

Overall SAT Participation
Increased:
83.7% in 2022
84.4% in 2023

671 out of 6,229
Number of Students Who Achieved an ELA
Concordance Score on SAT School Day Who
Had Not Met ELA Graduation Testing
Requirement Previously

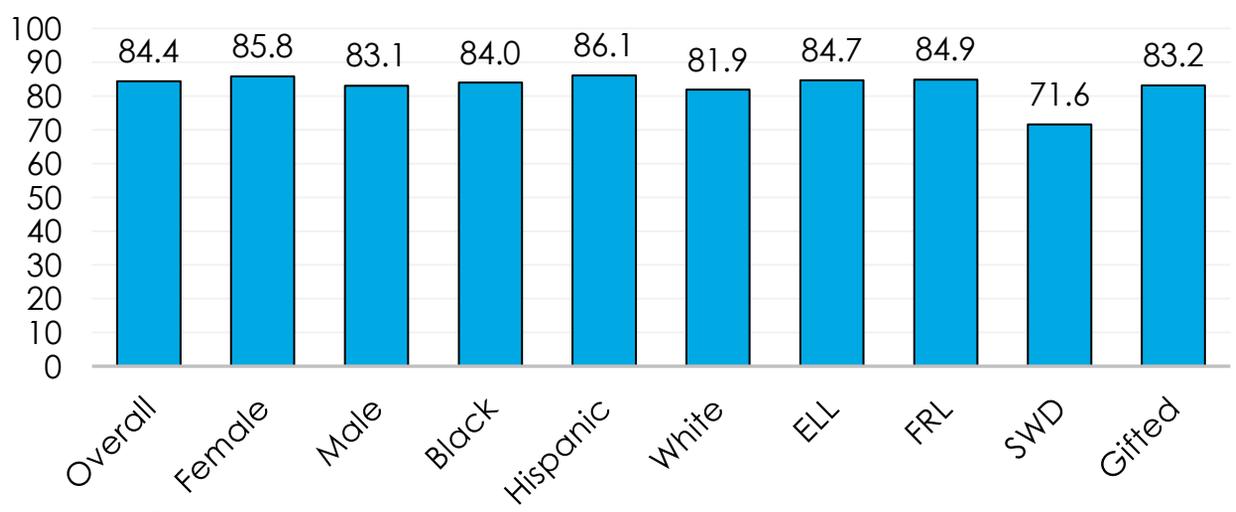

- In 2022-2023, participation was over 84% for groups with historically low SAT participation rates: Black students, Students Eligible for Free-or-Reduced-Price Lunch and English Language Learners.
- **Over half of 11th grade test takers met the college readiness benchmark for Evidence-Based Reading and Writing (EBRW),** and slightly less than a quarter met the benchmark for Math in 2023.
- **Bright Futures:** 7.7 percent of all 11th grade students met the minimum threshold for the Florida Medallion Scholarship and over 2.2 percent of 11th graders met the criterion for the Florida Academic Scholarship in 2023.

Over ten percent of 11th grade students taking the SAT achieved ELA concordance on SAT School Day 2023.

1,305 out of 5,420
Number of Students Who Achieved a
Concordance Score on SAT School Day Who
Had Not Met the Algebra 1 EOC Graduation
Testing Requirement Previously

Over twenty-four percent of all 11th grade students taking the SAT to achieve Algebra 1 EOC concordance were successful.

SUBJECT: 2022-2023 SCHOLASTIC ASSESSMENT TEST (SAT) SCHOOL DAY IN BROWARD COUNTY PUBLIC SCHOOLS (BCPS)

ACTION: School administrators can use the information in the report to evaluate their school's level of participation and their students' performance on the Evidence-Based Reading and Writing and the Mathematics sections of the SAT. Administrators and educators can use these results to inform their curriculum, instruction, and enrichment programs to best serve their students.

RATIONALE: BCPS offered the SAT School Day to students on Wednesday, March 1, 2023, with a makeup day on Tuesday, April 11, 2023. The 2023 SAT School Day was sponsored by the Florida Department of Education (FDOE) and was open to charter school students. All 11th grade BCPS students enrolled in traditional schools and centers were offered a SAT School Day for the first time in April 2016. The initiative was put in place to eliminate the economic and logistical barriers that have limited students' participation in the SAT in the past. This memo summarizes student participation and scores from the 2023 SAT School Day administration.

Major findings include:

- **Participation in SAT School Day increased in 2023.** The percentage participating in SAT School Day went from 77.0% in 2021 to 83.7% in 2022. Additionally, participation in 2023 was over 84% for groups with historically low SAT participation rates: Black students, Students Eligible for Free-or-Reduced-Price Lunch and English Language Learners.
- **Over ten percent ($n = 671$ out of $N=6,229$) of 11th grade students who needed to meet English Language Arts (ELA) concordance were successful on SAT School Day.**

SUBJECT: **2022-2023 SCHOLASTIC ASSESSMENT TEST (SAT) SCHOOL DAY IN
BROWARD COUNTY PUBLIC SCHOOLS (BCPS)**

PAGE: **2**

- **Over twenty-four percent ($n = 1,305$ out of $N=5,420$) of 11th graders who needed to meet Algebra 1 End of Course (EOC) concordance on SAT School Day were successful.**
- **Bright Futures Scholarships:** 7.7 percent of all 11th grade students met the minimum threshold for the Florida Medallion Scholarship and over 2.2 percent of 11th graders met the criterion for the Florida Academic Scholarship on SAT School Day.

