Extended School Year

Soaring to Success

We are excited to *Welcome* our students to Soar Summer Experience and Extended School Year. These summer programs are devised for students with Individualized Education Plans and academic deficiencies.

Summer learning is an opportunity to have face-to-face instruction targeting the specific needs of students. Our students will have academic interventions and related services identified in their plans. We would like to maximize our efforts this summer to ensure student achievement.

It is vital that all students invited to these programs attend. It is critical to have each student in attendance beginning with the first day of Summer Experience on June 20, 2023. Students will be afforded free breakfast and lunch along with academic, attendance, and positive behavior incentives. We look forward to having your child, "Let's SOAR this, Summer!"

Intern Principal,

Ameerah A. Pompilus

Broward County Public Schools

SOAR Programs

The BCPS Summer Experience Program is designed for children who meet eligibility criteria demonstrating a need for additional instruction and time spent learning. Students who meet eligibility criteria are invited by the home school to participate. The program runs for 22 instructional days and is being hosted at 52 sites across the district. The Summer Experience Program includes free breakfast and lunch and transportation for qualified students. For additional information, families should contact their child's home school.

Summer Experience Operations
June 20, 2023, through July 27, 2023
Monday - Thursday, four hours a day
Hours: 9:30 am -1:30 pm

Welcome

Samantha Shortridge

I am excited to work with the amazing students at Pine Ridge for the summer, which promises to be a wonderful experience. Soaring to excellence requires three things: attendance, motivation, and full participation.

“My team and I will be the wind beneath their wings.” We will assist in ensuring goals are met and they leave being even more prepared for the school year ahead. Together we can, so let’s SOAR together!

ESY Site Lead/ESE Specialist,

Samantha Shortridge
