be approved by the District School Board after the due date for the annual financial report for that year.

It shall be the duty of the Superintendent of Schools and District School Board to take whatever action is necessary during the fiscal year to keep expenditures and obligations within the budgeted income, provided that:

- Any amount appropriated for the payment of indebtedness during the fiscal year shall be paid as budgeted or as the budget may have been officially amended.
- Any accounts carried over from the previous year according to prescribed principles of accounting that are charged to the previous year's business shall be paid from the first funds available which may be used for that purpose by the School Board. At no time, including the close of the fiscal year, shall an overdraft be created or shown against any fund or depository account.
- Cash balances remaining in any District interest and sinking fund or from the proceeds of any bond issue not otherwise restricted, after all obligations have been satisfied, shall be transferred to another fund or funds as authorized by resolution of the School Board.

Budgetary Goals

The main budgetary goal is to continue to increase the general fund balance. This is achieved by having a good budget management practice in place. It is essential to have good budgetary and expenditure control procedures in place to monitor budget versus actual expenditures throughout the year. In addition, it is critical that funds are set aside at the beginning of the year for contingencies such as hurricane emergency and class size penalty. If not utilized, this will result in a positive impact on fund balance at year-end.

BASIS OF ACCOUNTING

Legal Entity

Each of the 75 school districts in the state of Florida is governed by public law as well as Florida School Laws contained in the Title XLVIII K-20 Education Code, Chapters 1000 through 1013, Florida Statutes. Of those 75 districts, 67 are countywide school districts.

Basis of Accounting

The District is required to maintain two sets of financial statements, which are governmental fund-based financial statements and government-wide financial statements. The governmental fund-based financial statements use the modified accrual basis of accounting. The government-wide financial statements are based on a flow of all economic resources applied on the accrual basis of accounting. The flow of economic resources refers to all of the assets available to the District for the purpose of providing goods and services to the public. These costs would include depreciation, the cost of inventories consumed during the period, and other operating expenses.

Revenue Sources

Revenues are categorized by source: Federal, State, and Local. Revenue sources are determined by law and, therefore, revenue accounts continue to be structured by appropriation source (Federal, State, and Local) and specific appropriations.

- Federal revenue is received directly from the federal government or indirectly by flowing through the state first. The District receives federal awards for the enhancement of various educational programs.
- State revenue for support to school districts is provided primarily by legislative appropriations. While a number of tax sources are deposited in the state's General Revenue Fund, the predominant source is the sales tax. Revenue from state sources primarily includes revenue received for the operations of the District through the Florida Education Finance Program (FEFP) administered by the Florida Department of Education (FLDOE).
- Local revenue for school support is derived almost entirely from property taxes. Local revenue sources include property taxes levied by a school system on the assessed valuation of real and personal property located within the District plus interest, including profit on investment, gifts, and student fees charged for adult programs.

GOVERNMENTAL GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP)

Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. In order to demonstrate that restrictions imposed by laws and regulations have been followed, the basic financial statements of a governmental entity must include fund-based financial statements. The types of funds that may be used to satisfy this requirement are as follows:

- Governmental Funds (emphasizing major funds)
 - General Fund is the primary operating fund of the District.
 - Special Revenue Funds are legally restricted or committed for specific purposes.
 - Capital Projects Funds are used for acquisition or construction of facilities and equipment.
 - Debt Service Funds are used to account for the accumulation of resources for and the payment of interest and principal on long term debt.
 - Permanent Funds are not used by Broward County Public Schools.
- Proprietary Funds
 - Enterprise Funds (emphasizing major funds)
 - Internal Service Funds

BASIS OF ACCOUNTING

- Fiduciary Funds and Similar Component Units
 - Pension (and other employee benefit) Trust Funds
 - Investment Trust Funds
 - Private-Purpose Trust Funds
 - Custodial Funds

Governmental Funds

The basis used to prepare fund financial statements is the same basis that is currently used by governmental entities. However, unlike governmental financial reporting standards, GASB-34 requires that fund reporting be restricted to a governmental entity's General Fund, its major funds and its non-major funds combined.

Two fund types were added by GASB-34, Permanent Funds and Private-Purpose Trust Funds. Permanent Funds are used to report resources that are legally restricted to the extent that only earnings may be used for purposes that support the reporting government's programs. Private-Purpose Trust Funds are used to account for trust arrangements that are not accounted for in Fiduciary Funds.

Proprietary Funds

Proprietary Funds are accounted for on the accrual basis of accounting. The accrual basis records the financial effects of transactions and events that have potential cash consequences in the period they occur instead of the period when cash is received or paid. This was not changed by GASB-34.

- Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The District does not have any enterprise funds.
- Internal Service Funds may be used to account for activities that involve the governmental entity providing goods and services to other funds of the primary governmental unit on a cost reimbursement basis. These funds are used to account for printing and other services provided to other governmental funds.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the government's own programs. Under the Fiduciary Funds category are Pension Trust Funds, Investment Trust Funds, Private-Purpose Trust Funds and Custodial Funds. The District's Fiduciary funds consist of Custodial funds used for its student activities.

Government-Wide Financial Statements

Government-wide financial statements provide an overall picture of the financial position and activities of the government entity. These financial statements are constructed around the concept of a primary government and, therefore, encompass the primary government and its component units, except for fiduciary funds of the primary government and component units that are fiduciary in nature.

Financial statements of fiduciary funds are not presented in the government-wide financial statements but are included in the fund financial statements. The government-wide financial statements are based on a flow of all economic resources applied on the accrual basis of accounting. The two financial statements are the Statement of Net Position and the Statement of Activities.

BASIS OF ACCOUNTING

Expenditures

Expenditures are generally recognized when the related liability is incurred and the transaction or event is expected to draw upon current spendable resources. They are categorized under eight dimensions that are needed for reporting data to the Department of Education.

- Fund is a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.
- Object identifies the service or commodity obtained as a result of a specific expenditure. There are seven major object categories: (1) Salaries, (2) Employee Benefits, (3) Purchased Services, (4) Energy Services, (5) Materials and Supplies, (6) Capital Outlay, and (7) Other Expenses.
- Function is the objective or purpose of an expenditure (expense for government-wide and proprietary financial statement presentation). Functions are the activities performed to accomplish the objectives of the organization. The activities of a local school system are classified into six broad areas:
 - Instruction includes the activities dealing directly with the teaching of students or the interaction between teachers and students. Instruction is further classified as Basic [Florida Education Finance Program (FEFP K-12)], Exceptional Student Education, Career Education and Adult General. "Other Instruction" includes programs such as recreation, enrichment and prekindergarten instruction.
 - Student and Instructional Support Services provides administrative, technical, and logistical support to facilitate and enhance instruction. Student and Instructional Support Services include Student Support Services, Instructional Media Services, Instruction and Curriculum Development Services, Instructional Staff Training Services and Instruction-Related Technology.
 - General Support Services include activities associated with establishing policy, operating schools and the school system, and providing the necessary facilities and services for staff and students. This includes salaries and expenditures for the School Board, Administration (both school and general), Facilities Acquisition and Construction, Fiscal Services, Food Services, Central Services (planning, research, development, and evaluation services; information services; staff services; statistical services; data processing; internal services, such as buying, storing, and distributing supplies, furniture, and equipment; printing; and mail room and courier services), Student Transportation Services, Operation and Maintenance of Plant and Administrative Technology.
 - Community Services are activities that are not directly related to providing education for students in a school system. These include non-instructional services provided by the school system for the community.
 - Debt Service represents payments of principal and interest to service debt and expenditures related to issuance and retirement of debt.
 - Capital Outlay includes expenditures related, but not limited, to the procurement of land, the purchase of furniture and equipment, and the acquisition or construction of educational facilities.
- Facility refers to the school or office location that is the center for accumulation of costs.
- Program refers to activities, operations or organizational units designated to accomplish an objective or purpose. Educational programs are established by law for Florida school districts and are the basis for the program cost accounting and reporting system.
- Grant (State and Federal) refers to code numbers assigned by the Florida Department of Education (FLDOE) for reporting state and federal grants.
- Project refers to a classification that is used to identify expenditures related to a specific activity, such as a construction project or a project funded through grants.

BASIS OF BUDGETING

Budget Process, Budgetary Control, and Budgetary Reporting

The District's budget is a detailed operating plan that identifies estimated expenditures in relation to estimated revenues. Estimated revenue is primarily determined by projecting the number of students in each educational program and applying the legislatively determined funding formula to the full time

equivalent students in those programs. Other income, such as interest, fees, and rent is based on historical experience and future predictions. Estimated expenditures are also determined by projecting the number of students in each program in order to calculate the number of teachers required. Expenditures such as utilities, gasoline, insurance, etc. are based on historical data along with future industry projections. The budget reflects the District's priorities and represents a process through which policy decisions are made, implemented, and controlled.

The School Board follows procedures established by State Statute and State Board of Education rules in establishing annual budgets for governmental funds as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- The major functional level is the legal level of budgetary control. Budgeted amounts may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Project length budgets, such as in the Capital Projects Funds, are determined and then are fully appropriated in their entirety in the year the project is approved. For the beginning of the following year, any unexpended appropriations for a project from the prior year are re-appropriated. This process is repeated from year to year until the project is completed.
- Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward, if applicable, to the following year for the General Fund and are closed after a three-month period.

The Budget Office reviews these budgets for compliance and, if necessary, modifies them to ensure the overall integrity of the District's annual budget.

Balanced Budget

A budget is balanced when the sum of estimated net revenues, including beginning fund balance, is equal to the sum of the estimated appropriations, including ending fund balance.

Budget Amendments

Management may not amend the budget without the specific approval of the School Board. Budgets for all funds are amended during the year by submitting the requested amendments to the School Board for approval. No expenditure may be authorized and no obligation incurred in excess of the current budgetary appropriation without School Board authorization.

BASIS OF BUDGETING

School Budgets

Broward County Public Schools has adopted the practice of school-based management. Recognizing that each school has unique needs, the principals, in conjunction with the School Advisory Council (SAC), determine what staffing pattern will best meet the needs of the school. An Instructional Allocation is appropriated for each school based on the number of students and the types of educational programs in which the students are enrolled. The Instructional Allocation covers the cost of classroom teachers, materials and supplies, and eight days of substitute teachers for each teacher.

In addition, each school is provided a Support Allocation that is determined by using a model of various positions, such as principal, assistant principal, clerical staff, and media specialist, for each level. Additional staff is determined for each school based on a range of number of students at the school. The schools are funded using average salaries for primary positions; therefore, there is no advantage for a school to hire a new teacher in place of a more experienced teacher. Because of school-based management, staffing variations exist from school to school. Any salary lapse resulting from vacant school positions reverts to the District.

Schools also receive a variety of state and local categorical funds that can only be used for specific purposes. These include funding for class size reduction, instructional materials, and various exceptional education programs, to name a few.

THE BUDGET PROCESS

Fiscal Year

The District's fiscal year is July 1 through June 30.

Statutory Requirements

The District participates in the Florida Education Finance Program (FEFP), which entitles the District to receive State revenues along with the funds raised from Broward County property taxes. Florida Statute dictates budget adoption requirements and participation in the FEFP program. The Fiscal Year (FY) 2020-21 budget adoption calendar is detailed on page 4-26.

The budget process for the current year begins months before the start of the fiscal year on July 1. Student enrollment is projected in December of each year for the following fiscal year and submitted to the Florida Department of Education. The Florida Department of Education collects the projections made by each district. The Florida Legislature utilizes the enrollment projections to formulate the state K-12 FEFP education budget. FEFP funds then are allocated to the individual school districts based on the enrollment projections. Once the FEFP revenue for the District is finalized at the conclusion of the legislative session, usually in early May, the District can finalize the budget and millage rates proposed for tentative adoption in late July.

Truth-in-Millage (TRIM) laws define the formal budget adoption process. To comply with TRIM, the District will hold the first public hearing for the FY 2020-21 tentative budget and millage rates on July 28, 2020. The hearing provides the public the opportunity for input to the budget process and for the School Board to tentatively approve the 2020 millage rates and approve the FY 2020-21 proposed budget. (Note: Local property taxes are assessed for November 2020 collection; hence, 2020 tax collections fund the FY 2020-21 budget). The second and final public hearing will be held on September 9, 2020, for the purpose of allowing the public additional input into the budget, and for the Board to adopt the final budget and millage rates for FY 2020-21.

Budget Development – Local Process

The District budget is a detailed operating plan that identifies estimated expenditures in relation to estimated revenues. The Board's goals and objectives are the main drivers of the budget development process, along with funding constraints.

The FY 2020-21 budget process began after the adoption of the FY 2019-20 budget in September. Two timelines address the budgeting process, one to address school budgets and another one to address departmental budgets. The schools timeline includes the preparation and approval of membership projections; the projected allocation of various programs, such as Magnet, Class Size, Safe Schools, etc.; the projection of grants funding; the teacher hiring process, preparation of school budgets; registration of students; etc. The Department timeline includes divisional planning meetings, review of initiatives, review of program requirements, assessment of availability of resources, etc.

Every year, the Finance division coordinates and presents to the Board three to four Budget Workshops prior to the First Public Hearing.

At the conclusion of the budget development process, two public hearings are held, providing additional opportunity for the public to voice their opinions on the budget. The budget is adopted at the second public hearing in September.

At the start of the school year, school budgets are adjusted to reflect actual student enrollment counts as of Benchmark Day count early in September. The State recalculates district revenue based on the revised student Full-time equivalent (FTE) data in October and February. These adjustments are incorporated into the district's budget amendment process.

THE BUDGET PROCESS

Budget Amendment Process

The budget is continually monitored and amended throughout the year. Amendments to the budget reflecting revenue changes and adjustments are brought to the Board monthly for their review and approval.

Long Term Planning

The District's primary source of funding, the Florida Education Finance Program, is determined by legislative appropriation each year, generally concluding in May. The fiscal year begins on July 1, requiring that revenue projection and budget planning continue all year, until the final appropriation by the legislature is known. Since the legislature appropriates for only one year, it is difficult to plan much beyond one year. Due to the uncertainty of annual funding, the economic and political environments are carefully monitored for trends that may affect the future year's funding. Gauging the future outlook allows the District to be pro-active and develop strategies to deal with funding issues as they occur.

Budget Trends

The District began the FY 2020-21 budget process with a clear understanding of the continuing challenges it faces in current economic conditions.

Property Tax Collections: By July 1, 2020, the Property Appraiser certified the tax roll for Broward County at \$226.7 billion, up \$9.6 billion, or 4.41 percent increase over July 1, 2019. This is the eighth increase in the tax roll since the housing market crash in FY 2008-09.

Sales Tax Revenue: The State relies heavily on sales tax revenue to fund its portion of the Florida Education Finance Program. As the state economy began to show signs of recovery, the Governor and state legislature steadily increased K-12 funding from FY 2013-14 through 2017-18. However, in 2018-19, the increase has been set at less than one percent, giving BCPS the lowest increase among all 67 counties in the State. In 2019-20, revenue increased by 2.38 percent. In 2020-21, revenue increased by 2.64 percent.

Class Size Amendment Compliance: In 2002, Florida voters amended the State Constitution to require caps on the number of children in each classroom. The implementation of the amendment has been phased in over several years with full compliance scheduled to be in place for all districts by October 2010. Faced with the underfunding of the initiative despite its constitutional obligation to do so, the Florida Legislature asked voters to again amend the constitution to allow for school-wide averages per classroom of 18 students in grades K-3, 22 in grades 4-8 and 25 in grades 9-12, as well as a cap in each individual core curriculum classroom of 21, 27 and 30 respectively. The referendum appeared on the ballot in the November 2010 general election and did not pass.

During the 2011 legislative session, Senate Bill SB 2120 was passed. SB 2120 changes the definition of core curriculum and reduces the number of courses that must meet the class size cap. This provided some relief to districts but still caused situations where one child over the cap at a school required opening a classroom to avoid non-compliance and the related penalty. The District worked closely with schools to schedule students effectively to maximize learning opportunities while minimizing situations where the District was not compliant. In FY 2019-20, non-charter schools in the District were able to achieve compliance at 100 percent in school-wide average for Choice School, thus generating no penalty.

In addition, during the 2013 legislative session, language was inserted in the conforming bill (SB1500) that offers schools with choice programs opportunities to further achieve compliance.

OPERATIONS BUDGET CALENDAR

Ref Day	Date	Activity	Statutory Requirement	Statutory Reference
D	Wednesday, 7/1/2020	Property Appraiser certifies tax roll.	July 1 or date of certification, whichever is later.	200.065(1) 193.023(1)
	Sunday, 7/19/2020	Receive "Required Local Effort" from Department of Education.	Not later than 7/19/20, the Commissioner of Education shall certify Required Local Effort.	1011.62(4)(a)
D + 23	Wednesday, July 24, 2020 *	Within 24 days of the Certification of Value. Superintendent presents tentative 2020-21 budget to the School Board.	Superintendent submits tentative budget to The School Board of Broward County, Florida. School Board shall approve tentative budget for advertising.	200.065(2)(a)3 1011.02 1011.03
D + 28	Friday, 7/24/2020	Within 29 days of the Certification of Value, the district must advertise in the newspaper.	Advertising summary of tentative budget, including proposed millage rates.	200.065(2)(f)1 1011.03
	Tuesday July 28, 2020**	Not less than 2 nor more than 5 days after advertising.	The School Board holds public hearing on tentative budget and proposed millage rates; amends and adopts tentative budget.	200.065(2)(f)1
D + 34	Tuesday 8/4/2020	Within 35 days of Certification of Value.	Advise Property Appraiser of proposed millage rate. This will be used by Property Appraiser to prepare Notice of Proposed Property Taxes.	200.065(2)(b) 200.065(2)(f)2
Not less than D + 64 not more than D + 79	Wednesday, Sept. 9, 2020**	65-80 days after Certification of Value. (Between 9/3/2020 and 9/18/2020)	Hold public hearing to adopt final budget and to adopt millage rate. No newspaper advertisement is required. Millage rate cannot exceed the rate tentatively adopted on D + 34 unless each taxpayer is sent a personal notice of change under the new rates. Such notice is prepared by the Property Appraiser at School Board expense and should be mailed no more than 15 days nor less than 10 days prior to any hearing.	200.065(2)(c) 200.065(2)(f)3
	Friday, 9/11/2020	Within 3 days after adoption of final millage rate.	Notify Property Appraiser and Tax Collector of adopted millage rate within 3 days after adoption of the resolution.	200.065(4)
	Friday, 9/11/2020	Within 3 business days after adoption of final budget.	Submit budget to Department of Education within 3 business days after adoption.	6A-1.0071(1)
D + 100	Friday, 10/9/2020	Within 30 days after adopting millage & budget. No later than 101 days after Certification of Value.	Submit TRIM compliance package to the Department of Revenue.	200.065(4)

CAPITAL OUTLAY FUNDS BUDGET

Capital Outlay Funds

These funds account for revenue to acquire, construct, or maintain facilities and capital equipment for the District. In addition, funds can be allocated for land acquisition, new equipment purchases, buses and other vehicles, capital improvements, and capital debt service.

