CCES Newsletter

Issue No. | March 2024

A note from Administration:

Dear Coconut Creek Elementary Parents and Families,

As March unfolds, we are excited to share with you the upcoming events and important reminders for our Cougar Cub community.

First and foremost, mark your calendars for Spring Break from March 25th to March 29th. It's an excellent opportunity for families to recharge and spend quality time together. Also, note that March 21st is an Early Release Day so students will be dismissed at 12:30 p.m. and there is no school for students on March 22nd.

As a reminder, we provide free breakfast for all students from 8:00 a.m. to 8:20 a.m. Please ensure your child is seated in their classroom by 8:30 a.m. to start the day off right. With important assessments approaching, timely attendance is crucial. Let's work together to ensure our students are prepared and present for success.

Our February PAW party was a roaring success! Our mascot, the Cougar Cub, made a special appearance, adding to the excitement. Stay tuned as our students will have the opportunity to name our beloved mascot through a voting process.

Looking ahead, our next PAW Party is scheduled for March 20th. We're always on the lookout for volunteers to join us in celebrating the hard work and achievements of our students. Encourage your child to complete their iReady reading and math lessons for a chance to participate!

We hope everyone has a restful and enjoyable time with family and friends during Spring Break!

Sincerely,

Dr. Miron & Ms. Futscher

Calendar of Events for March

March 4	Nation School Social Worker Week Grades 3rd-5th Unit 6 Writing Assessment Reading Across America Week - College Shirt Day
March 5	Reading Across America Week - Silly Sock Day

March 25 - 29	Spring Break

News from the Front Office

Bus Transportation: Register to Ride

If you are a bus rider, you must register at:
<https://www.browardschools.com/register2ride>

Attendance

Attendance matters at Coconut Creek Elementary. Regular attendance is a key factor in a child's academic success. Regular attendance is when a student attends more than 95% of the academic school year; this may include up to 8 absences in a 180-day school year. Please use the school calendar that all vacations are planned around school days. We understand that exceptions may arise, but attendance is key to strong student success, and we appreciate your partnership!

***** Parents, please remember class instruction begins at 8:30 am., if your child arrives after 8:30 am, they are tardy and missing valuable material. *****

CCE is Me!

Item Drop Policy

Please be aware of our “item” drop-off policy for the 2023/2024 school year. We will accept items up until 9:30 AM daily. Items may include lunches, water bottles, snacks, projects, homework, etc. This policy was established to minimize the disruptions to our academic day and ensure extra safety on campus. We thank you in advance for your cooperation. If you have any questions, please contact Dr. Miron.

Entering the Front Office

When visiting Coconut Creek Elementary, ALL VISITORS AND GUESTS MUST SHOW THEIR ID to the camera before entering the front office.

Step 1: Press the doorbell to the left of the office door.

Step 2: Hold your identification 3 or 4 inches away from the domed camera.

Step 3: Wait to be buzzed into the office.

Step 4: YOU DID IT!

Student Birthday Policy

In order to honor instructional time, birthday celebrations are not permitted. Parents may drop off cupcakes and drinks to the front office. The front office will contact the teacher upon arrival. We appreciate your cooperation.

Volunteer Application

If you are interested in volunteering, please be sure you have registered on the following website. This application must be completed every year.

<https://www.browardschools.com/volunteer>

Safety Updates:

See Something, Say Something - Submit a tip easily via our anonymous **FortifyFL** app. Provide as much detail as you can including names of people involved, physical descriptions, school name, social media handles, etc. Download the app or visit <https://www.getfortifyfl.com/> for more information.

Broward Schools has transitioned to the Plain Language Emergency protocol. This language will be used to conduct our monthly safety drills and in the event of an emergency.

SaferWatch is a web-based and mobile app system that allows users to report an incident as they see it happening or submit a tip later. It also provides real-time communication during a situation. Visit <https://www.saferwatchapp.com/> for more information.

Welcome to the School Counselor's Corner

Hello CCES Families,

This month, we are diving into the wonderful world of Self-Control. Learning about Self-Control helps us make better decisions, manage our emotions, and achieve our goals. It's an important skill that we can practice every day.

What is Self-Control? Self-control is like having a superpower! It means being able to stop and think before we act. It's choosing to do what we know is right even when we really want to do something else. This month, we'll explore how self-control helps us in school, with our friends, and even when we're at home.

