**Ethics, artistic integrity & plagiarism-** "Any work that makes use of (appropriates) photographs, published images and/or other artist's works must show substantial and significant development beyond duplication. This is demonstrated through manipulation of the formal qualities, design, and/or concept of the course. The student's individual 'voice' should be clearly evident. It is unethical, constitutes plagiarism, and often violates copyright law simply to copy another artist's work or imagery (even in another medium) and represent it as one's own."