Capital Outlay Revenue & Financing Sources

Revenue and other financing sources for capital outlay funds are comprised of state allocations, federal and local sources including; the Capital Improvement Ad Valorem Tax Levy (millage), General Obligation Bond (GOB), impact fees, and capital equipment leases. Project expenditures from state sources require that the project be listed in the District's approved Educational Plant Survey. Each fund group is accounted for separately as required by statutes.

On March 31, 2020, the Board approved a resolution to issue \$250 million in Certificate of Participation (COP) to increase funding for the **Safety, Music and Art, Athletics, Renovation, and Technology (SMART)** program reserve.

On November 4, 2014, Broward County voters gave their overwhelming support of the District's request to pass an \$800 Million GOB with a 74 percent approval margin. The bond provides critically needed funding for Broward's students. The School Board asked voters for this approval in direct response to years of unsuccessful advocacy requesting the Florida legislature restore the capital millage rate and the current push in an ongoing effort to address the District's critical capital budget situation. The District has committed to investing the funding to enhance students' learning environments by focusing on improvements in (**SMART**). When the GOB is combined with other capital outlay funds, the SMART program is currently \$1,260 Million.

Capital Outlay Appropriations

The largest capital outlay appropriations are for the SMART Program, capital improvements, maintenance of educational facilities and the repayment of prior year certificates of participation (COPs) construction financing. Funds can also be used for renovation and remodeling of existing facilities, construction of new and replacement school buildings, school security, health and safety projects, and technology equipment upgrades. Other appropriations may include, land acquisition, and equipment for schools and departments. Funding for transportation vehicles includes the purchase of school buses for student transportation and white fleet vehicles including maintenance trucks and security vehicles.

District Educational Facilities Plan

The Tentative District Educational Facilities Plan (DEFP) was approved on July 21, 2020. A summary of the plan is included in the Information section of this budget presentation. The capital outlay appropriations are amended throughout the year with the appropriate approval and authorization from the School Board.

District Maintenance

As schools age, the costs of repairs and maintenance continue to rise. Funds from the Florida Education Finance Program (FEFP) for repairs and maintenance has not kept pace with the funds necessary to keep schools in good condition. As the need for maintaining the District's aging facilities has grown, funding is transferred from the capital fund to the general fund to pay for repairs and maintenance (as allowed by Florida Statutes). The replacement of infrastructure items such as air-conditioning, roofing, plumbing, and electrical systems is also provided through the capital fund transfer into the general fund.

CAPITAL OUTLAY BUDGET PROCESS

Background

The primary source of capital outlay revenue comes from local property taxes. Between 2008 and 2010 the Florida Legislature approved budgets that reduced the amount school districts can levy for capital outlay from 2.0 mills to 1.5 mills. This millage rate reduction combined with the major decline in Broward's taxable property values had a large negative impact on capital millage revenues. The District's decision in 2014 to ask the voters of Broward County to approve the \$800 million general obligation bond (GOB) is directly related to the strain the millage rate reduction caused in the effort to address the District's ongoing repair, maintenance and modernization of the schools.

On March 31, 2020, the Board approved a resolution to issue \$250 million in Certificates of Participation (COPs) to increase funding for the SMART Program. This approval will allow the program to be completed with successful delivery of the projects scopes included in the SMART Program.

District Educational Facilities Plan

Florida Statute 1013.35 requires that school districts prepare and adopt a District Educational Facilities Plan (DEFP) before adopting the annual capital outlay budget. The overall capital outlay plan is based on an analysis of the District's demographics, community participation, departmental recommendations, the Superintendent's Cabinet, and School Board member input.

The DEFP lays out a \$3.2 billion five-year financial plan to address school security, renovation projects, technology improvements, music instruments and equipment, school buses, capital improvements, maintenance and repair, and to make debt service payments.

The current DEFP includes the \$800 million GOB combined with other capital outlay funds to implement the SMART Program. The SMART Program currently includes \$1,260 million to enhance students' learning environments. Technology is one of the cornerstones of the SMART Program. The work included in the SMART Program to improve technology infrastructure and provide new devices in schools was completed during the 2017-18 school year.

The DEFP also highlights SMART Program construction projects across the District. These projects are being implemented through contracts the District has entered with outside firms to provide Owner's Representative and Cost/Program Controls management services. Using these firms enhances the District's efficiency by keeping the District current with the latest developments in management systems and practices. In addition, the firms established a central coordinated repository of data by implementing, maintaining, and upgrading management information systems appropriate for the District's construction projects, and are facilitating the efficient and effective use of information throughout the District's construction projects.

The public has an opportunity to provide input into the DEFP at two School Board meetings and various School Board workshops each year. In addition, the School Board, municipalities, and the county have an interlocal agreement for public school facility planning that increases the level of interaction and opportunity for those entities to provide feedback into the process of developing the DEFP. The School Board is scheduled to approve the DEFP on September 1, 2020. The first year of the DEFP constitutes the 2020-21 capital outlay budget. The School Board can amend the capital outlay budget during the fiscal year to recognize changes in revenues and adjust funding for capital projects and programs. The capital outlay budget is officially adopted as part of the annual budget adoption each year.

CAPITAL OUTLAY BUDGET CALENDAR

Date	Activity	Statutory Requirement	Statutory Reference
Tuesday 2/11/2020	The School Board holds a workshop to discuss the preliminary capital budget revenue and appropriations		
Tuesday 5/12/2020	The School Board holds a workshop to discuss the 2021 preliminary budget		
Tuesday 6/16/2020	The School Board holds a workshop to discuss the 2021 preliminary budget		
Tuesday 7/14/2020	Tentative District Educational Facilities Plan is prepared and delivered to School Board members	Annually, prior to the adoption of the district school budget, each district school board shall prepare a Tentative District Educational Facilities Plan	1013.35 (2)(a)
Tuesday 7/14/2020	Submittal of the Tentative District Educational Facilities Plan per Interlocal Agreement	The district school board shall submit a copy of its Tentative District Educational Facilities Plan to all affected local governments prior to adoption by the Board	1013.35 (3)
Tuesday 7/21/2020	The School Board holds the first meeting on the Tentative District Educational Facilities Plan, fiscal years 2020-21 to 2024-25	Provision shall be made for public comment concerning the Tentative District Educational Facilities Plan	1013.35 (2)(d)
Tuesday 7/28/2020	The School Board holds the first public hearing on the 2021 annual budget	The School Board holds a public hearing on the tentative budget and proposed millage rates; amends and adopts the tentative budget	200.065 (2)(f)1
Tuesday 9/1/2020	The School Board holds a second meeting and adopts the District Educational Facilities Plan, fiscal years 2020-21 to 2024-25.	Annually, the District School Board shall consider and adopt the Tentative District Educational Facilities Plan	1013.35 (4)
Wednesday 9/9/2020	The School Board holds the second public hearing to adopt the 2021 annual budget	The School Board holds a public hearing to adopt the final budget and to adopt millage rates	200.065(2)(c) 200.065(2)(f)3
Thursday 10/1/2020	The Adopted District Educational Facilities Plan must be submitted to the Department of Education An electronic version of the plan is to be submitted to DOE on their approved forms	Functions of the Department of Education: Require each board and other appropriate agencies to submit complete and accurate financial data as to the amounts of funds from all sources that are available and spent for construction and capital improvements. The commissioner shall prescribe the format and the date for the submission of this data and any other educational facilities data.	1013.03(4)

FINANCIAL

[This page intentionally left blank]

MAJOR REVENUE SOURCES

Revenues are categorized by source: Federal, State, and Local. Revenue sources are determined by law and, therefore, revenue accounts continue to be structured by appropriation source (Federal, State, and Local) and specific appropriations.

From the three major revenue sources in 2020-21, the District expected to receive 0.8 percent of General Fund financial support from Federal sources, 45.2 percent from State sources, and 43 percent from Local sources. The remaining 11 percent is comprised of transfers from other funds and fund balance.

Revenue from Federal Sources

The District receives federal awards for the enhancement of various educational programs. These funds are received directly from the Federal Government or indirectly by flowing through the state first. Budgeting is based according to the grant plan. An example of federal direct revenue is funding received for Head Start pre-kindergarten programs. An example of Federal through State revenue is funding for Title I ESEA.

For the General Fund, Broward County Public Schools (BCPS) receives Reserve Officers Training Corps (ROTC) funding as federal direct revenue and Medicaid funding as Federal through State revenue.

Federal Revenue Trend - 5 Year History

Revenue from State Sources

Funds for state support to school districts are provided primarily by legislative appropriations. While a number of tax sources are deposited in the state’s General Revenue Fund, the predominant source is sales tax. Revenue from state sources primarily includes revenue received for the operations of the District through the Florida Education Finance Program (FEFP) administered by the Florida Department of Education (FLDOE) under the provisions of Section 1011.62, Florida Statutes. Statewide, funds appropriated to finance the FEFP in 2020-21 were \$9.7 billion, plus \$3.1 billion in state categorical funds.

The focus of the state finance program bases financial support for education upon the individual student participating in a particular educational program rather than upon the number of teachers or classrooms. The educational programs recognized in the FEFP are basic education, instruction of students with limited English proficiency, instruction of exceptional students (disabled and gifted), and career education. FEFP funds are primarily generated by multiplying the number of full-time equivalent (FTE) students in each of the educational programs by cost factors to obtain weighted FTE. Program cost factors are determined by the Legislature and represent relative cost differences among the FEFP programs. The weighted FTE is then multiplied by a base student allocation (BSA) and by a district cost differential (DCD) in the major calculation to determine state and local FEFP funds.

MAJOR REVENUE SOURCES

In addition, funds are appropriated to meet other needs by means of special allocations, which include allocations for Exceptional Student Education (ESE) students, at-risk students, Safe Schools, Reading, student transportation, Instructional Materials, and the Teacher Lead Program. Special allocations are funded through the FEFP, making them partially funded by local revenue derived mainly through property taxes. Class Size Reduction (CSR) is fully funded categorically by the state through sales taxes.

On June 29th, 2020, Governor Ron DeSantis vetoed the District Lottery and School Recognition Program line item from House Bill 5001, General Appropriations Act. Therefore, the District Lottery and School Recognition funding source will be paused for fiscal year 2020-21 and no funds will be distributed.

Revenue from Local Sources

Local revenue for school support is derived almost entirely from property taxes. Local revenue sources include property taxes levied by a school system on the assessed valuation of real and personal property located within the district plus interest, including profit on investment, gifts, and student fees charged for adult programs.

Each School Board participating in the state allocation of funds for the current operation of schools must levy the millage set for its Required Local Effort (RLE). The Legislature set the statewide amount of \$8 billion as the RLE contribution from counties for 2020-21. Each district's share of the state total of RLE is determined by a statutory procedure initiated by certification of each district's property tax valuations by the Department of Revenue.

The Commissioner of Education certifies each district's RLE millage rate no later than July 19. These rates are primarily determined by dividing the dollar amount of RLE by 96 percent of the aggregated taxable value of all districts. Certifications vary due to the use of assessment ratios designed to equalize the effort on the FEFP of differing levels of property appraisal in the counties. Millage rates are also adjusted because the RLE effort may not exceed 90 percent of a district's total FEFP entitlement.

MAJOR REVENUE SOURCES

School Boards may set discretionary tax levies of the following types:

Current Operations

The Legislature set the total local millage for 2020-21. The statewide average millage rate is 3.733. The total combined millage levied by the School Board of Broward County is set at 6.4902, which includes the following:

- Required Local Effort 3.6510 (FEFP First Calculation)
- Discretionary Operating 0.7480
- Local Capital Improvement 1.5000
- Referendum 0.5000 (voter-approved)
- Debt Service 0.0912 (voter-approved)

Capital Outlay and Maintenance

School Boards may levy a local property tax to fund school district capital outlay projects. Per Florida Statutes 1.5000 mills can be used for:

- new construction and remodeling projects
- the purchase of sites, site improvement, or site expansion
- auxiliary facilities, athletic facilities, or ancillary facilities
- the maintenance, renovation, and repair of existing schools or leased facilities
- the purchase, lease-purchase, or lease of school buses
- the purchase, lease-purchase, or lease of new and replacement equipment and enterprise resource software applications
- the payment of costs directly related to complying with state and federal environmental statutes, rules, and regulations governing school facilities
- the payment of costs of leasing relocatable educational facilities or renting/leasing educational facilities and sites
- the payment of costs of opening day collection for the library media center of a new school
- the payments for educational facilities and sites due under a lease-purchase agreement (the payment amount may not exceed three-fourths of the capital millage levy)
- the payment of loans approved pursuant to sections 1011.14 and 1011.15, Florida Statutes
- the payment of school buses when a school district contracts with a private entity to provide student transportation services

A school district may also use an amount up to \$100 per unweighted full-time equivalent (FTE) from the capital outlay millage to fund:

- the purchase, lease-purchase, or lease of driver's education vehicles
- motor vehicles used for the maintenance or operation of plants and equipment
- security vehicles, as well as vehicles used in storing or distributing materials and equipment
- the payment of premium costs for property and casualty insurance

MAJOR EXPENDITURES

The purpose of expenditures are indicated by function classifications. Functions are group-related activities aimed at accomplishing a major service or regulatory responsibility. The activities of a local school system are classified into five broad areas:

- ✓ Instruction
- ✓ Instructional Support
- ✓ General Support
- ✓ Community Services
- ✓ Non-program Charges (Debt Service and Transfers)

Instruction

Instruction includes the activities dealing directly with the teaching of students or the interaction between teacher and student. Teaching may be provided for students in a school classroom, in a location such as a home or hospital, and other learning situations, such as those involving co-curricular activities. It may also be provided through some other approved medium, such as television, radio, telephone, and correspondence. Student transportation and fee-supported childcare programs are not charged to instruction.

Instructional Support

Instructional Support provides administrative, technical, and logistical support to facilitate and enhance instruction. These services exist as an adjunct for the fulfillment of the objectives of the Instruction function. The Instructional Support function includes pupil personnel services (attendance and social work, guidance, health services, psychological services, parental involvement), instructional media, curriculum development, and instructional staff training.

General Support

General Support services are those that are concerned with establishing policy, operating schools and the school system, and providing the essential facilities and services for staff and students. The General Support function includes the school board, administration (both school and general), facilities acquisition and construction, fiscal services, food services, central services (planning, research, development, and evaluation services; information services; staff services; statistical services; data processing; internal services, such as buying, storing, and distributing supplies, furniture, and equipment; printing; and mail room and courier services), student transportation, and operation and maintenance of plant.

Community Services

Community Services are those activities that are not related to providing education to students. These include services provided by the school system for the community as a whole or some segment of the community, such as recreation, childcare, and community welfare activities.

Non-program Charges

Non-program Charges include debt service, which is payments of principal and interest for the retirement of debt, and transfers, which are nonreciprocal inter-fund activities represented by disbursement of cash or goods from one fund within the district to another fund without an equivalent return and with a requirement for repayment.

MAJOR EXPENDITURES

General Fund

For 2020-21, the projected expenditures by function within the General Fund show that the greatest expense will fall under Instruction at 61.5 percent, followed by General Support at 23.0 percent. Within General Support, 10.1 percent is for operation and maintenance of plant, 5.5 percent is for school administration, 3.3 percent is for student transportation, and the remaining 4.1 percent covers general administration and fiscal and central services. Instructional Support is 8.4 percent of projected expenditures. Community Services and Non-program Charges combined are 0.5 percent of the projected General Fund expenditures. This is a total of 93.4 percent. The remaining 6.7 percent is Reserves and Ending Fund Balance.

General Fund Function	Projected Expenditures (in thousands)
Instruction	\$1,630,926,587
Instructional Support	223,555,028
General Support	608,360,865
Community Services	11,123,779
Non-program Charges	2,135,000
Transfers and Ending Fund Balance	176,352,773
TOTAL	\$ 2,652,454,032

2020-21 General Fund Projected Expenditures

All Funds

When the General, Special Revenue, Capital, Internal Service, and Debt Service funds are combined, Instruction remains at the greatest percentage. This is caused, in part, by the increase in General Support to the Capital Fund, which is used for facilities acquisition and construction.

MAJOR EXPENDITURES BY OBJECT

Salaries - Amounts paid to employees of the school system who are considered to be in positions of a permanent nature, including personnel under written contract substituting for individuals in permanent positions. This includes gross salary for personal services rendered while on the payroll of the District School Board.

Employee Benefits - Amounts paid by the District on behalf of employees. These amounts are not included in gross salary. Such payments are fringe benefits and are not paid directly to employees; however, fringe benefits are part of the cost of employing staff. In the special case of workers' compensation, a functional prorated amount based on an approximate premium cost is required.

Purchased Services - Amounts paid for personal services rendered by personnel who are not on the payroll of the District School Board, and other services that the Board may purchase. While a product may or may not result from the transaction, the primary reason for the purchase is the service provided.

Energy Services - Expenditures for various types of energy used by the school district. Examples include electricity, gasoline, diesel fuel, heating oil, natural and bottled gas.

Categories	Expenditures
Salaries	1,352,545,805
Employee Benefits	417,370,134
Purchased Services	561,554,894
Energy Services	56,951,664
Materials & Supplies	67,518,613
Capital Outlay & Other	20,160,149
Transfers	2,687,850
Fund Balance	173,664,923
TOTAL	2,652,454,032

Materials and Supplies - Amounts paid for items of an expendable nature that are consumed, worn out or deteriorated by use, or items that lose their identity through fabrication or incorporation into different or more complex units or substances.

Capital Outlay - Expenditures for the acquisition of capital assets or additions to capital assets. These are expenditures for land or existing buildings, improvements to grounds, construction of buildings, additions to buildings, remodeling of buildings, initial equipment, new and replacement equipment, and software.

Transfers - Nonreciprocal inter-fund activity represented by disbursement of cash or goods from one fund within the District to another fund without an equivalent return and without a requirement for repayment.

Fund Balance - Governmental Funds report the difference between their assets and liabilities as fund balance. Under Generally Accepted Accounting Principles (GAAP), fund balance is divided into reserved and unreserved portions.

TOTAL	\$2,494,923,969	\$2,433,892,197	\$61,031,772	

Comments:

- (a) Anticipated decrease in Medicaid administrative claims in FY 2020-21.
- (b) The increase is primarily due to the new Teacher Salary Increase Allocation as part of the FEFP formula in FY 2020-21. The increase is also due to the way the State allocates FEFP funding for the McKay Scholarship program, which includes funding for McKay at the beginning of the year and removed in the FEFP third calculation.
- (c) The increase is due to additional funding provided for Workforce Development for FY 2020-21.
- (d) The decrease is primarily due to the Governor's veto of School Recognition funding as well as a decrease in Voluntary Pre-kindergarten (VPK) revenue.
- (e) The increase is primarily due to the State's estimated increase in 2020 Taxable Values.
- (f) The decrease is primarily due to less anticipated revenue collections from investments, Before and After Care, and other child care fees in FY 2020-21.
- (g) The increase is primarily due to increases in the maintenance and repairs transfer from Capital funds.

¹ State Other includes funds for Adults with Disabilities, Discretionary Lottery Funds, School Recognition, and VPK funding.

² Local Other includes facility rental income and fees for courses, child care, PK programs, and certification.

NOTE: Information for FY 2019-20 is from the General Fund Amendment as of May 31, 2020, and information for FY 2020-21 uses FEFP First Calculation.

