

THE FLYING NEWSLETTER

Flying L Family,

- It is truly a privilege to be the new Principal of such an amazing school and community. We are off to a fabulous start to this school year.
- Homecoming Week was a spirited week full of fun outfits, pep rallies, a football game, and the best dance I have ever seen. In addition, we were chosen to host the district's Ed Talk event for the community members, school employees, and students of Broward County.

- At FLHS our staff works extremely hard to provide our scholars with the most advanced and rigorous curriculum. We pride ourselves in providing college preparatory strategies that prepare our scholars for college, while also providing real world learning opportunities for career and life readiness. In addition, our school has partnered with our zone feeder schools to assist in the infusion of Cambridge.

For more information on what's going on at Fort Lauderdale High visit our website at

www.browardschools.com/fortlauderdale and follow me on Twitter @PrincipalFLhigh.

- I look forward to the year ahead and to creating relationships with all stakeholders.

Erin Brown
Principal

FLHS Media Center

VAPING

The cool and dangerous new alternative to cigarettes

7 Things E-Cig/Vape Companies DON'T WANT YOU TO KNOW

1. E-cigs (like JUUL) contain nicotine, cancer-causing chemicals, metals, and other chemicals found in regular cigarettes.
2. Nicotine is especially addictive for teens, and can increase anxiety levels.
3. 1 JUUL pod contains the same amount of nicotine as an entire pack of 20 cigarettes!
4. Smoking e-cigs can harm teen brain development, which continues into the early to mid-20s.
5. Some e-cigs like JUUL were designed intentionally to resemble everyday items like USB drives, pens and markers.
6. Flavored regular cigarettes are banned because they get teens addicted. But flavored e-cigs are still on the market.
7. E-cigarette aerosol is NOT harmless "water vapor."

#KNOWTHEFACTS

03 Electronic cigarettes can be used with marijuana or CBD oil.¹

04 66% of teens think that there is "just flavoring" in their electronic cigarettes.²

02 Nicotine can harm adolescent brain development.¹

05 21% Florida high school students get their electronic cigarettes from convenience stores and/or gas stations.³

01 Electronic cigarettes can have nicotine levels equal to a pack of cigarettes.¹

06 41% of Broward County high school students said they have used an electronic cigarette.⁴

Family Educational Rights and Privacy Act (FERPA)

FERPA

Family Educational Rights & Privacy Act of 1974

Goal: Protect Integrity of a Student's Academic Record & Protect Student's Privacy

The Family Educational Rights and Privacy Act is a federal law that protects the accuracy and privacy of students' educational records. The Family Educational Rights and Privacy Act (FERPA), F.S. 1002.22, F.S. 1002.221 and SB Policy 5100.1 afford parents, guardians or eligible students (students over 18 years of age or attending a postsecondary institution) certain rights with respect to the student's education records maintained by the District. These rights are:

- The right to inspect and review a student's education records within 30 days of the day the District receives a request for access.
- The right to request the amendment of a student's education records.
- The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.
