# Accessing Medicaid Benefits for Students with an Individual Education Plan

Parents Rights and Protections –General Information

The secretary of Education amends regulations for Part B of the Individuals with Disabilities Education Act (IDEA or Act). The parental consent requirements which a public agency must meet before it may access for the first time a child's or parent's Medicaid benefits to pay for services required under the Act were amended. In addition, language has been added to the Act requiring the notification to all parents of children with disabilities of their legal protections when public agencies seek to access public benefits or insurance. These regulations have been finalized and became effective March 18, 2013.

- 2. Your withdrawal of consent or refusal to provide consent will not change or stop your child's required services which are provided at no cost to you.

#### **BCPS INFORMATION**

- 1. Your child's school receives the money generated from this program to be used only for Student Support or Exceptional Student Education.
- 2. BCPS will not interfere with services your child receives from a community doctor or agency. For example, BCPS intentionally waits at least 8 weeks to submit a claim to Medicaid. If a community service was provided on the same day as an IEP service the school district will not be paid for their service since their service will be submitted after the community service is paid.