Books We Love

- Clark the Shark by Bruce Hale: Join Clark as he learns to control his enthusiasm and consider others' feelings.
- My Mouth is a Volcano by Julia Cook: This book teaches us about managing our impulses, especially when we have something important to say.
- Llama Llama Time to Share by Anna Dewdney: Llama Llama learns about the importance of patience and waiting for a turn.

Quick Tips

- Encourage your child to take deep breaths when they feel upset or excited.
- Help them set achievable goals and celebrate when they reach them.
- Model self-control in your own actions and decision-making.

We hope this month's focus on self-control will inspire our students to become masters of their own actions and emotions. Thank you for your continued support in helping our children grow into responsible and thoughtful individuals.

Warm regards,
Mrs. Laura Taliaferro "Mrs. T"
Elementary School Counselor

Individuals with disabilities requesting accommodations under the Americans with Disabilities Act Amendments Act of 2008, (ADAAA) may call Equal Educational Opportunities/ADA Compliance Department at 754-321-2150 or [email](#)

MATH

This month in mathematics we will be focusing on increasing student collaboration within the math block! We are working as a staff to purposefully plan for opportunities where students are exploring mathematical thinking and reasoning through vocabulary building, partner work, math performance tasks, and interactive ways of checking for understanding throughout each lesson. We want math to be hands-on and fun!

Students completed their midyear iReady diagnostic assessment, and we have used this recent data to ensure we are focusing our instruction to meet individual needs through daily small group instruction in the classroom. Teachers have completed their data analysis to know individual student growth and progress. Feel free to reach out to your student's teacher to see how and what you can do to partner with us in order to provide your student with the best opportunity for math achievement! We need and appreciate a strong parent partnership!

There are lots of neat opportunities to help support our mathematics instructional focus at home, too! As students begin to learn about measurement and geometric reasoning in class, families can support student learning in fun ways right at home whether it's taking a walk around the neighborhood to look for shapes in building structures and nature, measuring and weighing items around the house, cooking a recipe with measuring cups and spoons, or designing a shoebox diorama, creating a garden bed, or rearranging furniture to freshen up the look of a family room or bedroom all while taking measurements to ensure a proper fit! I encourage you to have fun, be creative, and put classroom math skills to practical use in the real world!

Math Joke: What did the math teacher say after standing outside in the cold?
---I am numb brrrrr! 🥶

Jessica Johnston
Math Coach

READING

LITERACY NOOK WITH MICHELE ROTHACKER

This month we welcome Spring on March 19th. We will also be engaging in some rest and relaxation during our Spring Break! Take some time to enjoy some good books with your kids.

This month, students will be working on Unit 7 of Benchmark Advance which focuses on history, culture and geography. Students will explore how the past affects the present and future. They will be focusing on the author's purpose, explore how text features contribute to the meaning of the text, and, as always, we will use text evidence to support claims.

Please encourage your child to complete an iReady lesson at home at least once per week.

Below are a few suggested topics for you to discuss with your child as they coincide with this unit's focus. Oral language helps to build background knowledge and allows you to discuss unfamiliar vocabulary words with them.

- Holidays: Which do you celebrate? How do you celebrate? Why do you celebrate this holiday?
- Compare events and things that have changed over time: How have you or your classroom changed since the beginning of the school year? How is school changed since you entered kindergarten?
- Historical Figures: Discuss a historical figure that is important to you. Some examples are Helen Keller, Alexander Graham Bell and Harriet Tubman. You can also discuss your own ancestors.
- Community: What type of community do we live in? What is it known for? What makes it special?
- Evolving Communities: Why and how do communities evolve? Discuss transportation, weather, and look at maps together.

If you have an incoming Kindergarten student next school year, please mark your calendar for March 11th and join us for our Kindergarten Round Up!

SOCIAL STUDIES

March

This month in social studies our students are participating in an Art & Essay competition. Grades K-2 will be creating an original art piece that shows why it's important to remember and honor the diverse histories in the Florida Mandates. Artworks may explore the resilience, struggles, triumphs, and contributions of African American History, Holocaust History, Asian American and Pacific Islander History, Hispanic Contributions to the United States, and Women's Contributions to the United States.

