Two Biggest High School MYTHS

- These are MYTHS...they are NOT true!!
 - Ninth grade doesn't really matter.
 - Parents can take a less active role.
- BE CAREFUL of these two myths...they are as far from the truth as you can imagine!!!
- Here is the truth:
 - Ninth grade is the SINGLE most important year of high school!!
 - Parent involvement is more important than ever as students enter high school.

Just filling your buckets is not enough!

- Students should choose courses that enhance their college and career resumes.
- Students show they are well-rounded when they join activities and athletic teams.
- Students should choose the most rigorous courses they can handle. They should not take courses that are more rigorous than they can handle!
- Students should complete programs when possible.
- Students should strive to demonstrate leadership both in and out of school.

CHOOSING CLASSES

- Everyone takes one English.