TOTAL	\$2,478,789,109	\$2,419,279,535	\$59,509,574	

Comments:

- (a) The increase is primarily due to the new FY 2020-21 Teacher Salary Increase Allocation funding from the State for teachers' minimum salary increase, as well as increases in FRS rates from the State.
- (b) The increase is primarily due to Mental Health support positions funded via the voter-approved Referendum, as well as increases in FRS rates from the State.
- (c) The decrease is primarily the result of funding reductions and paused programs implemented in FY 2020-21.
- (d) The increase is primarily due to additional funding for ESE related services, as well as increases in FRS rates from the State.
- (e) The decrease is primarily the result of funding reductions and paused programs implemented in FY 2020-21.
- (f) The increase is primarily due to increase in FRS rates from the State.

GENERAL FUND COMPARISON OF APPROPRIATIONS

- (g) The decrease is primarily the result of funding reductions and paused programs implemented in FY 2020-21.
- (h) The decrease is primarily the result of funding reductions and paused programs implemented in FY 2020-21. The decrease is also due to one-time funds in FY 2019-20, such as emergency funding for COVID-19 pandemic.
- (i) The increase is primarily due to increases in FRS rates from the State, as well as the inclusion of projected year-end reductions in fuel purchases and bus field trips in FY 2019-20 budget.
- (j) The increase is primarily due to Safety-related positions funded via the voter-approved Referendum portion of Safety and Security, increase in the property and casualty insurance premiums, as well as increases in FRS rates from the State.
- (k) The increase is primarily due to an increase in the Capital Fund transfer into the General Fund budget for facility repair and maintenance costs.
- (l) The decrease is primarily due to a decrease of Before and After School Care program revenues, resulting in an offsetting decrease in related appropriations.
- (m) The decrease is primarily the result of funding reductions and paused programs implemented in FY 2020-21. The decrease is also due to the inclusion of Miscellaneous Special Revenue funds to the General Fund as an accounting practice recommendation by the Association of School Business Officials (ASBO).

NOTE: Information for FY 2019-20 is from the General Fund Amendment as of May 31, 2020, and information for FY 2020-21 uses FEFP First Calculation

GENERAL FUND SCHOOL CATEGORICAL FUNDING DESCRIPTION

1. Additional Support Funding – Approved funding for items (submitted on Budget Request forms) due to special circumstances. See *School Funding Allocations and Guidelines*.
2. Administrative Cost – Adults with Disabilities (AWD) – Whispering Pines and Seagull receive funds to assist with administering this program.
3. Adults with Disabilities (AWD) – A program for adults with disabilities that offers pre-employability and technology skills, social and recreational activities, daily living, self-care and communication skills.
4. Advanced International Certificate of Education (AICE) – Additional FTE is earned by students enrolled in an AICE course and receive a score of E or higher on a subject exam. The AICE teacher bonus payments are distributed from these funds.
5. Advanced Placement (AP) – Additional FTE is earned by students enrolled in an AP course and receive a score of 3 or higher on the AP exam. The AP teacher bonus payments are distributed from these funds.
6. Alternative to External Suspension Program (AES) – Program offered to students for a period comparable to the anticipated length of suspension, as per the District’s discipline matrix.
7. Armed Safe School Officer (ASSO) – Schools receive funding for the new Armed Safe School Officer-Marshal/Guardian Program.
8. Assistant Principal Summer Scheduling – Secondary schools will receive funding to compensate Assistant Principals not on calendar to perform master scheduling during the summer for the upcoming school year.
9. Athletics – Middle, high, and multi-level (grades 6-12 only) schools receive funds for athletics.
10. Behavior Change – Behavior Change Centers receive funds to cover positions which supplement at-risk intervention for students. Also, funds an ESE Specialist and Behavior Technician at Bright Horizons, Cross Creek, The Quest, and Whispering Pines.
11. Boost – Fees collected by Before & Afterschool programs for Principals' bonus payment for running a fiscally and educationally sound program.
12. Broward Truancy Intervention Program (BTIP) – Funds to offset tracking and intervention costs to decrease severe truancy at select elementary and multi-level (grades K-8 only) schools.
13. Broward Virtual Education (BVS) – The BCPS virtual schools.
14. Budget Reduction Adjustment - Prior Years – Only pertains to centers, as they were not part of the FY 2018-19 funding model revision.
15. Business Support Center (BSC) Package Fees – A fee charged to select schools that receive services through the District’s Business Support Center.
16. Campus Monitor - Additional Support – Funds for select high schools, including Dillard 6-12.
17. Children’s Services Council - Transportation – Select high schools receive funding for transportation services to support the Children's Services Council Program.
18. Class Size Reduction (CSR) - Local Critical Needs – Local funds allocated to schools that have implemented every strategy to meet CSR requirements but are still unable to meet schoolwide average compliance.
19. Class Size Reduction (CSR) - State – The state categorical funds used for meeting CSR requirements. The school allocations are based on the state CSR funding formula.
20. Community Foundation of Broward – A grant that supports the Reimagining Middle Grades initiative. The grant requires a full match from BCPS which will be provided in the form of personnel to assist at-risk students at select middle schools.
21. Custodial - Community Schools – Select community schools are funded one-half of a Facility Serviceperson and \$1,000 for supplies for providing adult education classes.

GENERAL FUND SCHOOL CATEGORICAL FUNDING DESCRIPTION

22. Custodial Allocation – Funding based on the number of teachers, students and the square footage of the facility. Larkdale, North Side, Walter C. Young, Stranahan, Cypress Run, Lanier James, Pine Ridge, Wingate Oaks, Atlantic Tech, McFatter Tech, and Sheridan Tech receive additional funding for custodians. Custodial - Community Schools – Select community schools are funded one-half of a Facility Serviceperson and \$1,000 for supplies for providing adult education classes.
23. DJJ Supplemental Allocation – state categorical funding for DJJ sites.
24. DOP Contracts – Pace and AMI contracted DJJ programs and additional support staff at Whiddon Rogers Education Center which provides instructional programs for at-risk students at off campus locations.
25. Drew Resource Center – Funds to cover the cost of operations at Dave Thomas Education Center for the management of the Drew Resource Center.
26. Dual Enrollment – High schools reimburse the District a portion of the cost for those students dual-enrolled in colleges that have an Articulation Agreement with the District.
27. ESE – Schools receive ESE funds for various positions and programs such as; ESE Support Facilitator, Speech Language Pathologist, ESE Pre-K, ESE Speech Material & Supplies, ESE Special Programs, ESE Vocational Rehab, ESE Specialist Allocation, etc.
28. Extended Day (SAI) - Low 300 – Funding for the additional half-hour of reading instruction for lowest performing 300 elementary schools based on the state reading assessment.
29. Facility Rental – Revenue schools receive from renting its facilities for unrelated school functions.
30. Financial Aid Fund Trust (FAFT) – Districts are authorized in section 1009.22, F.S., to assess financial aid fees for students enrolled in career certificate and applied technology diploma programs (up to 10 percent of the standard tuition rate and out-of-state fee). Districts currently collect this fee locally and distribute the funds in financial aid awards to students with financial need who are enrolled in their post-secondary programs.
31. Fees – Revenue schools receive to cover the cost of various services provided (i.e. Before & Afterschool Care).
32. High School Scheduling – Funds that offset the cost to move Lauderhill 6-12, a multi-level school, to a High School Straight Block Scheduling model.
33. Industry Certification - CAPE – Additional FTE is earned by students who successfully complete a career-themed course and are issued an industry certification identified on the *CAPE Industry Certification Funding List*. The CAPE teacher bonus payments are distributed from these funds.
34. Industry Certified Career – DIGITAL TOOLS – Elementary and middle school students who successfully complete an embedded CAPE Digital Tools course and issued a CAPE Digital Tools certification earned 0.025 FTE. Additional FTE for elementary and middle school students cannot exceed .1 FTE. The CAPE Digital Tools teacher bonus payments are distributed from these funds.
35. Innovative & Magnet Programs – Funding for unique programs. The program requirements are reviewed annually.
36. Instructional Materials and Science Labs – Instructional materials funded through the State Instructional Materials allocation.
37. International Baccalaureate (IB) – Additional FTE is earned by students enrolled in an IB course and receive a score of 4 or higher on a subject exam, or receive an IB diploma. The IB teacher bonus payments are distributed from these funds.

GENERAL FUND SCHOOL CATEGORICAL FUNDING DESCRIPTION

38. Intensive Reading Program – Funding is for high schools, multi-level 6-12, alternative & behavior change centers based on the number of students that have not passed the Florida Standards Assessment (FSA).
39. Material & Supplies Instructional Allocation (IA) – Funds classroom materials and supplies.
40. Medicaid – Medicaid funds 50 percent of the ESE Specialist position for elementary schools with less than 300 ESE weighted FTE students and have four or more ESE Special Programs. Provides funds for an ESE Support Facilitator and a Behavior Technician in centers and technical colleges. Medicaid 504 provides supplemental Medicaid funding for health services and medically trained support personnel. The Fee for Service program provides reimbursement to schools for services, therapies and interventions which are identified on an Individual Educational Plan (IEP).
41. Other – Human Relations Council, Innovation Zone, Lost and Damaged Textbook remittances, School Discretionary and Shared Savings Incentive Funds.
42. Pre-K Contracts – Funding for outside Pre-K agency contracts. Harbordale Elementary receives the funds to manage the Pre-K agency contracts.
43. R.O.T.C – The Federal Government reimburses the District for 50 percent of each ROTC program instructor's salary and benefits. The FTE the students generate funds the difference.
44. Reading Coach – Funds one reading coach position at each school, except Bright Horizons, The Quest, and Wingate Oaks.
45. Referendum - Broward County residents voted to approve the *Secure the Next Generation Referendum* on the August 28, 2018 primary ballot. The *Secure the Next Generation* initiative provides a ½ mill that will be used to secure school resource officers (SROs), high-quality teachers and staff, as well as secure important programs in District schools and expand educational opportunities for our students. Seventy-two percent or more of all available funds are earmarked to compensate teachers and school-related staff (including all educational professionals, educational support professionals, bus drivers, assistants, and food service workers); up to 20 percent for security (school resource officers and security staff); and up to 8 percent for essential programs in our schools, such as additional guidance counselors, social workers, and behavioral staff.
46. SECME/STEM – Funding for registration, materials, supplies and award assemblies for elementary, middle, high and multi-level schools participating in the SECME/STEM Olympiad.
47. School Resource Officer (SRO) – Funds are transferred into the Special Investigative Unit's (SIU) budget for the portion of the cost that schools fund.
48. Service Learning – High and multi-level schools receive \$2.27 per unweighted FTE for grade 9-12 students to pay staff to monitor the Service Learning graduation requirement.
49. Small School Funding – Elementary schools with less than 450 unweighted FTE are funded one instructor. Multi-level K-8 schools with less than 450 unweighted FTE in grades 6-8 are funded one instructor.
50. Substitutes – Schools receive funds for substitutes to cover teachers for ESE Staffing, Pool Sub, PSAT Proctors, TDAs, Department Head Release Time, ESE Special Programs, and Instructional Allocation.
51. Summer Programs – Funds allocated for a Summer Reading program for 3rd Grade students and an Extended School Year (ESY) for exceptional education students.

GENERAL FUND SCHOOL CATEGORICAL FUNDING DESCRIPTION

52. Supplemental Academic Instruction (SAI) – Funds to provide additional instruction and support to enable students to meet grade-level standards.
53. Supplemental Educational Opportunity Grant (SEOG) - A federal assistance grant reserved for technical college students with the greatest need for financial aid to attend school.
54. Transition Funding – Salary lapse funds realigned to mitigate the impact of the funding formula change in FY 2018-19.
55. Turnaround School Supplemental Services Allocation (TSSSA) – Additional funding provided to schools that consistently receive below average school grades.
56. Voluntary Pre-K (VPK) – The state funds three hours of VPK, plus an optional additional three hours of instructional enrichment are funded through parent fees.
57. Workforce Education (WFE) - Workforce Education funds are used to provide services/programs to our Career & Technical and Adult Education students and to improve or enhance instructional programs based upon specific criteria and/or approval from the Director’s Forum.
58. World Language - Twenty-four (24) schools offering programs designed to provide instruction in a target world language will receive a categorical supplement. This supplement is based on the average salary for a teacher.

Comments:

- (a) The result of new funding for FY 2020-21: Coronavirus Aid Relief and Economic Security Act (CARES ACT). Funds will support Charter Schools and Non-Public Schools.
- (b) The result of new funding for FY 2020-21: Coronavirus Aid Relief and Economic Security Act (CARES ACT). Funds will provide personnel to support the unique needs of low-income children and students, children with disabilities, English learners, children experiencing homelessness and foster care youth.
- (c) The result of new PD funding for FY 2020-21: Coronavirus Aid Relief and Economic Security Act (CARES ACT). Funds will provide site licenses for distant learning and training for instructional personnel on sanitation and minimizing the spread of infectious diseases.
- (d) The result of new funding for FY 2020-21: increase in indirect cost projection.
- (e) The result of an increase in Food Services Federal through State and Local funding.
- (f) The result of new PD funding for FY 2020-21: Coronavirus Aid Relief and Economic Security Act (CARES ACT). Funds will provide training for non-instructional personnel on sanitation and minimizing the spread of infectious diseases.
- (g) The result of new funding for FY 2020-21: Coronavirus Aid Relief and Economic Security Act (CARES ACT). Funds will provide assistance to the district with purchasing Personal Protection Equipment (PPE) to prevent, prepare and response to COVID-19.

NOTE: Information for FY 2019-20 is from the May Amendment for Special Revenue funds.

Note: An increase or decrease in the budgeted amounts may not necessarily reflect the increase or decrease in staff because there may have been funding changes in non-salary items. Also, type and number of Competitive Grants may differ each year.

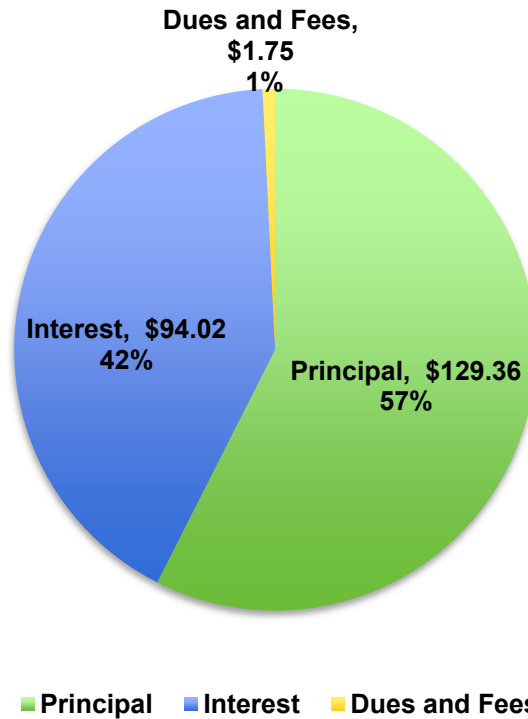

DEBT SERVICE ESTIMATED REVENUE AND APPROPRIATIONS

(in millions)

Revenue Categories

Appropriations Categories

DEBT SERVICE: COMPARISON OF REVENUES

Revenues:	2020-21 Tentative	2019-20 Adopted	Difference	
State				
SBE/COBI Bonds	\$ 2,331,070	\$ 2,327,425	\$ 3,645	(a)
Local				
District Bonds	34,896,363	\$ 21,741,338	13,155,025	(b)
Other Financing Sources				
Transfers In	187,914,157	175,900,226	12,013,931	(c)
Miscellaneous	-	214,848,065	(214,848,065)	(d)
TOTAL	\$ 225,141,590	\$ 414,817,054	\$ (189,675,464)	

Comments:

- (a) Due to the uniqueness of each bonds' payment schedule yearly payments will vary.
- (b) Anticipated issuance of third tranche of General Obligation Bonds.
- (c) Increase due to upcoming payments related to new COP Series 2020A and leases.
- (d) Bond proceeds associated with the termination of SWAP Series 2014A and 2015C, which were refunded by COPs Series 2019A and 2019B, respectively. For FY 2020-21 there are no plans to refund any debt unless an advantageous market exists.

DEBT SERVICE: COMPARISON OF APPROPRIATIONS

Appropriation:	2020-21 Tentative	2019-20 Adopted	Difference	
Redemption of Principal	\$ 129,362,905	\$ 119,835,944	\$ 9,526,961	(a)
Interest	94,024,285	78,943,568	15,080,717	(b)
Dues and Fees	1,754,400	1,189,477	564,923	(c)
Other Financing Sources	-	214,848,065	(214,848,065)	(d)
TOTAL	\$ 225,141,590	\$ 414,817,054	\$ (189,675,464)	

Comments:

- (a) Principal payments for anticipated third tranche of General Obligation Bonds of approximately \$3.1 million coupled with new lease payments for technology, vehicles and energy of \$7.2 million, reduction of COPs by \$1.8 million and changes in amortization payment schedule of an increase of \$1 million.
- (b) Interest payments for anticipated third tranche of General Obligation Bonds \$8.1 million; COPs Series 2020A \$8.2 million, and decrease of leases \$1.2 million.
- (c) Net changes in the issuance of long-term debt for each year.
- (d) Bond proceeds utilized for the defeasance of SWAP Series 2014A & 2015C termination.

(Excluding Carryover)**

**FY 2020-21 Estimated Appropriations
(Excluding Carryover)**

CAPITAL FUNDS BUDGET: COMPARISON OF REVENUES

Revenues & Financing Sources:	2020-21 Tentative	2019-20 Amended	Difference
Local			
Millage	\$ 326,468,000	\$ 312,675,000	\$ 13,793,000 (a)
Other ¹	55,638,000	66,625,000	(10,987,000) (b)
COPs	0	250,000,000	(250,000,000) (c)
General Obligation Bond	420,694,000	422,311,000	(1,617,000) (d)
State ²	54,281,000	62,859,000	(8,578,000) (e)
Federal ³	2,711,000	6,066,000	3,355,000 (f)
Transfer from the General Fund	0	2,650,000	2,650,000 (g)
Carryover ⁴	621,619,000	447,413,000	174,206,000 (h)
TOTAL	\$ 1,481,411,000	\$ 1,570,599,000	\$ (89,188,000)

Comments:

- (a) Increased revenue from millage is the result of continued increase in local property values.
- (b) In FY 2019-20 included more estimated revenue from the sale of land. Sale of land in both years is based on pending sales that are under contract.
- (c) In FY 2019-20 the Board approved a new COPs issue. New COPs issuance is not planned for FY 2020-21.
- (d) Total GOB issuances are limited to \$800 million par value as approved by the voter approved referendum. FY 2020-21 is the amount of GOB bonds budgeted by the Board but not been issued (unissued GOB from FY 2019-20 are re-estimated in the FY 2020-21 revenue). The issuance of GOB will continue to be aligned with the updated Facilities schedules and expenditure projections so that funds are available as the projects progress into the construction phase.
- (e) Decreased revenue from State sources is primarily the result of the deferred State funding from FY 2018-19 \$26M for the Marjory Stoneman Douglas (MSD) building 12 replacement project. The MSD funding originally provided in FY 2018-19 is not reoccurring.
- (f) FY 2019-20 includes hurricane reimbursement received from federal sources.
- (g) FY 2019-20 includes one-time capital equipment payment from Sprint lease. FY 2019-20 includes transfer from Workforce for Mcfatter Technical College construction project.
- (h) Carryover increases are related to ongoing SMART Program construction projects. As projects continue to move from the design phase, into the construction phase and subsequent completion, the carryover in future years is expected to decrease accordingly.