Grades 3-5 will create an essay that considers the Florida Mandates, such as African American History, Holocaust History, Asian American and Pacific Islander History, Hispanic Contributions, and Women's Contributions to the US—considering how individuals and communities can ensure that this history is remembered and shared for future generations. Each teacher will select 3 pieces of original student work to submit at the district level. All student work samples will be on display at our upcoming Arts & Culture Blast Night on April 17th from 5:45-7:30 pm. We hope you mark your calendars now so you can join us for this fun event!

In March, Social Studies instruction will highlight Florida Day on March 3rd, Medal of Honor Day on March 25th, and focus on Women's Contributions and History. Our students can look forward to fun, engaging lessons and hands-on learning centered around these topics!

Jessica Johnston
Social Studies Contact

Cafeteria News:

Our cafeteria sells additional items during lunchtime. Ice Cream sales occur on Wednesdays only and are sold for \$1 each. A la carte items such as milk, water, chips, and Rice Krispy Treats are available daily. Students can also pay a small amount of additional money to double the amount of the main entree.

Parents, please add money to your student's lunch account, so the lunch line moves in a timely manner. Funds can be added by going to www.myschoolapps.com

Cash is also accepted but placing it on their account is more convenient.

To view this month's breakfast and lunch menus just click below:

Do you have young children?

Do you want free books?

To be eligible for New Worlds Reading, a child must be either a VPK student who is not yet meeting age-appropriate standards according to FAST Star Early Literacy, or a K-5th grade student in a Florida public or district-sponsored charter school who is not yet reading on grade level. If eligible, children will receive 9 free books per year shipped between October and June. 📖

KINDERGARTEN & FIRST GRADE

KINDERGARTEN

It's hard to believe that March is already here! This month, we will be learning about holidays and celebrations, such as how we honor some people who made positive contributions to the world with a special holiday. We will also be talking about how we celebrate holidays with food, parades, and/or being with friends and family. We will discuss and talk about multiculturalism and hope to see you at our Multicultural Blast Night on April 17th. We continue to work on addition and subtraction. Please work on iReady and read every night at home for at least 20 minutes. Thanks for all your support!. We continue to work on addition and subtraction. Please work on iReady and read every night at home for at least 20 minutes. Thanks for all your support!

Happy Spring Break!

FIRST GRADE

Spring is almost here!

This month in Reading, students will read and compare selections about United States history and its preservation to understand why it is important to remember the past. Students will grow their knowledge of the past to understand the present and plan for the future. We will also be studying tools that people use, such as timelines and maps to help organize and understand events of the past.

In Math, we are working on ordering objects by length. Students will compare and order the length of up to three objects using direct and indirect comparisons. Students will also be measuring with a ruler. We will be estimating the length of an object to the nearest inch. We will also be measuring the length of an object to the nearest inch or centimeter. Please make sure your child utilizes iReady at home. Remember your child needs at least two lessons per subject and 45 minutes per week.

THIRD GRADE

SECOND GRADE

Spring has arrived and students are getting their learning! The 2nd grade students will be reviewing the Central Idea and Details in an informational text. Students need to read an informational text and find the central idea based on details, text features, and vocabulary. Students will need to retell in their own words using an informational text using the central idea and details. Reading daily will help students read more fluently and write about the text to enhance comprehension. In Math, students will be adding and subtracting within 1,000. Students will be using models and drawings to show regrouping in the tens and hundreds place value. Practicing daily with adding and subtracting within 1,000 can help students with fluency. Thank you for your continued support!

THIRD GRADE

Greetings, from the Third Grade Team,
We are currently working on Unit 7, in ELA,
Communities Then and Now. Our Essential
Question is: What is a community? We are
working on Topic 11 in Math, Fraction
Equivalence, and Comparison. The focus is to
use models to compare fractions that refer to
the same whole and have the same
denominator or numerator. In Science, we are
learning about Friction. Where can we find
friction in our everyday lives? Our current
Social Studies focus for March is Women's
History Month.

This month, we are having an in-house stemobile field trip with the Museum of Discovery and Science.

Parents, please have students work on iReady Reading and Math at home to complete the lessons required for the next PAW Party on March 20th. Students must have the required lessons completed by March 13th. Please make sure your child has headphones for the computer. Headphones are mandatory to complete the required lessons on the computer.

Your partnership is vital to your child's success. Supporting our students with homework, reading 20 minutes every day, learning multiplication facts, and doing iReady Reading and Math, at least, three times per week, will assist them in becoming proficient learners. Please check and clean out the Green Folders daily. Review lessons and assignments with your child to support them in areas where they may be struggling. Thanks for partnering with us.

