Principal's Corner

I am honored to serve as principal at Whiddon-Rogers Education Center. It is truly a privilege to be part of a learning community where parents, teachers, and students work in unison to build positive relationships that support academic and social-emotional growth. It is our mission at Whiddon-Rogers to Inspire, Empower, and Transform all our students into positive and productive members of society. Our faculty and staff members embrace the philosophy that all students do not learn the same way or at the same pace. We take pride in responding to the individual needs of each student, and we utilize authentic methods and strategies to assure positive student outcomes.

Our school-based mentoring program provides guidance and support to students in need. It is an innovative supplement to the student-centered learning that takes place at Whiddon-Rogers Education Center, providing our students with another avenue through which they might feel more confident about their schoolwork, improve their attitudes and commitment to learning, and develop more fully as a person. The program is aligned to our School Wide Positive Behavior Plan.