¹ Local Other includes Impact/Mitigation Fees and sale of land.

² State includes charter school capital outlay (PECO), state approved security funding, and funds from motor vehicle license revenue (CO&DS).

³ Federal includes IRS interest subsidies.

⁴ For FY 2021, Carryover funds from prior years includes capital outlay millage, other local sources, GOB, State sources.

NOTE: Information for FY 2019-20 is from the May Amendment for Capital Fund.

Unallocated	56,696,000	42,833,000	13,863,000	(i)
TOTAL	\$ 1,481,411,000	\$ 1,570,599,000	\$ (89,188,000)	

Comments:

- (a) New Issuance of COPs during FY 2019-20 increases debt service.
- (b) The increase in equipment leases is for payments on the new IT equipment and bus/white fleet leases.
- (c) Increased premium for property and casualty insurance and additional transfer for the overhead costs to maintain and operate the Physical Plant Operations fleet vehicles.
- (d) The majority of the SMART Program projects were appropriated in prior fiscal years. As the SMART Program continues toward completion future appropriations will decrease.

CAPITAL FUNDS BUDGET: COMPARISON OF APPROPRIATIONS**Comments (continued):**

- (e) This \$16.6 million is the last previously approved amount authorized by the School Board. The SMART Program reserve is used if new construction contract awards require additional funding and are approved by the Board. When SMART Program projects are completed, savings are returned to this reserve. All new appropriations into this reserve and the usage of this reserve for contract awards require Board approval.
- (f) Nonrecurring transfer from Workforce Education for a construction project at McFatter Technical College.
- (g) New projects tentatively approved by the Board for FY 2020-21 from the June 16, 2020 Workshop; IT projects, covered walkway at Tequesta Trace Middle School, and BECON projects.
- (h) IT projects, covered walkway at Tequesta Trace Middle School, and BECON projects.
- (i) Carryover increased primary as a result of SMART program projects and the SMART reserve (issuance of new COPs during FY 2019-20).
- (j) Unallocated reserve. Use of the unallocated reserve requires School Board approval.

NOTE: Information for FY 2019-20 is from the May Amendment for Capital Fund.

GENERAL FUND BUDGET TEN-YEAR REVENUE TREND

Participation in the Florida Education Finance Program (FEFP) provides state and local revenue sources based primarily on student enrollment. The majority of transfers represent the capital budget transfer into the general fund budget for facility repair and maintenance costs.

CAPITAL OUTLAY BUDGET TEN-YEAR REVENUE TREND

SMART Program

The SMART Program is currently more than \$1.2 billion and is supported with funding from the \$800 million General Obligation Bond (GOB) and other capital outlay funding. The SMART Program is mostly unchanged from the FY 2019-20 District Educational Facilities Plan (DEFP).

On March 31, 2020, the Board approved a resolution to issue \$250 million in Certificates of Participation (COPs) to increase funding for the SMART Program reserve.

School Safety Funding

Since the Marjory Stoneman Douglas (MSD) High School tragedy, District and school leadership remain focused on meeting the needs of students, employees and the entire school community during an emotional and difficult recovery process.

In FY 2018-19, SB 7026 provided funding for MSD to meet the facility needs necessary to recover from this tragedy. In total, the 2018 Florida Legislature approved \$26.3 million for the District to:

- Provide portables (opened at the start of the 2018-19 school year)
- Build a new permanent building (construction contract approved June 11, 2019)
- Demolish Building 12
- Construct a memorial

In the 2018-19 State Budget the District received funding from a state security grant that the District used to fund \$6.2 million for security cameras and \$1.8 million on public announcement (PA) systems at schools. The District also entered into a \$19.8 million capital lease to implement additional PA systems and upgrade the District’s radio communications system. In the 2019-20 State budget an additional \$4 million in State security grant funding was appropriated to implement additional school security upgrades. In the FY 2020-21 DEFP, the District is expects to get an additional \$3.3 million in funding for security items from the funds allocated in the State grant.

COVID-19 Impact

At this point the District does not anticipate a significant financial impact from the COVID-19 crisis on capital outlay funding. The primary source of capital revenues is derived from property taxes that is based on the taxable portion of the assessed property values, and the impacts of the COVID-19 crisis on those values are expected to be minimal.

Charter School Capital Outlay Funding

The 2017 Florida Legislature passed HB 7069, which contains provisions that require the sharing of capital outlay millage with charter schools if the Legislature does not fund charter schools at a minimum per pupil amount. In FY 2017-18, the District paid \$11.5 million to charter schools for capital outlay because of this new law. The 2018 Florida Legislature passed HB 7055 to mitigate that loss and increased State funding for charter school capital outlay.

The 2020 Florida Legislature approved enough funding in their FY 2020-21 appropriations for charter school capital outlay such that the District does not have to share local capital outlay millage funding with charter schools in FY 2020-21.

DISTRICT EDUCATIONAL FACILITIES PLAN OVERVIEW FISCAL YEARS 2020-21 THROUGH 2024-25

This District Educational Facilities Plan (DEFP FY 2020-21) covers the five-year period beginning July 1, 2020, and ending June 30, 2025. This plan sustains funding for the SMART Program and other projects that were approved in the DEFP adopted on September 4, 2019.

COVID-19 Impact

At this point the District does not anticipate a significant financial impact from the COVID-19 crisis on capital outlay funding. The primary source of capital revenues is derived from property taxes that is based on the taxable portion of the assessed property values; and the impacts of the COVID-19 crisis on those values are minimal. The District does, however, expect that operating funds will be impacted as a result of the economic impacts to sales tax revenues, which is a primary source of funding to the operating budget.

It is also important to point out that the capital investments that were made in the SMART Program to improve technology infrastructure and lower the student-to-device ratio played a critical role in the District's capability to provide educational services virtually to students during this crisis.

School Safety Funding

Since the Marjory Stoneman Douglas (MSD) High School tragedy, District and school leadership remain focused on meeting the needs of students, employees and the entire school community during our emotional and difficult recovery process. In FY 2018-19, SB 7026 provided funding for MSD to meet the facility needs necessary to recover from this tragedy. In total, the 2018 Florida Legislature approved \$26.3 million for the District to:

- Provide portables
- Build a new permanent building
- Demolish Building 12
- Construct a monument

In the 2018-19 State budget the District received funding from a State security grant that the District used to fund \$6.2 million for security cameras and \$1.8 million on public announcement (PA) systems at schools. The District also entered into a \$19.8 million capital lease to implement additional PA systems and upgrade the District's radio communications system. In the 2019-20 State budget there is an additional \$4 million in State security grant funding that is included in this DEFP FY 2019-20 update that will be used to implement additional school security upgrades. In DEFP FY 2020-21 the District is expected to get an additional \$3.3 million in funding for security items from the funds allocated in the State grant. In addition the District is using Federal funding in the E-rate program to further improve its infrastructure to support security cameras.

Funding for Capital Outlay Needs

The DEFP FY 2020-21 presented sustains funding for district-wide maintenance, student and staff computers, school buses and white fleet vehicles. The plan also funds the District's debt service for past and current financings as well as funding for building leases, capital outlay staff and charter schools capital outlay.

New allocations in this plan include funding to support student information system, technology infrastructure and VOIP upgrade, as well as covered walkways and upgrades to BECON's infrastructure.

DISTRICT EDUCATIONAL FACILITIES PLAN OVERVIEW FISCAL YEARS 2020-21 THROUGH 2024-25

SMART Program

The SMART Program is currently \$1,260.1 million and is supported with funding from the \$800 million General Obligation Bond (GOB) and other capital outlay funding. The scope of the SMART Program is mostly unchanged from the DEFP FY 2019-20. When the School Board approves budget amendments to projects as the construction contracts were awarded those amendments are incorporated into the individual school-by-school pages that outline the funding plan for each school.

More information about the SMART Program is available on a quarterly basis when the District prepares the quarterly Bond Oversight Committee reports. The website where this information can be found is: <http://www.broward.k12.fl.us/boc/index.html>

Each quarter after the Bond Oversight Committee meets, a representative from the Committee presents an update to the School Board at a workshop.

Reserves

The District sustains reserves to stabilize the SMART Program and other projects in the DEFP. These reserves protect ongoing projects over the duration of the SMART Program so that changes in the economic environment and other risks are mitigated. There are SMART reserve funds the Board previously identified to be set aside for the SMART Program and additional funds are added in FY 2020-21. These reserves are shown on the Appropriations page, and details of the approved transactions that impact the reserve funds are shown in the Appendix.

Total SMART Reserve

\$225 million SMART Reserve established FY 2017-18
\$211 million COPs Series 2020A
\$436 million

The capital budget also includes an unallocated reserve that can be used for future SMART Program budget impacts. Additional allocations to the SMART Program require the Board’s approval, and all future amounts are subject to change based on economic conditions and the results of annual legislative action.

COPs 2020

At the March 31, 2020, School Board of Broward County Emergency Meeting, the District authorized the issuance of Certificates of Participation (COPs), Series 2020A in an aggregate principal amount not to exceed \$250 million. The 2020A COPs issuance provides the supplemental funding for the additional costs for the SMART Program associated with the August 2019 updated SMART Program Risk Assessment/Market Conditions report from Atkins North America, Inc. (Atkins). Two hundred eleven million dollars of the \$250 million was added to the SMART reserve.

Completed Projects

A list of completed projects are shown in the school-by-school listing. Completed projects are projects that have had financial activity and the scope of the projects is done. There may be some additional financial activity on these projects as the final payments are made and all the purchase orders are closed out. Any remaining balances for SMART Program projects will be returned to the SMART Program reserve so that when the Board awards projects these funds will be used to supplement the program. Remaining balances for completed projects that are not in the SMART Program will be returned to the unallocated reserve until the Board takes action to re-prioritize the funds for other District needs.

DISTRICT EDUCATIONAL FACILITIES PLAN OVERVIEW FISCAL YEARS 2020-21 THROUGH 2024-25

Appendices

The Appendix section includes other information that is required by Section 1013.35, Florida Statutes, and the Citizens Concerned about our Children (CCC) Settlement Agreement to be included in the DEFP. The appendix schedules include: the Portable Transition Plan, the Public School Concurrency Plan (including the Level of Service Plan), the Allocation of Resources -10 and 20 Year Plan, and the Reserve Activity Report.

Smarter School Spending Framework

Where applicable to the District’s Capital Outlay Plan, the District engages principles from GFOA Smarter School Spending Framework. Implementing elements of this framework is a part of the Finance Division’s objectives to continually improve how allocation of financial resources are in alignment with the District’s strategic objectives.

<https://smarterschoolspending.org/>

 Plan and Prepare	 Set Instructional Priorities	 Pay for Priorities	 Implement Plan	 Ensure Stability
The planning and budgeting process begins with mobilizing key stakeholders, gathering information on academic performance and cost structure, and establishing principles and policies to guide the budget process	The budget needs to be rooted in the priorities of the district. Intentionally created instructional priorities provide a strong basis for developing a district’s budget and strategic financial plan, as well as presenting a budget document.	Current resources and expenditures must be thoroughly analyzed in order to find capacity to pay for top instructional priorities.	The “strategic financial plan” is the long-term road map for implementing the district’s instructional priorities. A “plan of action” describes how the strategic financial plan will be translated into coherent actionable steps.	The planning and budgeting process should be one that can be replicated in the future in order to ensure the district remains focused and plans accordingly for reaching its student achievement goals.

Supporting the District’s Strategic Plan

The main strategic goal achieved by publishing the District Educational Facilities Plan (DEFP) is Effective Communication. The DEFP is the District’s five-year capital improvement plan. The purpose of the District Educational Facilities Plan is to keep the School Board and the public fully informed on the District’s capital funding plan to meet the essential needs of students. The DEFP contains a detailed funding plan for each of the District schools and shows how the capital funds support the detailed plan as well as other district-wide funding that supports the District’s goals. Funding for the SMART Program, other capital construction projects, technology equipment, buses and support vehicles provides the means to create and maintain a Safe & Supportive Environment and allows the District’s educational professionals to have the appropriate classroom environments to provide High Quality Instruction to over 270,000 students.

IMPACT OF NONRECURRING CAPITAL EXPENDITURES ON OPERATING BUDGET

The impact of nonrecurring capital expenditures, such as the construction of a new school, plays a vital role in the development of the District’s operating budget. The operating budgets for elementary, middle, and high schools are allocated based on predefined formulas. The allocation categories are:

- Instructional Allocation to cover the cost of salaries and classroom supplies for teachers, as well as funding for substitutes for days when teachers cannot work.
- Support Allocation to cover the cost of staff other than teachers, such as administration, guidance, media, and clerical.
- Categorical Allocations to cover costs such as custodial, instructional materials, class size reduction, reading needs, and special programs.

In addition to these typical allocations, many schools receive special revenue funding for programs such as Title I, which is determined on an individual school basis. The District also funds additional costs, such as utilities and building maintenance, from central operating budget accounts.

There are several factors in the new school opening process that impact the District’s General Fund operating budget. Any cost associated with the number of students in a school, such as the Instructional Allocation for teacher salaries and classroom supplies, will not create an additional expense to the District. However, a new school will require:

- Additional positions that are funded through the Support Allocation, such as administration, guidance and media center personnel, clerical and other support staff. These expenses will be partially offset by the decrease in the Support Allocation at the schools from which students will have a boundary change to attend the new school.
- Additional cost for positions funded categorically, such as custodial, program specialists, class size reduction, and school resource officers.
- Increased utilities and building maintenance expenses from central operating budget accounts.
- Start-up funding required for staff needed prior to the actual opening of the school. These expenses begin in the school year prior to the school year in which the school will open.

The last time the District opened a new school was school year 2010-11. Below is a breakdown of the estimated impact, including fringe benefits, to the General Fund operating budget for the opening of Beachside Montessori school:

General Fund Financial Impact for the opening of Beachside Montessori School

Start-Up	Utilities	Personnel	Student Activities	Support Allocation	Categorical Allocations	Total
\$165,068	\$241,281	\$115,080	\$23,878	\$979,370	\$1,043,726	\$2,568,403

Initial start-up supplies, textbooks, library books, furniture, and equipment are provided by the capital outlay budget. Thereafter, funding for school staffing and supplies is generated by student enrollment through the Florida Education Finance Program (FEFP).

**CAPITAL TRANSFER
TO GENERAL FUND**

CAPITAL TRANSFER

Why is there a transfer of funds from the capital budget to the general fund budget when there is such a great need on the capital side?

The funds that are transferred are used for the repair of existing facilities and equipment. These funds extend the usefulness and efficiency of existing buildings through a strong, scheduled maintenance and repair program and, in so doing, delay some of the need for replacement buildings.

FACILITIES INFORMATION

- Total square feet of Facilities (including portables & covered walkways): 37,272,559
- Total Facilities (excluding sites under construction): 255

PHYSICAL PLANT OPERATIONS DEPARTMENT BUDGETS

	Positions	Labor	* Non-Labor	Total Budget

* Includes materials, equipment, supplies, travel, etc.

DEBT OVERVIEW

Debt instruments are issued to finance new school construction, renovate existing facilities, as well as facilitate major purchases such as technology and buses. In addition, the District is continually reviewing opportunities to reduce existing debt service by restructuring or refinancing existing obligations. To minimize taxpayer costs, the District strives to ensure that the debt service millage, levied for voter approved bonded debt, is the lowest necessary to adequately fund debt service costs in a given fiscal year, and that discretionary capital outlay millage is used in the most efficient way possible to service capital outlay needs.

The District's current long-term debt is in the form of Capital Outlay Bond Issues by the State (COBI Bonds), voter-approved General Obligation Bonds (GOBs) and Certificates of Participation (COPs). The use of these debt instruments and others for capital purposes is authorized and limited by either Florida State Statutes or the Florida State Constitution. The chart below defines the legal parameters associated with each debt instrument for capital purposes available to a Florida school district. Sales tax revenue bonds should be included either (i) pursuant to Section 212.055(2) , which may be issued by the District or the County and secured by a "Local Government Infrastructure Surtax" of up to a penny levied by the County, to be divided up among the County, the School Board and municipalities pursuant to an interlocal agreement, or (ii) pursuant to Section 212.055(6) which may be issued by the District and secured by up to a half penny of "School Capital Outlay Surtax" levied by the District. Both levies require a voter referendum, require that the referendum question be placed on the ballot by the County Commission and under circumstances described below, may have to be structured as COP's when used to finance construction of new student stations. (See "COP's" below and sec. 1013.64)

DEBT TYPE	DEBT STATUTES AND USES	LEGAL LIMITS OF DEBT
<p style="text-align: center;">GOBs Sec 1010.40 Florida Statutes</p>	<p>School districts may issue General Obligation Bonds (GOBs) with voter approval, secured by an additional ad-valorem levy that does not count against the District's constitutional 10 mill limit. Funds may be used for schools including technology listed in the advertised project list and approved by the FLDOE. The School District's implied General Obligation ratings are Aa2 by Moody's and AA- by Fitch.</p>	<p>The school district can bond up to an amount approved by the FLDOE and the voters. In May 2014, FLDOE approved issuance of \$800 million of GOBs, and the voters approved it on November 4, 2014. The District issued the first \$155,055,000 of GOBs, Series 2015 on June 18, 2015, and \$174,750,000 of GOB's, Series 2019 on January 29, 2019.</p>
<p style="text-align: center;">RANs Sec 1011.14 Florida Statutes</p>	<p>Revenue Anticipation Notes (RANs) may be issued for purchases of buses, land, equipment, and educational facilities, and under limited circumstances may be used to pay casualty insurance premiums. These obligations may be incurred for one year only but may be renewed on a year-to-year basis for a total term of 5 years, including the first year.</p>	<p>The obligation may not exceed one-fourth of District ad valorem tax revenue for operations for the preceding year. Resolution must provide a one-year plan of payment from current revenue. Currently that equates to a debt capacity of approximately \$239 million.</p>
<p style="text-align: center;">RANs Sec 1011.15 Florida Statutes</p>	<p>RANs in order to eliminate major emergency conditions may be incurred for one year only but may be renewed on a year-to-year basis for a total of 5 years including the first year, similar to the RANs described above.</p>	<p>The School Board must adopt a resolution declaring an emergency. Resolution must provide a one-year plan of payment. Statutes require that all payments maturing be paid from current revenue.</p>
<p style="text-align: center;">COBI Bonds Article XII Sec.d Fl. Constitution</p>	<p>Capital Outlay Bonds (COBI Bonds) are issued on behalf of the District by the State of Florida Board of Education. Projects must be on the state-approved Project Priority List.</p>	<p>State computes eligibility amount annually in August of each year and notifies the District.</p>