Your Third Grade Team

FOURTH GRADE

FOURTH GRADE

Hello Fourth Grade Families!

In Reading, our next unit of study is "Transcontinental Railroad." We are kicking off our seventh unit in the Benchmark Advance program. In our seventh unit, we will read and compare selections about the construction and impact of the transcontinental railroad to understand how communities evolve. We will be reading a variety of genres, including informational texts, a firsthand account, a diary entry, and even song lyrics! This unit will allow you and your child to discuss the history of the United States while examining how a country can change over time.

In Math, Topic 11 focuses on developing an understanding of decimals and decimal notation by connecting fractions and decimals. Your child will work with and compare decimals through the hundredth place (0.00). They will understand how equivalent fractions will be used to add a fraction with a denominator of 10 and a fraction with a denominator of 100.

In Science, we will learn about the Forces of Motion & Seasonal Changes of Florida's Organisms.

FOURTH GRADE continued

In Social Studies, students will learn how technological advancements and human settlement impact Florida's growth.

For the PAW Party, students must have passed nine reading and nine math lessons at 67% or higher from February 12- March 13. Students can log in at home to work on lessons. Students will get a prize ticket if they receive 70% or higher on the Unit 6 Assessment or Topic 1-11 Cumulative test.

Homework: Students receive Reading, Math, and Spelling homework each week. Please check their homework and review the concepts with them at home.

Clever Login:

O6number@my.browardschools.com, and the password is the same as the one used to log in at school.

The Everglades Holiday Park Field Trip is on April 24. It will cost \$32, and lunch is included. Payments will ONLY be online through Estore.browardschools.com by March 31.

Kindly,
Your Fourth Grade Team

FIFTH GRADE & AUTISM SPECIAL PROGRAM

FIFTH GRADE

It's hard to believe it's already March! Our fifth graders are continuing to work hard to make progress and to prepare for the upcoming FAST tests in May. Academic camps have been underway for many of our grade 3-5 students. We are now working on reviewing past science standards including weather and we will be learning about "The Solar System" next. For the month, our students will continue working in our reading series- Benchmark Advance. We have completed Unit 6 and we have now started Unit 7: "Conflicts that Shaped a Nation." We continue incorporating reading/writing, science, and social studies topics into our reading series. Continue to work on multiplication tables daily as we move on to Dividing Fractions with Whole Numbers and Geometry. We have learned about several important African Americans during Black History Month and are working on our European country projects for Multicultural Blast Night. We have finished up our D.A.R.E. program with Officer Wally and will be writing our DARE essays. D.A.R.E. graduation will be a part of the 5th grade End-of-the-Year Ceremony in June.

FIFTH GRADE continued

Congratulations to all of our 5th graders who met their iReady Reading and Math goals and attended the PAW Party in February. Please continue to encourage your student to meet their weekly iReady goals. Students should be working on and passing two Reading and two Math lessons a week. Please check planners and take-home folders daily for important information.

Thank you for your continued support!

The Fifth Grade Team

AUTISM SPECIAL PROGRAM

Please look out for notifications as we plan and prepare for activities as we approach Autism Awareness Month in April. These notifications will be sent out during the months of March and April. Our school has seven Autism Special Program classes. Our staff and students are excited to celebrate and honor individuals with Autism as we work to spread awareness and acceptance!

Art, PE, & Science News

Art

Kindergarten and First Grade students just finished up their letter names. They made an image out of each of their letters to create a beautiful piece of art. Currently, they are learning about an African American abstract artist, Alma Thomas. She was known for her broad paint strokes and her love of nature. Second graders are finishing up their abstract art using numbers, letters, and symbols in the style of Jasper Johns. Third, fourth, and fifth graders just completed a unit on printmaking. Currently, we are beginning our unit on graphite drawings. I can't wait to see what they create. Don't forget to stop by the Coconut Creek Community Center to see some of our student's artwork on display. Mark your calendar for our Arts and Culture night on April 17th.

P.E.

Students at Coconut Creek Elementary are staying active! We are kicking off the American Heart Association Kids Heart Challenge on **March 4th - 15th, 2024**

Students and staff are excited to care for their hearts and minds, help kids with special hearts, and learn lifesaving Hands-Only CPR!

If you haven't joined our Kids Heart Challenge team yet, get started today! We need your help to reach our goal of **100%** of families completing Finn's Mission! Register: Download the free **AHA Schools** app or visit heart.org/schools.

