

## #2020gradsecret is OUT!

Yesterday at 12:01am, Broward Education Foundation proudly unveiled our **#2020gradsecret** for graduates of Broward County Public Schools!

**#2020gradsecret** is our gift to grads of a ground-breaking augmented reality (AR) mobile phone app. After downloading the free **ImagineAR** app from iTunes or Google Play, our graduates are making actual history. From the comfort of their homes, our grads can take photos and videos of themselves interacting with and:

- Accepting their diploma from Broward Schools **Superintendent Robert Runcie**
- Hanging with best-selling recording artist **FLO RIDA**
- Performing TikTok dances with either of them to share on social media.

This mind-blowing technology makes it appear that **Supt. Runcie** and **FLO RIDA** are actually in the students' homes! This AR experience has never, ever been done before anywhere in the world- the ability to interact and record with AR images of real people. You can download the free **ImagineAR** app and see for yourself!

Watch the video below and go to <http://browardeducationfoundation.org/2020gradsecret> to learn more.

In these challenging times of quarantining and social distancing, we took virtual reality literally to the next level with augmented reality for Broward's Class of 2020. Our **heartfelt thanks** to our amazing partners **ImagineAR**, **BrightStar Credit Union**, **Metro Group Miami** and **BECON** for helping us make history for Broward County Public Schools Class of 2020!

Broward Education Foundation is agile, adept and responsive to shifting needs in education and our community.

Warm Regards,

Shea Ciriago  
Executive Director  
Broward Education Foundation

**PS-** Using the app, grads can also access a very special message from **NBA and Miami Heat legend Dwyane Wade!**