DEBT OVERVIEW

DEBT TYPE	DEBT STATUTES AND USES	LEGAL LIMITS OF DEBT
<p>COPs Sec 1001.42 (2) and (11), 1003.02(1)(f), 1013.15(2) and 1011.71(2),(3), (4) and (5); 1013.31,1013.62 and 1013.64 Florida Statutes</p>	<p>Certificates of Participation (COPs) are issued by the Trustee at the direction of the Broward School Board Leasing Corp., for the benefit of the School Board. The proceeds are used to pay for new and replacement construction of educational facilities, land, equipment, and buses under a lease purchase agreement entered into by the School Board. The District is assigned underlying ratings of Aa3 by Moody's and A+ by Fitch. Impact fees can be used for lease payments on eligible capacity expansion projects. Sales surtax (see below) can also be used for lease payments on eligible projects. Capital outlay millage cannot be used to finance the cost of new construction of educational plant space with a total cost per student station that exceeds statutory maximums set forth in sec. 1013.64, as adjusted annually by FDOE, unless architectural or construction contracts were entered into prior to July 1, 2017. Further, a School Board cannot use funds from any source to finance the cost of new construction of educational plant space exceeding such limits, unless such financing is structured as a lease purchase agreement, which would include a COP issue. Thus under current law, a school board with sales surtax bonding authority must structure its financing as a COP, rather than a sales tax revenue bond, if its CIP includes construction of new classroom space that might exceed statutory cost maximums.</p>	<p>Annual lease payments may not exceed an amount equal to three-quarters of the proceeds from the capital millage levied by the School Board which is 1 ½ mills. In 2012, the legislature excluded all leases entered into prior to June 30, 2009 from the three-quarters limit. Currently, that equates to a debt service capacity of \$244 million per year; however, pursuant to HB 7069 (Chapter 2017-116 Laws of Florida), the District is required to share this millage pro-rata with eligible charter schools, after subtracting the amount necessary to service its outstanding obligations that were incurred as of March 1, 2017. The amount to be shared can be further reduced by legislative appropriations for charter school capital. Sec. 1013.62 provides that State appropriations for charter capital outlay are to be credited against the District's sharing obligation, with compliance to be verified by the Auditor General. 2019 and 2020 appropriations for charter capital have been sufficient such that the District has not had to share any of its capital outlay millage with charter schools. In May 2020 District issued a new money COP for the first time in 10 years.</p>
<p>Local Government Infrastructure Surtax/Sales Tax Revenue Bonds Sec. 212.054, 212.055(2) Florida Statutes</p>	<p>A half or full penny sales surtax can be levied by a county upon enactment of an ordinance and approval by the governing bodies of municipalities in such county with a majority of the county's population, and voter approval at a referendum. The county, municipalities described above and a school district may enter into an interlocal agreement to divide-up the surtax. School districts can use the proceeds of their share of the surtax for fixed capital expenditures or fixed capital outlay associated with construction or improvement of public facilities with a life expectancy of 5 years or more. It also includes classroom instructional technology, including interactive devices, hardware and software. School districts can issue sales tax revenue bonds, enter into bank loans or can use the sales tax to make lease payments for COPs, including for the incremental cost of student stations in excess of statutory maximums (see "COPs" above and sec. 1013.64)</p>	<p>The term of the sales surtax is determined by the local governments and approved by the voters; there is no statutory limit.</p>
<p>School Capital Outlay Surtax/ Sales Tax Revenue Bonds Sec. 212.054, 212.055(6) Florida Statutes</p>	<p>School districts may levy up to a half penny of capital outlay surtax by authorizing a resolution, placement on the ballot by the County and approval by the voters. The surtax may be used for fixed capital expenditures or fixed capital costs associated with the construction, reconstruction or improvement of school facilities and campuses with a useful life greater than 5 years, including land; retrofitting and providing for technology, including hardware and software. School districts can issue sales tax revenue bonds, or can use the sales tax to make lease payments for COPs, including for the incremental cost of student stations in excess of statutory maximums (see "COPs" above and sec. 1013.64.)</p>	<p>The term of the sales surtax is determined by the School Board and approved by the voters; there is no statutory limit.</p>

PROPOSED NEW DEBT SERVICE

Proposed new debt included in the Capital Outlay Budget are for General Obligation Bonds (GOB's). The planned GOB issues will complete the total \$800 million GOB funding that was approved by the voters of Broward County on November 4, 2014. The actual number of GOB tranches and the issuance dates will be determined based on the **S**afety, **M**usic and **A**rts, **A**thletics, **R**enovation, and **T**echnology (SMART) Program construction needs. The total amount of GOB issuances will be in accordance with the voter-approved referendum.

There is a \$435.0 million balance of GOB proceeds remaining to be issued. The remaining GOB amounts are included in the District's DEFP five-year capital plan to accomplish the SMART Program projects. This Capital Outlay Budget does not include any other forms of new debt issuance.

<u>GOB Proceeds</u>			
	FY 2014-15	\$163,786,942	(Issued June 2015)
	FY 2018-19	201,207,350	(Issued February 2019)
	TBD	435,005,708	(Remaining)
Total		<u>\$800,000,000</u>	

Debt Type	Series	Original Principal	Debt Service FY21 to FY25
General Obligation Bond	TBD *	217,502,854	67,136,844
General Obligation Bond	TBD *	217,502,854	54,016,013
		<u>435,005,708</u>	<u>121,152,857</u>
Total Debt Service from Voter Approved Millage			<u>121,152,857</u>
Total 5 Year Principal		<u>\$ 435,005,708</u>	
Total 5 Year Debt Service			<u>\$ 121,152,857</u>

* Debt Service on these GOB tranches assumes an issuance in FY 2020-21 and another in FY 2020-22. GOB issuances will be determined on the actual SMART Program construction needs, therefore the timing and amount of the issuance of the GOB may differ from the table above.

FLORIDA LOTTERY

In November 1986, a constitutional amendment creating state operated lotteries was passed in a state-wide election. In 1987, the Legislature enacted the Florida Public Education Lottery Act that implemented the constitutional amendment. The purpose of the act is to enable the people of the state to benefit from significant additional moneys for education. The intent of the act is to use the net proceeds of lottery games to support improvements in public education; however, those proceeds are not to be used as a substitute for existing public education resources. The share of lottery proceeds for education is deposited into the Educational Enhancement Trust Fund (EETF). The lottery's total contribution to the EETF since start-up is more than \$33 billion. Each year the Legislature determines which educational programs will be funded from the lottery proceeds as well as the amount of such funding.

2020-21 Legislative Appropriations from the Education Enhancement "Lottery" Trust Fund

Fixed Capital Outlay	175,916,981
Class Size Reduction	103,776,356
FL Education Finance Program	387,832,395
Workforce Education	91,116,464
Public Schools Total	758,642,196
Student Financial Aid	724,032,438
Community Colleges	168,247,219
Universities	429,786,056
Grand Total	2,080,707,909

In the 2020-21 Florida General Appropriations Act, \$2.0 billion has been appropriated from the EETF.

On June 29th, 2020, Governor Ron DeSantis vetoed the District Lottery and School Recognition Program line item from House Bill 5001, General Appropriations Act. Therefore, the District Lottery and School Recognition funding source will be paused for fiscal year 2020-21 and no funds will be distributed. Historically, in the last four years the District Lottery and School Recognition share has been between \$13.9 million in 2016-17 to \$14.0 million in 2019-20.

BCPS School Recognition and Discretionary Lottery Revenue Trend

BCPS Lottery Revenue Trend - 5 Years

DISTRIBUTION OF STATE DOLLARS

The amount of State and Local Florida Education Finance Program (FEFP) dollars for each school district is determined in the following manner:

Unweight FTE (UFTE) <hr/> 268,588.65	x	Average of Program Cost Factors <hr/> 1.1037	=	Funded Weighted FTE (WFTE) <hr/> 296,452.57	x	Base Student Allocation determined by State <hr/> \$4,319.49	x	District Cost Differential Factor <hr/> 1.0179	=
BASE FUNDING <hr/> \$1,303,445,290	+	Teacher Salary Increase <hr/> \$47,321,078	+	Safe School <hr/> \$15,976,610	+	Supplemental Academic Instruction <hr/> \$59,479,355	+	Turnaround School Supplemental Services <hr/> \$1,382,640	+
Reading Instruction <hr/> \$11,613,076	+	Instructional Materials <hr/> \$21,344,980	+	Teacher Classroom Supplies <hr/> \$5,099,037	+	ESE Guaranteed <hr/> \$105,726.921	+	Digital Classroom <hr/> \$165.924	+
DJJ Supplemental <hr/> \$346.426	+	Student Transportation <hr/> \$33,293,345	+	Mental Health Assistance <hr/> \$8,830,168	+	Adjusted Compression and Hold Harmless <hr/> \$1,413,585	=	STATE AND LOCAL FEFP DOLLARS <hr/> \$1,615,438,435	

The Net State FEFP Allocation for the support of public education is derived from State and Local FEFP Dollars in the following manner:

STATE AND LOCAL FEFP DOLLARS <hr/> \$1,615,438,435	-	Required Local Effort (RLE) <hr/> \$799,699,561	=	State FEFP Dollars <hr/> \$815,738,874	+	Prorated Sparsity Adjustment <hr/> \$0	=	State FEFP Allocation <hr/> \$815,738,874	+
*						**		***	
Lottery and School Recognition <hr/> \$0	+	Class Size Reduction <hr/> \$303,025,894	=	Total State Funding <hr/> \$1,118,764,768	+	Total Local Funding (Required Local Effort (RLE) plus Discretionary Millage) <hr/> \$963,538,310	=	TOTAL FLORIDA EDUCATION FINANCE PROGRAM <hr/> \$2,052,049,474	

* Governor, on June 29, 2020, signed into law the 2020-21 budget (HB 5001) with vetoes which included \$275,588 in Lottery and \$13,730,903 in School Recognition Allocation.

** Includes \$799,699,561 in Required Local Effort (RLE) and \$163,838,749 in Discretionary Millage.

*** Reduced by 2019-20 McKay Scholarships \$19,522,777 and Family Empowerment Scholarships \$10,700,827.

WHERE DOES THE MONEY GO? 2020-21

The District's spending decisions have been focused on student achievement while maintaining fiscal solvency and protecting an effective workforce, as well as taxpayer interest. In keeping with those principles, 93.5 percent of the District's resources are spent on school level services.

**EXISTING DEBT SERVICE OBLIGATIONS
AS OF JUNE 30, 2020**

- (i) Interest on the Series 2004 QZAB is paid by the Federal government in the form of an annual tax credit to the bank or other financial institution that holds the QZAB. Annual payments of \$53,062 are being made for sixteen consecutive years, being deposited in an escrow account held by a fiscal agent which, when coupled with interest earnings and net appreciation in market value, will be sufficient to pay off the principal balance of the QZAB, in full, at maturity on December 22, 2020.

- (ii) Series 2009A-QSCBs (Qualified School Construction Bonds) are issued with principal only repaid by the District (no interest) and the investor receives a tax credit in lieu of interest payment. Annual payments of \$4,540,000 are being made for eleven consecutive years, being deposited in an escrow account held by a fiscal agent. The Series 2009A-QSCB will mature on July 1, 2024.

COMPARISON OF MILLAGE RATES

The Florida Department of Revenue certifies to the Commissioner of Education its most recent estimate of the current year’s taxable value for each school district based on the latest available data obtained from the local property appraisers. The Commissioner of Education then certifies to each district school board the current year millage rate necessary to provide the school district’s Required Local Effort (RLE) for that year. For 2020-21, the RLE millage rate for The School Board of Broward County, Florida, has been established by the state at 3.6510.

The additional Required Local Effort (RLE) Prior Period Funding Adjustment Millage (PPFAM) is calculated by the State for RLE funds the District did not receive in previous years. The PPFAM rate will be released in the FEFP Second Calculation on July 19, 2020.

Comparison of Total Millage Rates

	Millage Rates					Millage Rates		
	2014-15	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21*	% Inc/(Dec)

* 2020-21 RLE Millage provided on the FEFP First Calculation (Conference Report). The Prior Period Funding Adjustment Millage (PPFAM) will be released by the Florida Department of Education on July 19, 2020.

MILLAGE RATES

To participate in FEFP funding, the District must levy a minimum ad valorem property tax millage for operating purposes which is set annually by the Legislature. For FY 2020-21, this Required Local Effort (RLE) levy is currently estimated to be 3.6510 mills, which does not include a Prior Period Funding Adjustment Millage rate (PPFAM).

ROLLED BACK RATES

The Truth in Millage (TRIM) legislation of Florida requires a calculation of the change in millage rates from one year to the next called the “rolled back rate.” The rolled back rate is the millage that would be necessary to generate the same amount of dollars as the previous fiscal year, after adjusting for new construction. The proposed millage rate is compared to the rolled back rate and translated into a percentage of change.

	2019-20 Final	2020-21 Adjusted Gross		
Taxable Values:	\$214,727,676,622	\$223,978,180,197	\$226,714,033,617	
	2019-20 Millage Rate	Rolled Back Millage Rate	2020-21 Millage Rate	% Incr/(Decr) as Compared to Rolled Back Millage Rate
State Millage ¹				
Required Local Effort (RLE)	3.8250	3.7265	3.6510	
RLE Prior Period Adjustment	0.0620		0.0000	
Sub-Total State Millage	3.8870	3.7265	3.6510	(2.03%)
Local Millage				
Discretionary Millage	0.7480	0.7171	0.7480	
Referendum	0.5000	0.4793	0.5000	
Capital Millage	1.5000	1.4380	1.5000	
Sub-Total Local Millage	2.7480	2.6345	2.7480	4.31%
Total State and Local Millage	6.6350	6.3610	6.3990	0.60%
Voted Millage

TOTAL STATE, LOCAL, AND VOTED MILLAGE	6.7393	6.4610	6.4902	0.45% ²

When comparing the 2020-21 State millage rate of 3.6510 to the 3.7265 Rolled Back millage rate, there is a 2.03 percent decrease. The combined total State and Local millage rate to be levied (excluding the Prior Period Funding Adjustment Millage, which is not available at the time of this publication), exceeds the rolled back rate computed pursuant to section 200.065(1), F.S., by 0.60 percent.

¹ 2020-21 RLE Millage provided on the FEFP First Calculation (Conference Report).

² As property values increase or decrease from year to year, there is a corresponding percentage of increase or decrease when comparing the current year millage rates to the Rolled Back millage rate.

BROWARD COUNTY GROSS TAXABLE VALUE

The Broward County Property Appraiser values all property at its market value as of January 1 of each year. Market value is the Property Appraiser’s professional opinion of what a willing buyer would pay a willing seller for a property. Tax bills are based on a property’s assessed value. This is the market value or classified use value for all properties other than Homestead properties. A Homestead is an owner/occupied residence. If a property is not a Homestead, the market value and assessed value are the same. If a property has a classified use value, such as agriculture, the assessed value is its classified use value.

Following the housing market crash of 2007, considered the worst housing crash in U.S. history, it took a number of years before the housing market reached a stabilization point in 2011. The market started showing positive signs in 2012 through 2021, with Gross Taxable Value increases of 8.20 percent in 2017-18, 6.12 percent in 2018-19, 5.76 percent in 2019-20 and 4.41 percent in 2020-21.

Year	Gross Taxable Value *	Incr/(Decr) As Compared To Prior Year	% Incr/(Decr) as Compared to Prior Year
2012-13	\$136,471,261,280	\$849,599,204	0.63%
2013-14	\$142,042,917,386	\$5,571,656,106	4.08%
2014-15	\$153,539,753,728	\$11,496,836,342	8.09%
2015-16	\$164,682,766,157	\$11,143,012,429	7.26%
2016-17	\$178,803,811,309	\$14,121,045,152	8.57%
2017-18	\$193,471,849,512	\$14,668,038,203	8.20%
2018-19	\$205,307,398,982	\$11,835,549,470	6.12%
2019-20	\$217,135,438,512	\$11,828,039,530	5.76%
2020-21	\$226,714,033,617	\$9,578,595,105	4.41%

*Gross Taxable Value as of budget adoption using July 1st Certified Taxable values

BROWARD COUNTY PUBLIC SCHOOLS TAX COLLECTIONS

Local funding, mainly from property taxes, is required from each school district in order to participate in the Florida Education Finance Program (FEFP). Each school board participating in the state allocation of funds for current operations of schools must levy the Required Local Effort (RLE) millage for its required local funding. Each district’s share of the state total of Required Local Effort is determined by a statutory procedure, beginning with certification of the property tax valuations of each district by the Department of Revenue. The Commissioner of Education certifies each district’s RLE millage rate, calculated by dividing the amount to be raised through the RLE by 96 percent (95 percent in 2007-08 to 2009-10) of the gross taxable value, for school purposes, of the district. Certifications vary due to the use of assessment ratios designed to equalize the effort on the FEFP of differing levels of property appraisal in the counties. Millage rates are also adjusted, as RLE may not exceed 90 percent of a district’s total FEFP entitlement.

As explained on the previous page, the housing market crash of 2007 also contributed to a subsequent decline in tax collections between 2008-09 and 2011-12. The four consecutive years of decline placed a financial hardship on school districts’ budgets throughout the State of Florida. As the housing market bounced back, tax collections have also gradually increased from 2012-13 through 2020-21.

Year	School Board Proceeds *	Incr/(Decr) as Compared to Prior Year	% Incr/(Decr) as Compared to Prior Year
2012-13	\$977,704,364	\$11,904,534	1.23%
2013-14	\$1,019,981,781	\$42,277,417	4.32%
2014-15	\$1,096,347,542	\$76,365,761	7.49%
2015-16	\$1,149,986,343	\$53,638,801	4.89%
2016-17	\$1,185,477,852	\$35,491,509	3.09%
2017-18	\$1,214,582,221	\$29,104,369	2.46%
2018-19	\$1,261,980,236	\$47,398,015	3.90%
2019-20	\$1,404,807,229	\$142,826,993	11.32%
2020-21	\$1,412,562,648	\$7,755,419	0.55%

* Based on 96 percent collectability. The proceeds are as of budget adoption.

Note: Based on the 2020-21 1st Calculation (Conference Report), and 7/1/2020 Taxable Value Report.

PROPERTY OWNER'S SCHOOL BOARD TAXES

Pursuant to the 1992 "Save Our Homes" (SOH) Amendment to the Florida Constitution, the assessed value of the Homestead property can increase by no more than 3 percent above last year's assessed value (or the annual consumer price index, whichever is less).

³ The Prior Period Funding Adjustment Millage is not available until July 19, 2020.

COMPARISON OF MILLAGE RATES FLORIDA LARGEST SCHOOL DISTRICTS

The proposed Required Local Effort (RLE) millage rate identified below could either increase or decrease from the following estimate based upon whether statewide tax rolls certified by the Department of Revenue in mid-July are higher or lower than those projected in the Appropriations Act passed by the Florida Legislature. In addition, the RLE prior period adjustment millage must be levied by a school district if the prior period unrealized required local effort funds are greater than zero. The Commissioner of Education shall calculate the amount of the prior period unrealized required local effort funds and the millage required to generate that amount.