Complete Finn's Mission: Complete all 7 steps and be entered to win two Super Bowl tickets for the 2025 game!

Science

Notes from Science Special

The Museum of Discovery and Science will be coming to CCES to delight and inform children in every class with their FREE mobile planetarium throughout March!

These are in-house field trips during the school day: KG 2/27, 1st 3/13, 2nd 3/14, 3rd 3/15, 4th 3/19, 5th 3/6

Here's the lineup of highlights for content by grade level in science special:

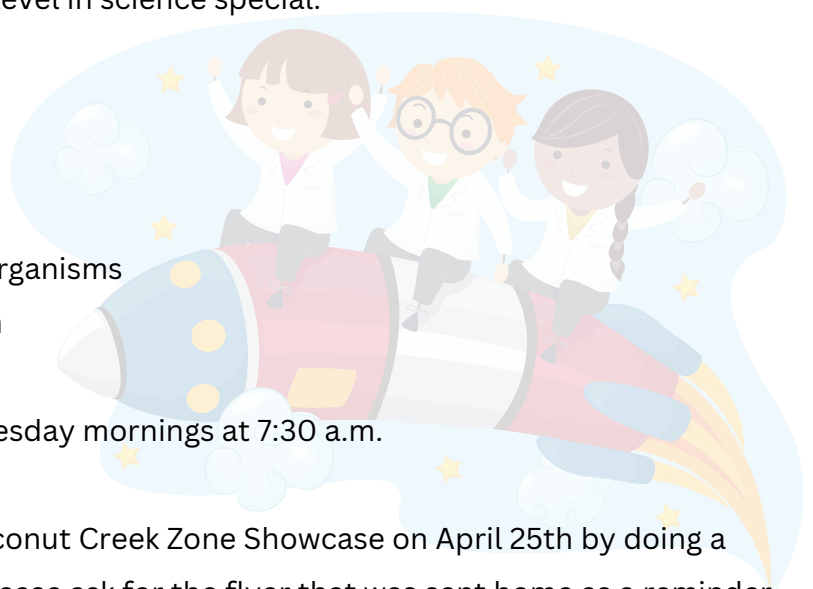

- Kindergarten: Patterns in the Sky
- 1st Grade: Fast and Slow Changes to Land
- 2nd Grade: Rocks
- 3rd Grade: Gravity
- 4th Grade: Forces and Seasonal Changes of FL Organisms
- 5th grade: The Water Cycle and the Solar System

Chess Club

Chess Club players are continuing to practice on Tuesday mornings at 7:30 a.m.

Drama Club

Drama Club has been asked to participate in the Coconut Creek Zone Showcase on April 25th by doing a preview of The Box. If your child is in Drama Club, please ask for the flyer that was sent home as a reminder.

Coconut Creek Elementary Traffic Pattern

- It is recommended that ALL TRAFFIC enter and exit using the traffic signal at NW 43rd Ave
- Follow green information signs to designated Student Drop Off/Pick-Up areas
- Left turns are NOT PERMITTED during school drop off/pick-up from NW 45 Avenue, Southbound to Coconut Creek Blvd, and the school 2nd-5th Grade drop off area.
- Right, turns are NOT PERMITTED during school drop-off and pick-up from NW 45th Avenue, Northbound to Coconut Creek Blvd.
- The School Zone speed limit is 15 mph during drop-off and pick-up hours
- Traffic laws will be strictly enforced by the Coconut Creek Police Department
- No vehicle should stand/park on NW 45th Avenue

Coconut Creek Elementary School and Florida Textile Recycling Programs® have partnered to collect and recycle old clothing, shoes, and textiles!

So, please do not throw them away!

Just place the items in the white recycling bin in our parking lot.

Every pound of recycled items supports our school!

Below is a list of items that can be placed in our bin:

Clothing: pants, jeans, skirts, dresses, suits, shorts, shirts, tees, tanks

Footwear: shoes, boots, heels, sneakers, sandals, socks, tights

Undergarments: bras, underwear, slips, camisoles

Accessories: hats, belts, ties, scarves, headbands

Handbags: wallets, totes, luggage, backpacks, briefcases

Linens: towels, sheets, comforters, blankets, tablecloths

As you clean out the old and bring in the new, you can help the environment and Coconut Creek Elementary too!

Proceeds will benefit our Eco-Ranger Club
