ADDITIONAL INFORMATION

Suggestions/Recommendations/Updates

Cell Phones

- Staff and students who bring their personal items (such as cell phones, tablets, personal laptops, etc.) do so at their own risk.
- If avoidable, we suggest students do not bring such items on campus as they are a huge responsibility and can also be very distracting.
- No headphones or cell phone usage during hallway transitions.
- Please do not attempt to contact your child during school hours. Please contact the school when it is necessary to communicate information to your child.
- Confiscated items must be picked up by parent.

Your Child and Social Media

Most Middle School-aged students are in violation of various social media policies because they claim to be at least 13 years old to have an account.

(Platforms will use this as a method to minimize or eliminate their liability if something unfortunate occurs.)

Many conflicts or dangers associated with middle school-aged students stem from or are perpetuated by communications on social media.

Do you know who your child is talking to?
Do you know what your child is saying?
Do you know what is being said to your child?

Schools have no involvement in Social Media situations unless it impacts the safety of the school or causes a disruption on campus.

Please monitor electronic usage regularly.