2020-21 Millage Rates*

	Broward	Dade	Orange	Palm Beach
Required Local Effort	3.6510	3.8510	3.6100	3.7680

Capital	1.5000	1.5000	1.5000	1.5000
Voted Debt	0.0912	0.1940	0.0000	0.0000
Total Millage	6.4902	7.0430	6.8580	7.0160

*The 2020-21 Required Local Effort millage rate is based on the FEFP 1st Calculation (Conference Report). The Prior Period Funding Adjustment Millage (PPFAM) will be released by the Florida Department of Education on July 19, 2020.

SCHOOL TAXABLE VALUE GROWTH RATES

The July 1, 2020, Broward County Property Appraiser’s (BCPA) taxable value estimates are slightly lower than previous projections by the State’s Office of Economic and Demographic Research (EDR). This was anticipated due to recent economic impacts of the Coronavirus (COVID-19). To ensure a conservative approach during these unprecedented economic conditions, the local estimates include an additional reduction beyond what EDR last projected. BCPA taxable value estimates for the 2020-21 budget result in a 4.4 percent increase over the 2019-20 estimated school taxable values used to adopt the capital and general fund budgets last September. Over the next five years the District will not generate additional capital outlay millage (1.5 mills) or general fund discretionary millage (0.748 mills) when compared to estimates from last year.

The chart below shows that the taxable value of property in Broward County is projected to continue increasing, but at a slower pace than the previous four-year period.

STUDENT ENROLLMENT HISTORY AND FORECASTING

* Includes pre-kindergarten students who are not part of FTE counts or calculations and charter school students.

Enrollment Trend

From 2000-01 to 2004-05, BCPS experienced rapid growth in enrollment each year, totaling over 31,000 students. From 2005-06 to 2008-09, there was a decrease each year, for a total decline of 14,000 students. The number of students remained stable from 2008-09 to 2009-10. From 2010-11 to 2014-15, the enrollment increased by approximately 10,800 students. For 2015-16 and 2016-17, enrollment kept growing, for a total increase of 5,700 students. In 2017-18, enrollment showed a slight increase of 412 students and then began to decline. In 2018-19 and 2019-20 the enrollment decrease was 967 and 2,580 students respectively. As of the October 2019 demographics publication, total enrollment over the next five years is projected to increase by 354 students to 268,324 students.

Projected Student Unweighted FTE (UFTE) vs Enrollment Projections

Each December the state requires that districts project total Unweighted FTE (students converted to Full-Time Equivalents) for the next school year using a forecasting software program provided by the state. Projecting UFTE for the state is done by grade level totals in instructional programs (basic education, special education for exceptional students, English education for speakers of other languages, and career education), not by each school. The software uses UFTE totals from previous years, grade progression ratios, non-promotions, and annual population data for births and children ages 3 and 4 years to assist districts in accurately projecting UFTE, which is used by the state for calculating projected funding through the Florida Education Finance Program.

Each February the District requires each school to project enrollment for the next school year based on the District’s historical benchmark enrollment data and the latest projected enrollment data provided by the District’s Demographics Department. The total forecasted UFTE for the state differs from the total of the school-by-school enrollment projections due to the input allowed from the school principals that can change the projected enrollment originally provided by the Demographics Department. Also, the variations for charter schools are not known at the time of projection; therefore, administrators are unaware of the number of students who will transfer to other schools. The final projected enrollment from the schools is converted to UFTE, and projected budgets are created for each school. Projected school budgets are amended based on actual UFTE, after FTE survey data is submitted to the state in October.

STUDENT ENROLLMENT HISTORY AND FORECASTING

Student Enrollment Projection Methodology

The primary projection tool for Broward County Public Schools is a geographically based Cohort Survival model that projects future students by grade. The Cohort Survival method is considered a very reliable procedure and is utilized by the state of Florida in their projections and the U.S. Census Bureau for their projections and reports. The model uses an “aging” concept that moves a group, or cohort, of students into the future and increases or decreases their numbers according to past experience through history.

In essence, the model derives a growth factor, or ratio, for student survival to the next grade based upon previous survival numbers to the same grade of students in each Traffic Analysis Zone (TAZ), the basic geographic area for the model. In most cases, TAZs represent neighborhoods. There are over 900 TAZs in Broward County. Five years of historical student enrollment data is used to create the survival ratio. That ratio is then used to project future students. The survival projection of kindergarten is more speculative and requires a different approach. Kindergarten is projected using a linear regression technique. Simply put, the linear regression is based upon what the numbers have been for the kindergarten population historically, and this trend is continued into the future.

The overall projections are compared and tested with other models, such as the Florida Department of Education (FLDOE) projections, the Broward County Department of Urban Planning and Redevelopment population projections, and the District’s cohort (grade by grade) model, which is based upon current and historical benchmark enrollment data. District staff continues to gather all information that assists in making projections. For example, each year the planning directors of municipalities in Broward County are contacted to discuss growth in their cities and provide current and forecasted building permits and certificates of occupancy. Staff also talks regularly with developers in the county, and growth is monitored through the Facility Planning and Real Estate Department. All of this information is also used in determining the adjustments to the cohort model and as a check of the model.

At any given time, the following factors may have an effect on the projections:

- Changes in the rate of new housing development within the county can lead to “over” projections (for example, high interest rates or a recession may slow new housing starts and growth).
- Economic conditions can lead to “under” projections (for example, the creation of jobs usually means families are moving in).
- Immigration.
- Natural phenomena (such as hurricanes) that relocate people very quickly.

There are also decisions made within the District that may have a dramatic effect upon projections. These include:

- The location and number of bilingual clusters.
- The location and number of Exceptional Student Education (ESE) clusters.
- The start of magnet programs (first year projections are difficult because of the lack of a “track record”).
- Reassignments
 - Transfers between schools due to the District’s reassignment policy impact projections.
- Choice
 - In addition to cluster and magnet programs and reassignments, there are areas where students have a choice of more than one school to attend.
- Charter schools
 - Opening and closing of charter school facilities throughout the year.

STUDENT ENROLLMENT SUMMARY DISTRICT AND CHARTER SCHOOLS

Student enrollment is based on the District’s Benchmark Enrollment Data. Enrollment counts are head counts in which each student, regardless of full-time or part-time status, is counted as one (1). When students are reported to the state for funding purposes, full-time and part-time status is considered. The full-time equivalent (FTE) for a student receiving 900 hours (720 hours for Pre-K through grade 3) or more of instruction per year is 1.00. A part-time student receiving less than 900 hours (720 hours for Pre-K through grade 3) per year is less than 1.00. FTE, rather than enrollment, is used for budgeting purposes.

Also included in enrollment counts are students in the Voluntary Pre-Kindergarten (VPK) program and Head Start programs; however, these students do not generate FTE. Adult Education students are not included in enrollment counts or FTE.

STUDENT EXPENDITURES

Required Level of Detail

Section 1010.20, Florida Statutes requires program cost accounting and reporting on a school-by-school basis. Cost reporting has two central elements:

- Identification of direct program costs and aggregation of these costs by program.
- Attribution of indirect costs to programs on an appropriate basis.

Direct costs are classified into major objects. Indirect costs are classified as school level or district level. The distinction is made on the nature of the cost, rather than the cost center to which the expenditure is charged.

Three bases are used for attributing indirect costs to the instructional programs:

- Full-time equivalent students for those costs that tend to increase or decrease with the number of students or that are otherwise related to students, such as pupil personnel services and food service.
- Staff (number of full-time equivalent teachers paid from General Fund and Special Revenue Funds) for those costs that tend to increase or decrease with the number of teachers or that are otherwise more related to staff than students, such as instruction and curriculum development, instructional staff training, and general administration.
- Instructional Time/Space is used for those costs that vary with the amount of space used by programs, such as operation of plant, maintenance of plant, and facilities acquisition and construction.

Cost as a Percentage of Revenue

The cost information submitted to the Department of Education is used to develop the Cost as a Percentage of Revenue report (CAPOR).

The final expenditure data by type of Florida Education Finance Program (FEFP) is part of the State required Cost as a Percent of Revenue (CAPOR) report. This report includes program expenditures per the Department of Education (DOE) Redbook and State Board of Education Rule 6A-1.014(2), which are coded to General Funds 1000, 1010, and Food Service Fund 4110. Listed below is a description of each column in the report, which is shown on the next page:

- The Unweighted FTE (UFTE) column lists each program category and the program's Unweighted FTE (charter school UFTE is not included).
- The FEFP Revenue column indicates the revenue received from the DOE for each program (in thousands).
- The Expenditures columns include a Total Direct column that indicates instructional function expenditures. The Total School column combines direct and indirect (overhead) school-level expenditures, transportation, and allowable (State supplement) food service expenditures. The Total Cost column combines these school-level expenditures with the District's indirect (overhead) expenditures.
- The Cost as a Percent of FEFP Revenue columns indicate the percent of revenue expensed as Total Direct, Total School, and Total Cost.
- The Cost per Unweighted FTE (UFTE) columns compare cost for school years 2018 -19 and 2017-18.

STUDENT EXPENDITURES

Cost as a Percentage of Revenue (cont.)

CHARTER SCHOOLS' SHARE FTE & EXPENDITURES

	2016-17	2017-18	2018-19	2019-20	Proj. 2020-21
Charter Schools Unweighted FTE	45,721.30	45,672.42	46,000.32	47,262.81	48,373.21

Note: Unweighted FTE for 2016-17 through 2018-19 as of FEFP final calculation.
 Unweighted FTE for 2019-20 as of FEFP fourth calculation.
 Projected unweighted FTE for 2020-21 based on 2020-21 DOE FTE Web Forecasting.
 Expenditures include Charter School Capital Outlay Funds.

STAFFING – ALL FUNDS

The 2020-21 Staffing - All Funds analysis shows that General Fund positions are 84 percent of the budgeted full-time equivalent positions in the District. Positions within the Special Revenue Funds make up 15 percent of the total staffing, and 1 percent of District positions are in the Capital Fund. Budgeted positions include vacant positions as well as filled positions. Full-time equivalent positions are determined by dividing the total of all standard salaries in a position by the standard salary for that position.

Fund:	<u>Budgeted Full Time Equivalent Positions</u>					2020-21 % to Total
	2016-17	2017-18	2018-19	2019-20	2020-21	
General Fund	23,125	23,575	23,594	24,114	23,617	84%
Special Revenue Fund	3,461	4,232	4,088	4,251	4,281	15%
Debt Service Fund	0	0	0	0	0	0%
Capital Fund	183	187	187	187	188	1%
Internal Services Fund	9	8	9	9	9	0%
TOTAL	26,778	28,002	27,878	28,561	28,095	100%

Overall, staffing from 2019-20 to 2020-21 is projected to decrease by 1 percent across all funds. A total of 30 Special Revenue Fund positions were created in 2020-21, which are primarily attributed to IDEA and Title II. Capital Fund positions increased by 1 position in 2020-21. Internal Service Fund did not have any changes in total number of positions in 2020-21.

SCHOOL STAFFING – GENERAL FUND

The 2020-21 School Staff analysis shows that teaching positions are 59 percent of the General Fund budgeted full time equivalent positions in schools. The remaining 41 percent are administrative and support positions, which include instructional support, instructional specialists, clerical and maintenance. Full-time equivalent positions are determined by dividing the total of all average salaries in a position by the average salary for that position.

SCHOOL STAFFING:

Position:	General Fund	
	<u>Budgeted Full Time Equiv. Positions</u>	
	<u>2020-21</u>	<u>% to Total</u>
Classroom Teachers	11,228.0	59%
Instructional Support/Specialists	2,011.3	11%
Paraprofessional Support	1,790.1	9%
Administrative	716.7	4%
School Support Personnel	3,334.4	17%
TOTAL	19,080.5	100%

DEPARTMENT STAFFING – GENERAL FUND

The 2020-21 Department Staff analysis indicates that Bus Drivers and Attendant positions make up 36 percent of the General Fund budgeted full time equivalent positions in departments, while Clerical positions make up 13 percent. Instructional Specialists, Technical, Support personnel, and Administrators make up the remaining 51 percent. Full-time equivalent positions are determined by dividing the total of all average salaries in a position by the average salary for that position.

Department Staff 2020-21

DEPARTMENT STAFFING:

Position:	General Fund	
	<u>Budgeted Full Time Equiv. Positions</u>	
	<u>2020-21</u>	<u>% to Total</u>
Administrative	109	2%
Technical	615	14%

Bus Drivers and Attendants	1,629	36%
Instructional Specialists	626	14%
Support Personnel	946	21%
TOTAL	4,536	100%

ADMINISTRATIVE STAFFING – GENERAL FUND

School and District administrative budgeted full-time equivalent positions make up 3.3 percent of the total budgeted full-time equivalent positions. The remainder of the 22,839 budgeted full-time equivalent positions are Instructional and Support staff. Full-time equivalent positions are determined by dividing the total of all standard salaries in a position by the standard salary for that position.

The Capital Outlay Bond Issues (COBI) are retired by the State for the District. The bonds mature serially and are secured by a pledge of the District's share of revenue from the sale of license plates. The State Board of Administration determines the sinking fund requirements for these bonds annually.

2048			
TOTAL	<u>\$ 314,075,000.00</u>	<u>\$ 223,784,462.50</u>	<u>\$ 537,859,462.50</u>

On November 14, 2014, the residents of Broward County approved the issuance of up to \$800 million of General Obligation Bond Funds; the "District" has also provided an additional \$187 million to aid in this project. This amount will be used to provide resources over a five-year period to fund critically needed projects and programs in Safety, Music and Art, Athletics, Renovation and Technology (SMART).

PERFORMANCE ACCOMPLISHMENTS

School and Student Performance Background Information

Beginning in the 1990’s, there has been an increasing interest in holding school personnel accountable for their students’ academic success. All fifty states have designed and implemented a state accountability system that can be used to assess the success of individual school personnel in ensuring that students meet state-determined standards. Under Florida’s A+ Plan for Education, schools are identified as being in one of the following five school performance grade categories based on points awarded for students who make annual learning gains or maintain high standardized test scores.

School Grade Scale (Effective 2015)

Scale		
A	62%	Schools making excellent progress
B	54%-61%	Schools making above average progress
C	41%-53%	Schools making satisfactory progress
D	32%-40%	Schools making less than satisfactory progress
F	Below 32%	Schools failing to make adequate progress

The school grade calculation was revised by the Florida Department of Education (FLDOE) for the 2014-15 school year. The revision was intended to simplify the school grade formula and refocus on student outcomes in alignment with the 2015 Florida Statutes, specifically F.S. 1008.22. The revised formula consists of achievement, learning gains, acceleration, and graduation rate. Previously, additional factors were used to raise and lower school grades.

Additional changes include a more rigorous method for calculating learning gains, the requirement of schools to test 95 percent of their students to receive a school grade, and the creation of a new scale for assigning school grades which decompresses the range between grades such that there are at least five percentage points between each grade.

The 2014-15 school year marked the first year that the Florida Standards Assessment (FSA) was administered. In 2015 through 2019, achievement was determined by the percent of students earning a level 3 or higher on the FSA in English Language Arts (ELA) and Mathematics (Math), Statewide Science Assessment, and End-of-Course exams in Algebra I, Geometry, Biology, Civics, and U.S. History. Administration of the Algebra II End-of-Course exam ceased in 2018. Learning gains are credited for students who make meaningful improvement between two administrations of the FSA in ELA and mathematics.

The 2015-16 school year was the first year that the FSAA was administered. Beginning with the 2017-18 school year, the FSAA-Performance Task for English Language Arts, Mathematics, and EOC assessments were included in the achievement and learning gains components. The FSAA-Performance Task for Science is included in the achievement component. For 2018-19, the FSAA-Datafolio is only included for percent tested; when FSAA is referenced in the achievement and learning gains components, it is the FSAA-Performance Task.

Since 2015-16, learning gains were registered for all students who meet any of the below criteria:

- Students at Level 5 who remain at Level 5.
- Students at any Level 1 through 4 who increase by one or more levels.
- Students at Level 3 or Level 4 who remain in the same level but have a higher scale score than in the prior year in the same subject.
- Students at Level 1 and 2 who move into the next higher section within the same level. Level 1 is split into 3 sections (Low, Mid, High) and Level 2 into 2 sections (Low, High). For example, a student in Low-Level 1 must move to Mid-Level 1 to register as a learning gain.

PERFORMANCE ACCOMPLISHMENTS

School and Student Performance Background Information (continued)

Elementary school grades are calculated by taking the average achievement score for ELA, Math, and Science. Achievement is the percent of students achieving a level 3 or higher on the FSA in the respective area. The Science component consists exclusively of performance on the 5th grade statewide science assessment. The ELA component includes writing, and is based on scores in the 3rd, 4th, and 5th grade.

Elementary School Grades Model

ELA Grade 3, 4, 5	Math Grades 3, 4, 5	Science Grade 5
Achievement (0% to 100%)	Achievement (0% to 100%)	Achievement (0% to 100%)
Learning Gains (0% - 100%)	Learning Gains (0% - 100%)	
Learning Gains of the Low 25% (0% - 100%)	Learning Gains of the Low 25% (0% - 100%)	

At the middle and high school levels, schools receive acceleration points for students who successfully complete accelerated coursework. In middle school, this means either taking high school level classes and passing the corresponding End of Course (EOC) exams or attaining industry certification. The middle school acceleration score is calculated as follows:

$$\frac{\text{\# of students who passed high school EOC exams} + \text{\# of students who passed industry certifications}}{\text{\# of 8th grade students achieving a level 3 or higher on the 7th grade math achievement test} + \text{\# of students who took high school EOC exams and/or industry certifications}}$$

Middle School Grades Model

ELA Grades 6,7,8	Math Grades 6,7,8	Science Grade 8	Social Studies (Civics EOC)	Acceleration Success
Achievement (0% to 100%)	Achievement (0% to 100%)	Achievement (0% to 100%)	Achievement (0% to 100%)	The number of students who passed H.S. EOCs and industry certifications divided by the number of students eligible for advanced coursework. (0% to 100%)
Learning Gains (0% to 100%)	Learning Gains (0% to 100%)			
Learning Gains of the Low 25% (0% to 100%)	Learning Gains of the Low 25% (0% to 100%)			

In high school, accelerated coursework consists of Advanced Placement (AP), International Baccalaureate (IB), Cambridge Advanced International Certificate in Education (AICE), Dual Enrollment, and industry certification. As with middle school, students need to pass EOC exams or earn industry certification to count for acceleration.

High school grades also consist of the previous year's graduation rate and acceleration information. Acceleration is calculated as follows:

$$\frac{\text{Students who were eligible to earn college credit through AP, IB, or AICE examinations} + \text{students who earned a C or better in dual enrollment} + \text{students who earned a CAPE certification (for prior year)}}{\text{Graduation Cohort (for prior year)}}$$

PERFORMANCE ACCOMPLISHMENTS

School and Student Performance Background Information (continued)

High School Grades Model

ELA Grades 9,10	Math (EOCs)	Science (Biology 1 EOC)	Social Studies (US History EOC)	Graduation Rate	Acceleration Success
Achievement (0% to 100%)	Achievement (0% to 100%)	Achievement (0% to 100%)	Achievement (0% to 100%)	Overall, 4- year Graduation Rate from prior year (0% to 100%)	Percent of students eligible to earn college credit through AP, IB, AICE, dual enrollment or earning industry certification (0% to 100%)
Learning Gains (0% to 100%)	Learning Gains (0% to 100%)				
Learning Gains of the Low 25% (0% to 100%)	Learning Gains of the Low 25% (0% to 100%)				

Florida Standards Assessment (FSA)

Standardized test scores are the primary means of assessing progress in Broward County. The 2014-15 school year marked the beginning of the administration of the new FSA, which replaced the FCAT 2.0 for reading and math. The FSA is a criterion-referenced, performance-based test. The FSA is designed to measure students' mastery of the new Florida Standards. Aligned with the national Common Core Standards, the new Florida Standards require greater critical thinking, problem solving, and communication skills that are important in preparing students for college, career, and life.

Students taking the FSA receive a scale score and an achievement level. Achievement levels are created by delineating scale score ranges that represent a progression of understanding of the standards tested as follows:

- Level 1: Inadequate
- Level 2: Below Satisfactory
- Level 3: Satisfactory
- Level 4: Proficient
- Level 5: Mastery

PERFORMANCE ACCOMPLISHMENTS

School Performance

The table below shows school grade distributions for the 2017-18 and 2018-19 school years.

School Grade Distributions 2017-18 & 2018-19

Traditional and Charter Schools

End of Course Exams 2015-16 through 2018-19

College Entrance Testing

Each year, the District’s high school students participate in college entrance testing. The two most common assessments are the American College Test (ACT) and SAT (note the SAT used to stand for Scholastic Aptitude Test, then Scholastic Assessment Test, and is currently the official name rather than an acronym). Students elect to take the ACT and/or SAT based on personal preference or requirements of the college of their choice. They can also use scores from these exams to satisfy English Language Arts (ELA) graduation criteria if they were unable to achieve the necessary score on the grade 10 FSA ELA. For school the year 2018-19, students needed to achieve a scale score of 350 on the grade 10 FSA ELA and a scale score of 497 on the Algebra I EOC to meet graduation requirements; however, students who are unable to achieve these scores can satisfy the ELA graduation requirement by earning a score of either a 430 on the Evidence-Based Reading and Writing portion of the SAT, a score of 24 on the reading portion of the SAT, or a score of 19 on the ACT. Students can satisfy the Algebra I EOC graduation requirement by scoring a 97 on the Postsecondary Education Readiness Test (PERT). Beginning with the school year 2018-19, students were also able to satisfy the Algebra I requirement by earning a score of 420 or higher on the SAT Math section. Across most of the nation, the ACT and SAT are administered strictly as college entrance exams to college-bound eleventh and twelfth-grade students; however, in Florida, the ACT and SAT may also be taken by struggling students in order to satisfy alternate graduation requirements. Therefore, Broward and Florida results on these assessments typically reflect lower average scores than at the national level due to the dissimilarity between tested populations.

PERFORMANCE ACCOMPLISHMENTS

American College Test (ACT)

Many students opt to take the ACT as their ELA graduation requirement replacement test. Thus, average scores are, not surprisingly, lower than ACT’s College Readiness Benchmark scores for all subtests except English. The table below displays information on district-wide ACT participation and subtest mean scores for students in grade 12, as well as ACT College Readiness Benchmark Scores. As stated on ACT, Inc.’s website, the benchmark scores represent “the level of achievement required for students to have a 50 percent chance of obtaining a B or higher or about a 75 percent chance of obtaining a C or higher in corresponding credit-bearing first-year college courses”.

College-Readiness Benchmark Scores, ACT			
Reading	Mathematics	English	Science
22	22	18	23

Year	Grade	n	Average ACT Scores, BCPS			
			Reading	Mathematics	English	Science
2016	12	13,620	21.0	19.2	18.2	19.2
2017	12	4,571	19.7	18.2	17.2	17.8
2018	12	5,388	20.4	18.4	18.1	18.6
2019	12	4,880	20.5	18.3	18.3	18.4

n = count

SAT

The SAT is a comprehensive, standardized college entrance test used to provide information for college admission. The SAT measures verbal and mathematical abilities deemed critical for successful college academic performance. Broward County Public Schools (BCPS) offered an SAT School Day administration for the first time in 2016 to all 11th grade students at its traditional schools. This new initiative was put in place to eliminate the economic and logistical barriers that have limited students’ participation in the SAT in the past. To increase SAT participation throughout the District, BCPS partnered with the College Board to provide a school day administration of the SAT to all 11th grade students enrolled in the District’s schools. BCPS held the fourth annual SAT School Day on March 6, 2019 and, like in previous years, invited all 12th grade students who had not yet met the English Language Arts (ELA) graduation testing requirement to participate as well. Following a change in Algebra 1 concordance rules to include the SAT, 12th graders who had not met the Algebra 1 End of Course graduation test requirements were offered the test for the first time in March 2019. The following data summarize 11th grade student participation and scores (Evidence-Based Reading and Writing, or EBRW, and Math) from the 2016, 2017, 2018 and 2019 SAT School Day administrations.

SAT Grade 11 – SAT School Day

	Grade 11 Enrollment	n Scores	% Tested	Average Scores	
				EBRW	Math
2016	17,330	15,149	87.4%	492	477
2017	17,866	15,474	86.6%	503	481
2018	17,873	15,943	89.2%	496	471
2019	17,509	15,974	91.2%	496	469

n = count

PERFORMANCE ACCOMPLISHMENTS

Graduation Rate

BCPS' 2018-19 graduation rate was 86.2 percent. The graduation rates for the past five years for both BCPS and the State is illustrated below. The graduation rate is calculated using the Federal Graduation Rate, which includes all on-time graduates who earn a standard diploma and excludes both special diplomas and GEDs. The graduation rate calculation is as follows:

$$[\text{On-time graduates in year } x] / [(\text{first-time entering 9}^{\text{th}} \text{ graders in year } x-4) + (\text{transfers in}) - (\text{transfers out})]$$

Dropout Rate

The cohort dropout rate is the percentage of students who drop out of school within four years of their first enrollment in ninth grade. Deceased students and students who transfer out after enrollment are removed from the calculation. Students transferring in are included in the rate. A dropout is defined as a student who withdraws from school for any of several reasons without transferring to another school, home education program, or adult education program.

PERFORMANCE ACCOMPLISHMENTS

AdvancED eProve Survey

BCPS administered the AdvancED eProve survey to students, teachers, non-instructional staff, and parents in school year 2018-19 to gauge impressions of the BCPS school system. While each group of respondents received different questions on the survey, each group was queried on the same five domains about their school environment: Purpose and Direction, Governance and Leadership, Teaching and Assessing for Learning, Resources and Support Systems, and Using Results for Continuous Improvement. The following graph displays what percentage of each group agreed or strongly agreed with the positive statements made about each domain related to school environment. Satisfaction with BCPS was high among elementary school students, parents, and staff, with more than two-thirds of each group agreeing with positive statements made about each of the five school domains. Satisfaction was more mixed among middle and high school students (secondary students), with about half or just over half of these students agreeing with positive statements made about different aspects of their school.

AdvancED eProve Survey, 2018-19

PERFORMANCE ACCOMPLISHMENTS

School Lunch Program

The Free & Reduced Lunch Program is offered to those families earning at or below Income Eligibility Guidelines or on Direct Certification. In the last several years, the percent of students in Broward County Public Schools have steadily risen for both, Free school meals and Free & Reduced school meals with a notation of an increase in FY 2017-18 was impacted by Hurricane Irma and government assistance provided to families that qualified households for free meals with FY 2018-19 having a return to a more accurate percentage during a good economy.

COVID-19 impacted the District and households in March 2020. USDA allowed the implementation of Summer Feeding meal program to begin in March 2020 through July 2020. Under the Summer Feeding meal program, students were able to obtain FREE breakfast and lunch meals at any of the qualifying schools, regardless of their individual meal eligibility status. This limited the need for households to apply for meal benefits due to a decrease in income or an increase in household size. Due the impact of COVID-19 on the economy, raise in unemployment, PEBT Cards, food insecurity, eLearning, it is expected to impact FY 2020-21 free and reduced percentages.

GLOSSARY

[This page intentionally left blank]

Accretion

Asset growth, by internal expansion or acquisition.

Accrual Basis of Accounting

Transactions are recognized when they occur, regardless of the timing of related cash flows.

Ad Valorem Tax

A tax levied primarily on the value of real property. The amount of tax is determined by multiplying the taxable assessed value of the property times the millage rate.

Allocation

Component of an appropriation earmarking expenditures for a specific purpose.

Allotment

The portion of an appropriation that may be encumbered or spent during a specified period.

Appropriation

Funds set aside for a specific purpose.

At-Large

Electors chosen to represent the whole of a district, in distinction from those chosen to represent particular areas within the district.

Balanced Budget

A budget is balanced when the sum of estimated net revenues, including beginning fund balance, is equal to the sum of the estimated appropriations, including ending fund balance.

Base Student Allocation (BSA)

Dollar amount paid by the state to a district for each student based on the educational program through which the student receives instruction.

BECON (Broward Education Communications Network)

Owned and operated by Broward County Public Schools (BCPS), provides curriculum-based instructional programs for classroom teachers and broadcast programming on BECON-TV, a division of BECON, licensed by the FCC to provide non-commercial, educational programming to the South Florida community. BECON also provides online courses for BCPS students through Broward Virtual School and video conferencing services for schools, the community, and local businesses.

Board

The elected or appointed body that has been created according to state law and vested with responsibilities for educational activities in a given administrative unit. Included under the Board are the Board Attorney and other legal services, independent auditors, and internal auditors that report directly to the Board, negotiators, lobbyists, etc.

Bonds

A debt instrument requiring the issuer (also called the debtor or borrower) to repay to the lender/investor amount borrowed plus interest (coupons) over a specified period of time.

Budget

A plan of financial activity for a specified fiscal year indicating all planned revenues and expenses for the budget period.

Capital Outlay Bond Issue (COBI)

Bonds issued by the State of Florida on behalf of a school district for capital outlay purposes. Funds may be used for survey-recommended projects included on a school district's project priority list. Repayment of bonds is from Capital Outlay and Debt Service (CO & DS) revenues.

Capital Outlay Funds

These funds are used to account for financial resources to be used for acquisition or construction of major capital facilities and equipment.

Capital Outlay & Debt Service (CO & DS)

Allocated by the Office of Educational Facilities, Budgeting and Financial Management, these funds may be used in acquiring, building, constructing, altering, remodeling, improving, enlarging, furnishing, equipping, maintaining, renovating, or repairing of capital outlay projects. These funds are spent on projects on the Project Priority List presented to the State Department of Education.

Coronavirus Aide, Relief, and Economic Security (CARES) Act

A bill passed by Congress and signed into law by President Trump on March 27, 2020, which provides over \$2 trillion in economic relief to individuals, businesses, and states to address the economic fallout of the COVID-19 pandemic in the United States. The CARES Act allocates \$30.75 billion to the Education Stabilization Fund (ESF) to assist early learning, K-12, and post-secondary institutions.

Castaldi Analysis

An analysis used by the Florida Department of Education to validate the Educational Plant Survey or an amendment to the survey. It is a mathematical computation to determine if it is more cost effective to build a new educational facility or to remodel, add to, or upgrade the existing facility.

Central Services

Activities, other than general administration, which support each of the other instructional and supporting service programs. These activities are defined in the following functions: Planning, Research, Development and Evaluation Services, Information Services, Staff Services, Statistical Services, Data Processing Services, Internal Services, and Other Central Services.

Certificates of Participation (COP)

Certificates of Participation are used to finance the construction of state approved educational facilities and the purchase of land and equipment by the acceleration of funds to a school district through the issuance of debt. The debt service is paid from the proceeds of the Capital Millage (1.500 mills). Since the source of funds for repayment of COPs is from an authorized source, voter approval is not needed. COPs are not considered to be debt because the School Board is not legally required to appropriate funds to make lease payments. COPs may only be used for those projects designated in the official lease document.

CHAMP

An instructional discipline method that focuses on Conversation, Help, Activity, Movement, and Participation.

Class Size Reduction (CSR)

In the 2002 elections, Florida voters passed the class size reduction amendment to the state's constitution that obligated the state to fund the reduction of class sizes. By the beginning of the 2010 school year, there was to be a sufficient number of public school classrooms so that the maximum number of students in each room does not exceed 18 students for grades Pre-K through 3, 22 students for grades 4 through 8, and 25 students for grades 9 through 12. Class size requirements do not apply to extracurricular classes.

Cohort Survival Method

This method assumes that the historical survival rate of the members of a designated cohort (or group such as a kindergarten class which is tracked through graduation) can be used as the basis for predicting the size of similar cohorts (other kindergarten classes) as they progress through the system.

Committed Project Balances

Funds appropriated in previous fiscal year budgets that are committed to ongoing construction projects, other capital improvements, and planned equipment purchases.

Community Services

Community services consist of those activities that are not related to providing education for pupils in a school system. These include services provided by the school system for the community as a whole or some segment of the community, such as community recreation programs, civic activities, public libraries, programs of custody and care of children, and community welfare activities.

Concurrency

The implementation of a system whereby the provision of public facilities and services that are needed to serve proposed development is available at the time the impact of the development occurs.

Cost Factors

Weights assigned to the ten educational programs in which students are categorized in the FEFP that are based on average cost of the program in the state. In most cases, a three-year average is used to determine this factor. See definition of "Weighted FTE" for current year programs and cost factors.

Cost of Living Adjustment (COLA)

An increase in wages or salary to compensate for an increase in the amount of money spent on food, clothing, accommodation, and other basic necessities.

Debt Service Funds

These funds are used to account for the accumulation of resources for and the payment of interest and principal on general long-term debt.

Debt Service Millage

The Debt Service Millage refers to the millage levy necessary to meet principal and interest payments on general obligation bonds issued by the District. The amount of the Debt Service Millage is computed each year based upon the required principal and interest payments on the general obligation bonds actually outstanding. The Debt Service Millage should decrease as the amount of principal is being paid off and if the tax roll continues to grow; however, if the growth in the tax roll is diminished as a result of legislation or a decline in the housing market, then the millage rate would be adjusted accordingly and could increase.

Declining Enrollment Supplement

Additional funds provided to districts whose student population has decreased from the previous year.

Department of Juvenile Justice (DJJ) Supplement

The total K-12 weighted full-time equivalent student membership in juvenile justice education programs in each school district shall be multiplied by the amount of the state's average class-size reduction factor multiplied by the district's cost differential. An amount equal to the sum of this calculation shall be allocated in the FEFP to each school district to supplement other sources of funding for students in juvenile justice education programs.

Deficit

The excess of liabilities of a fund over its assets, usually the result of expenditures exceeding revenues over the life of the fund. Florida law mandates the school district budgets must be in balance, i.e., cannot be in a deficit condition.

Differentiated Accountability

A project through which school districts distinguish between schools in need of intensive intervention and those that are closer to meeting their goals under the federal No Child Left Behind (NCLB) Act.

Digital Classroom Allocation

Florida Education Finance Program (FEFP) allocation to support efforts to improve student performance outcomes by integrating technology in classroom teacher and learning. Each school district shall be provided a minimum \$500,000, with the remaining balance of the allocation to be distributed based on each district's proportion of the total K-12 full-time equivalent student enrollment.

Direct Cost

Costs directly attributable to the instruction of students, such as salaries, materials and supplies, etc.

Discretionary Millage

The discretionary part of the millage levy which is permitted by law to enhance operating revenues received in the Florida Education Finance Program and State Categorical Programs. The maximum rate is determined annually by the legislature.

District Cost Differential (DCD)

Equalizing factor assigned to each district based on a “market basket” approach. The average Florida Price Level Index for the most recent three years is used to calculate this factor.

Egress

Exit or a way out.

Encumbrances

Obligations that are chargeable to an appropriation and for which a part of the appropriation is reserved.

English for Speakers of Other Languages (ESOL)

Education and services provided to those students whose first language is not English.

Enterprise Funds

Funds established to account for any activity for which a fee is charged to external users for goods and services. The use of an enterprise fund is required if: 1) the activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity, 2) laws or regulations require that the activity’s costs of providing services, including capital costs, be recovered with fees and charges, rather than with taxes or similar revenues, and 3) the pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs.

Entitlement Programs

Government programs that guarantees and provides benefits to a particular group.

ESE (Exceptional Student Education)

In the state of Florida, ESE is the designation for special education of students with disabilities, as well as services provided to students who meet criteria for gifted eligibility.

ESE Guaranteed Allocation

A fixed funding allocation provided by the state for supplemental services for gifted students and students with low to moderate disabilities. It is not recalculated after the initial allocation.

Expendable Trust Funds

Funds where the principal and income may be expended.

Expenditure

Spending of funds; money paid out.

Facilities Acquisition and Construction

Consists of those activities concerned with the acquisition of land and buildings, remodeling buildings, construction of buildings and additions, initial installation or extension of service systems and other built-in equipment, and improvements to sites.

Fiduciary Funds

Funds identified as pension trust funds, investment trust funds, private-purpose funds, and agency funds that are used to report resources held by a governmental unit in a trustee or agency capacity for others and, therefore, cannot be used to support the government’s own program.

Fiscal Services

Consists of those activities concerned with the fiscal operation of the school system. This function includes budgeting, receiving and disbursing cash, financial accounting, payroll, inventory control, and internal auditing.

Fiscal Year

The fiscal year for Broward County Public Schools begins July 1st and ends the following June 30th. The fiscal year is established by state law and is the same for all public school districts in Florida.

Florida Education Finance Program (FEFP)

The Florida Education Finance Program is the method used by the state to distribute funds in Florida for education.

Florida Empowerment Scholarship (FES)

A scholarship program eligible to students whose families have limited financial resources the option to attend a participating private school. To be eligible to receive a scholarship, the student's household income level must not exceed 300 percent of the federal poverty. The scholarships will average between \$6,775 and \$7,250 depending on grade level and county of the student.

Florida Public Education Lottery Act

Enables the people of the state to benefit from significant additional monies for education. The intent of the Legislature is that the net proceeds of lottery games conducted pursuant to this act be used to support improvements in public education.

Florida Price Level Index (FPLI)

Used as a cost of living index to determine the District Cost Differential (DCD) for each school district.

Florida Retirement System (FRS)

Florida state-administered retirement plan for those employed at all levels of government (state, counties, district school boards, universities, community colleges, cities, and special districts). Monthly employer-employee contributions are paid to a trust for all FRS members.

Florida School Recognition Program

Recognizes the high quality of many of Florida's public schools. Provides greater autonomy and financial awards to schools that demonstrate sustained or significantly improved student performance. Schools that receive a grade of "A", schools that improve at least one performance grade, or schools that improve at least one performance grade and sustain the improvement the following year are eligible for school recognition. Funds are awarded for each full-time equivalent student for the qualifying school.

Florida Standards Assessment (FSA)

Designed to measure student performance and learning gains. The FSA achievement levels and learning gains are used in the calculation of the school grade, along with other components.

Food Services

Consists of those activities concerned with providing food to pupils and staff in a school or school system. This function includes the preparation and serving of regular and incidental meals, lunches or snacks in connection with school activities, and the delivery of food. Food purchased and served outside the district's defined Food Services program is to be charged as a purchased service of the applicable function.

Fringe Benefits

Amount paid by the district on behalf of employees. These amounts are not included in the gross salary. Such payments, while not paid directly to the employees, are part of the cost of employing staff.

Full-Time Equivalent (FTE)

Districts that participate in the state appropriations for the FEFP must operate all schools for a term of 180 actual teaching days, or the hourly equivalent of 180 actual teaching days. The hourly equivalent for kindergarten through 3rd grade is 720 instructional hours and 900 instructional hours for students in 4th through 12th grade

Function

The action or purpose for which a person or thing is used or exists. Function includes the activities or actions that are performed to accomplish the objectives of the enterprise. The activities are characterized into three major functions as follows:

- *Instruction* includes activities dealing directly with the teaching of pupils.
- *Instructional Support Services* include administrative, technical, and logistical support to facilitate and enhance instruction.
- *General Support* are those activities concerned with establishing policy, operating schools and providing essential facilities and services for the staff and pupils.

Fund

An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. In addition to funds, there are two self-balancing groups of accounts: one to account for buildings, land, equipment, and other general fixed assets; another to account for obligations on long-term debt.

Fund Balance

The difference between revenue and expenditures. A negative fund balance is sometimes called a deficit.

General Administration

Consists of those activities performed by the superintendent and assistant superintendents in the general direction and management of all affairs of the school system. This includes all personnel and materials in the office of the superintendent.

General Fund

The primary operating funds of the District. It is used to account for all financial resources except those required to be accounted for in other funds.

General Obligation Bonds (GOB)

Debt instruments for which a school district pledges its full faith and credit for repayment.

General Support Services

Consists of those activities responsible for establishing policy, operating schools and central administration offices, and providing the essential facilities and services for staff and pupils.

Governmental Accounting Standards Board (GASB) – Statement 34

The Governmental Accounting Standards Board (GASB) issued Statement 34, Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments that requires all governments, including special-purpose governments such as school districts, to implement a new financial reporting model. The model includes management’s discussion and analysis (MD&A), basic financial statement notes to the financial statements, and certain other required supplementary information (RSI) other than MD&A.

Governmental Accounting Standards Board (GASB) – Statement 45

For the fiscal year ending June 30, 2008, the District implemented Governmental Accounting Standard Board Statement No. 45, Accounting and Financial Reporting by Employers for post-employment Benefits Other than Pensions (OPEB), for certain post-employment benefits including continued coverage for the retiree and dependents in the Medical/Prescription Plans as well as participating in the dental group plan sponsored by the District. Retirees are also eligible to continue the sponsored term life insurance policy provided by the District. The requirement of this statement was implemented prospectively, with the actuarially determined liability of \$105.6 million as of January 1, 2006 being amortized over 30 years.

Governmental Accounting Standards Board (GASB) – Statement 54

Fund Balance Reporting and Government Fund Type Definitions provides for two major fund balance classifications. The current standard has two major categories of fund balance classifications, reserved and unreserved. The standard requires the reserved fund balance to be categorized into non-spendable, restricted or committed, and the unreserved fund balance to be categorized into assigned and unassigned.

Governmental Funds

Funds that do not generate profit or loss, such as general funds (operating budget), special revenue funds (grants), capital projects (construction), and debt service (financing).

Hold Harmless Allocation

Guarantees that each district has a certain percentage of increase over the previous year.

Homestead Exemption

Reduction of \$25,000 applied to the assessed value of a house or condominium used as the primary residence of the taxpayer. As of January 2008, a new Florida constitutional amendment added another \$25,000 to the Homestead Exemption for a total of \$50,000. However, only \$25,000 of a homeowner's Homestead Exemption is used when calculating the District's millage.

Impact Fees

Broward County developers' fees that can be used for equipment, site acquisition, and the construction or expansion of new facilities for enrollment increases. Fees are spent within the service area in which they are collected.

Indirect Cost

Costs not directly related to the instruction of students, such as district administration.

Instruction and Curriculum Development Services

Activities designed to aid teachers in developing the curriculum, preparing and utilizing special curriculum materials, and understanding and appreciating the various techniques that stimulate and motivate pupils. Included in this function are the following instructional support specialists: primary, technology, learning sources, and behavioral.

Instructional Materials

Funds are allocated annually to purchase instructional materials. This includes the purchase of instructional content, technology equipment and infrastructure, core subject materials, library/media materials, science lab materials and digital instructional materials for students with disabilities.

Instructional Media Services

Those activities concerned with the use of all teaching and learning resources, including hardware and content materials. Educational media are defined as any devices, content materials, methods, or experiences used for teaching and learning purposes, including printed and non-printed sensory materials. Included are school media centers (school libraries) and central media center operations, as well as routine repair and maintenance of audio-visual equipment.

Instructional Staff Training Services

Activities designed to contribute to the professional or occupational growth and competence of members of the instructional staff during the time of their service to the District. Among these activities are workshops, demonstrations, school visits, courses for college credits, and sabbatical leaves.

Instructional Support Services

Provides administrative technical (such as guidance and health) and logistical support to facilitate and enhance instruction. Instructional Support Services exist as adjuncts for the fulfillment of the behavioral objectives of the instruction functions, rather than as entities within themselves. Although some supplies and operational costs are generated in instructional support, the major concern is in the area of personnel.

Internal Service Funds

These funds are used to account for the financing of goods or services provided by one department or other departments of the governmental units on a cost reimbursement basis.

Levy

Taxes imposed for the support of governmental activities.

Magnet Programs/Schools

Programs offered to students in schools outside their boundaries or school's normal attendance area that include subjects such as performing arts, technology, marine and environmental science, communications, and international affairs and business. Magnet schools are based on the premise that not all students learn in the same way. By finding a unifying theme or a different organizational structure for students of similar interest, those students will learn more in all areas

Maintenance of Plant

Consists of activities that are concerned with keeping the grounds, buildings, and equipment at an acceptable level of efficiency through repairs or preventative maintenance.

Major Fund

The District's major fund is the general fund, which is the operating budget.

Market Value

The Property Appraiser's opinion of what a willing buyer would have paid a willing seller for property as of January 1. Other factors considered include economic conditions and the value of new improvements added to existing properties.

McKay Scholarship Program

This program provides Florida students with special needs the opportunity to attend a participating private school. The McKay Scholarship Program also offers parents public school choice.

Mean Score

The average or middle score which is calculated by dividing the sum of the scores by the total number of scores.

Mental Health Assistance Allocation (MHAA)

FEFP funds are allocated to establish or expand school-based mental health care. Each school district will receive a minimum of \$100,000, and the remaining balance will be distributed proportionally to districts based on their total unweighted student enrollment.

Mill

Unit of monetary value equal to .001 of a dollar (1/10 of one cent). Property tax rates are set by millage, which is \$1 for every \$1,000 of a property's taxable value.

Millage (Capital) - Local Tax Levy on Nonexempt Assessed Property Valuation

Funds may be used for new construction, remodeling, and site improvement; expansion to new sites, existing sites, auxiliary facilities, or ancillary facilities; maintenance; renovations; school buses; new and replacement equipment; lease purchase agreement payments; payment of loans; environmental regulation compliance costs; and leasing of educational facilities.

Minimum Basic Operations (MBO)

The minimum activities necessary to maintain the value of inventory, preserve plant and equipment condition, ensure security, process payroll and employee benefits, and facilitate employees working remotely, provided such businesses shall practice, and ensure persons interacting with and within such businesses practice, physical distancing and all other measures as advised by the CDC.

Modified Accrual

Revenues are recognized when they become both measurable and available to finance expenditures of the fiscal period. Expenditures are generally recognized when the related fund liability is incurred, if measurable.

Modular Buildings

Type IV (non-combustible construction) buildings that are one-room classrooms or classrooms contained within a complete modular building. The modular buildings are air-conditioned and placed on engineered grade level foundations. The buildings are of several types of construction, ranging in sizes necessary to meet the educational specifications for the facility they will serve. Florida Building Code requires a restroom within classrooms that are used for primary grades (kindergarten through third grade). All of these classrooms meet the Florida Building Code requirements for permanent construction.

Non-Expendable Trust Fund

Funds where the principal must be preserved intact. Only interest earnings can be used for the purpose of the trust.

Object

The service or commodity obtained as the result of a specific expenditure. Expenditure classifications are based upon the types or categories of goods and services purchased. The eight major object categories are: Salaries, Employee Benefits, Purchased Services, Materials and Supplies, Energy Services, Capital Outlay, Other Expenses, and Transfers.

Operation of Plant

Consists of activities concerned with keeping the physical plant open and ready for use. Major components of this function are utilities, including telephone service, custodial costs, and insurance costs associated with school buildings. Includes cleaning, disinfecting, heating, moving furniture, caring for grounds, school crossing guards, security, and other such activities that are performed on a daily, weekly, monthly or seasonal basis. Operation of plant does not encompass repairs and replacements of facilities and equipment.

Prior Period Funding Adjustment Millage

The prior period funding adjustment millage must be levied by a school district if the prior period unrealized Required Local Effort (RLE) funds are greater than zero. The Commissioner of Education shall calculate the amount of the prior period unrealized Required Local Effort (RLE) funds and the millage required to generate that amount.

Project Priority List (PPL)

This listing is required by the State Constitution Section (9)(d) Article XII and relates to the order of priority of capital outlay projects. The projects are also listed in the Education Plant Survey. If a project is on the list, it qualifies for use of Capital Outlay and Debt Service (CO & DS) funds, and COBI bond sales. These funds come from state motor vehicle license tag fees.

Project Reporting

This dimension is used to account for expenditures on projects funded through grants and to account for construction projects.

Public Education Capital Outlay (PECO)

A type of capital outlay revenue distributed to districts by the state. The primary funding source for PECO is the gross receipts tax on utilities.

Pupil Personnel Services

Those activities which are designed to assess and improve the well-being of pupils and to supplement the teaching process. These activities are classifiable under the following functions: Attendance and Social Work, Guidance Services, Health Services, Psychological Services, Parental Involvement and Other Pupil Personnel Services.

Pupil Transportation Services

Transportation of pupils to and from school activities, either between home and school, school and school, or a trip for curricular or co-curricular activities. Expenditures for the administration of pupil transportation services are recorded in this account, together with other pupil transportation expenses.

Qualified School Construction Bonds (QSCB)

Qualified School Construction Bonds (QSCB) are interest free, tax credit obligations that can be used to fund school construction, rehabilitation, repair, and land acquisition. They are authorized by the Federal Government under the American Recovery and Reinvestment Act (ARRA) of 2009.

Qualified Zone Academy Bonds (QZAB)

A provision of the tax code that provides a source of funding that may be used for renovating school buildings, purchasing equipment, developing curricula, and training school personnel. The proceeds of the bonds may not be used for new construction. This is a tax credit bonds program, not a grant program.

Reading Instruction Allocation

Funds are provided for a K-12 comprehensive, district-wide system of research-based reading instruction. The amount of \$115,000 shall be allocated to each district, and the remaining balance shall be allocated based on each district's proportion of the total K-12 base funding. These funds shall provide for an additional hour of intensive reading instruction beyond the normal school day for each day of the entire school year for the students in the 300 lowest performing elementary schools.

Required Local Effort (RLE)

The combination of ad valorem (property) taxes and fees which a school district is required to impose in order to receive funds through the State's Florida Education Finance Program (FEFP).

Recalibration

All student FTE enrollment is capped at 1.0 FTE, including those students reported in virtual courses and other Florida school districts. Students with FTE enrollment in only one survey during the regular 180-day school year (survey 2 or survey 3) is capped at 0.50 FTE. DJJ FTE enrollment beyond the 180-day school year is not included in the recalibration to 1.0 FTE, nor is the FTE related to McKay Scholarships.

Referendum

A general vote by the electorate on a single political question that has been referred to them for a direct decision.

Revenue

The income of a government from taxation and other sources.

Revenue Anticipation Notes (RANS)

These notes may be issued by the district in anticipation of the receipt of current school funds. These notes may not exceed one year, but may be extended on a year-by-year basis for a total of five years. These obligations may not exceed one-fourth of the district's tax revenues for operations for the preceding year. These funds may be utilized for School Board approved purchases to include school buses, land, equipment for educational purposes, remodeling, renovation, and new construction of educational and administrative facilities. RANS are authorized by Florida Statute 1011.14.

Safe School Appropriation

The Florida Legislature approved an increase to the minimum allocation of \$250,000 for the Safe School Allocation, with the remaining funds to be allocated based on one-third of the FLDE Crime Index and two-thirds of the district's share of the state's total unweighted student enrollment. Safe School funds are to be used by districts to help them comply with sections 1006.07 through 1006.4193, F.S., with priority given to establishing a School Resource Officer Program pursuant to section 1006.12, F.S.

Safe-school officer (SSO)

For the protection and safety of school personnel, property, students, and visitors, each district shall assign one more SSO to each school facility within the district. Florida SB 7030 defines four SSO options as a school resource officer, school safety officer, school guardian, and a school security guard.

Sale of Local Bonds

Issued by the district and authorized by the vote of the people of the district. These funds may be used to acquire land, renovate, remodel and expand existing facilities, build new schools, and pay issuance costs.

School Administration

Activities concerned with directing and managing the operation of a particular school. This function includes activities performed by the principal, assistant principal, and other assistants in the general supervision of all operations of the school, evaluations of staff members of the school, assignment of duties to staff members, supervision and maintenance of the records of the school, and coordination of school instructional activities with the instructional activities of the school system. It includes clerical staff for the activities and bookkeeping associated with processing time reports for Title I personnel working additional hours in title I, Part A, School Improvement Grant Programs.

School Advisory Council (SAC)

SAC is an elected counsel of parents, school staff, and community representatives at each school who evaluate the needs of their school, and develop and monitor the School Improvement Plan. The SAC composition must reflect the demographics of the school, and at least 51 percent of its members must not be persons employed at the school.

School Improvement Plan (SIP)

SIP is a plan to improve student performance at an individual school. These plans, designed to implement state education goals, Sunshine State Standards, and District Strategic Plan Goals are based on a needs assessment and include goals, baseline data, indicators of student progress, strategies, action plans, and evaluation procedures. All SIPs must be approved by the School Board.

Single Point of Entry (SPE)

As a part of the District's SMART initiative safety and security enhancements, BCPS established SPE projects at all schools, which limit visitor access to a single entrance during the school day. All perimeter gates must be locked once the school day begins, and must be monitored at all times by a staff member.

SMART Schools

Schools that are Soundly Made, Accountable, Reasonable, and Thrifty. It is the purpose of the Legislature to provide a balanced and principle-based plan for a functional, safe, adequate, and thrifty learning environment for Florida's public school students. The principles upon which the plan is based are less government, lower taxes, increased responsibility of school districts, increased freedom through local control, and family and community empowerment.

Sparsity Supplement

Additional funds are provided to small school districts in order to recognize that there are certain costs which are necessary to all districts; however, larger districts are more easily able to absorb these costs (economy of scale).

Special Revenue Funds

These funds account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted or committed to expenditures for specific purposes.

State Categorical Funds

State categorical funds are appropriations by the state for specific categorical purposes, such as instructional materials. State categorical programs generally must be expended during a fiscal year, returned to the state, or re-budgeted for that specific purpose during the next fiscal year.

Student Transportation Allocation

The formula for allocating transportation funds is outlined in section 1011.68, F.S., and contains the following provisions in the state allocation for student transportation: (1) students with special transportation needs earn a higher rate of funding than base students; (2) base funding for each district is established by the district's proportionate share of the total statewide students eligible for transportation; and (3) indices are applied that modify the base funding amount to reward more efficient bus utilization, compensate for rural population density and adjust funding based on the cost of living.

Supplemental Academic Instruction (SAI)

Dropout prevention and academic intervention programs are funded through the FEFP and SAI categorical funds. Districts have flexibility in how SAI funds may be expended as long as the funds are used to help students gain at least a year of knowledge for each year in school and to assist student progression. Supplemental Academic Instruction strategies may include, but are not limited to:

- ✓ After-school instruction
- ✓ Class Size Reduction (CSR)
- ✓ Extended school year
- ✓ Mentoring
- ✓ Modified curriculum
- ✓ Reading Instruction
- ✓ Summer school intensive skills development
- ✓ 300 lowest performing elementary schools extended day
- ✓ Tutoring

Taxable Value

Amount used to calculate the taxes for all taxing authorities.

Teacher Classroom Supply

This appropriation provides an allocation to each school district based on the prorated total of each district's share of the total K-12 unweighted FTE (UFTE) student enrollment. Pursuant to section 1012.71, F.S., the funds are to be used only by certified classroom teachers for the purchase of classroom instructional materials and supplies for use in teaching students.

Turnaround School Supplemental Services Allocation (TSSSA)

The State of Florida appropriates to provide eligible schools with the funds to improve the overall academic and community welfare of students and their families, pursuant to s. 1001.62(21), F.S. Eligible schools will receive up to \$500 per FTE student.

Traffic Analysis Zones (TAZ)

A way of identifying different geographic areas or neighborhoods. Each TAZ has a set of streets or canals that define the perimeter of the TAZ or neighborhood.

Truth in Millage (TRIM)

The law (200.065 Florida Statutes) which sets requirements, calendar, and method to be used in levying property taxes.

Trust and Agency Funds

These funds are used to account for assets held by Expendable Trust Funds, Nonexpendable Trust Funds, and Agency Funds.

Unencumbered

In Government Accounting, balance relating to a portion or the entire amount of an appropriation that has not been encumbered or expended.

Unweighted FTE (UNWTD FTE or UFTE)

Unweighted FTE refers to the number of Full Time Equivalent students prior to being multiplied by the cost factor of the instructional program to which the FTE (student) is assigned. See the definitions for "FTE" and "Weighted FTE".

Voted/Non-Voted Millage

Florida law establishes maximum millages that may be levied by a district for operating and/or capital outlay purposes without voter approval. These are referred to as non-voted millage levies. The Constitution caps the total of these levies at ten mills. The Florida Constitution provides that additional millage may be levied for both operating and/or capital outlay purposes **only** if approved by referendum of the voters of the county. These are referred to as voted millage levies.

Weighted FTE (WTD FTE or WFTE)

The FEFP Unweighted Full Time Equivalent (UFTE) multiplied by the cost factor of the program to which the UFTE student is assigned. The programs and cost factors for the 2020-21 school year are as follows:

<u>Program</u>	<u>Grade</u>	<u>Cost Factor</u>
Basic Education	PK-3	1.124
Basic Education	4-8	1.000
Basic Education	9-12	1.012
Basic Education with ESE Services	PK-3	1.124
Basic Education with ESE Services	4-8	1.000
Basic Education with ESE Services	9-12	1.012
English for Speakers of Other Languages	KG-12	1.184
Exceptional Student Education, Level 4	PK-12	3.644
Exceptional Student Education, Level 5	PK-12	5.462
Career Education	9-12	1.012

Workforce Development Education Fund

The funds are allocated to provide for workforce education programs as defined in section 1004.02(25), F.S. Workforce Development Education programs include adult general education, technical certificate programs, applied technology diploma programs and apprenticeship programs.

LIST OF ACRONYMS

ACE	Alternative Certification of Educators
ACT	American College Test