Assessment Report

©2023, The School Board of Broward County, Florida
Report from the Office of the Superintendent

Number 219
October 2023

2022-2023 SAT SCHOOL DAY IN BROWARD COUNTY PUBLIC SCHOOLS

Offered through the College Board, the SAT is an entrance exam used by most colleges and universities to make admissions decisions (Princeton Review, 2023). Beginning in 2020-2021, as a part of the Florida CARES Act, the Florida Department of Education partnered with College Board to provide a school-day administration of the SAT. The school day administration was offered to all public-school students in eleventh grade enrolled in Florida to increase SAT participation throughout the state (Florida Department of Education, 2020). Charter school students also participated in SAT School Day 2022-2023. Charter school principals select students to take either the SAT or the American College Test (ACT). This was the eighth year that the SAT School Day was offered to students in Broward County Public Schools (BCPS) traditional public schools and centers. Prior to the 2020-2021 school year, BCPS paid for SAT School Day; presently, the Florida Department of Education (FDOE) financially supports the SAT School Day for the entire state of Florida. The Florida Department of Education paid students' registration fees (providing a direct cost savings of fifty-five dollars to each student) and offered the SAT assessment during a regular school day, thus making it highly convenient for students to take the exam. Additionally, students were given access to the *Official SAT Practice* online exam preparation course, which is a comprehensive and effective way for students to prepare for the exam at their own pace (College Board, 2023).

Background

The first Broward SAT School Day took place in April 2016, following a successful pilot in three high schools the year before. For the eighth consecutive year, SAT School Day was offered to 11th-grade students, on March 1, 2023, with a makeup day offered on April 11, 2023.

Definition of Terms

- **Participation Rate** refers to the number of 11th-grade students who took the SAT on SAT School Day divided by the number of 11th-grade students enrolled on that day.
- **EBRW Mean** refers to the average score on the SAT's Evidence-Based Reading and Writing section. Possible scores range from 200 to 800.
- **Math Mean** refers to the average score on the mathematics section of the SAT. Possible scores range from 200 to 800.
- **Concordance Score** refers to a score that a student may use to satisfy the 10th grade ELA FAST or Algebra 1 EOC graduation requirement if they scored lower than a level 3 on the ELA portion of the FSA or lower than a level 3 on the Algebra 1 EOC. For students who entered grade 9 after 2018-2019, the ELA concordant score is a score of 480 on the EBRW section. For Algebra 1, a concordant score on the redesigned SAT Math section is a score of 420 or higher (Florida Department of Education, 2022).
- **EBRW Benchmark** refers to the college readiness benchmark the College Board put forth for the redesigned Evidenced-Based Reading and Writing section of the SAT. Students who meet the benchmark, a score of 480 on the EBRW, have a 75 percent likelihood of achieving at least a C in first-semester, credit-bearing college-level courses in history, literature, social science, or writing (College Board, 2016).
- **Math Benchmark** refers to the college readiness benchmark the College Board put forth for the redesigned Mathematics section of the SAT. Students who meet the benchmark, a score of 530 on the Math section, have a 75 percent likelihood of achieving at least a C in first-semester, credit-bearing college-level courses in algebra, statistics, precalculus, or calculus (College Board, 2016).
- **Florida Academic Scholarship (FAS)** refers to the most competitive Bright Futures scholarship, a general merit scholarship that has as one of its criteria a minimum Total Score on the SAT of 1340 in 2022-2023 (Florida Department of Education, Office of Student Financial Assistance, 2023). The FAS qualifies a student to receive 100% of tuition paid at a Florida college or university for up to 5 years and 120 semester hours of college credit after high school graduation.
- **Florida Medallion Scholarship (FMS)** refers to the other general merit Bright Futures scholarship besides the FAS, a scholarship that has as one of its criteria

a minimum Total Score on the SAT of 1210 (Florida Department of Education, Office of Student Financial Assistance, 2021). The FMS qualifies a student to receive 75% of tuition paid at a Florida college or university for up to 5 years and 120 semester hours of college credit after high school graduation.

SAT: Benefits to Students and Schools

The SAT is a college entrance exam that nearly all U.S. colleges and universities accept. As such, many students choose to take the exam to meet college entrance requirements. Additionally, various colleges and educational organizations award scholarships or grants based, in part, on SAT scores. For example, the State of Florida uses SAT scores to determine eligibility for Bright Futures merit scholarships. Additionally, the SAT helps students determine areas where they are ready for college-level courses and areas where they need to improve their skills and knowledge. Another benefit of the SAT is for students who did not pass the 10th grade ELA portion of the Florida Assessment of Student Thinking (FAST) or the Algebra 1 End-of-Course (EOC) Assessment which are requirements for earning a high school diploma. Students can meet the graduation requirement by earning a concordant score on the Evidence-Based Reading and Writing (EBRW) section of the SAT or Mathematics section of the SAT, respectively.

Schools also benefit from the SAT in several ways. Schools have access to an online reporting portal that offers participation, and score reports for an entire school, disaggregated by demographic groups (College Board, 2015). Reports include the percentage of students meeting the college readiness benchmark scores for both the EBRW and Mathematics sections of the redesigned SAT (College Board, 2016). Schools can compare their students' performance with other students at the district and state levels. Schools can also access Instructional Planning reports and Question Analysis reports that drill down to the student level on specific questions. Taken together, these reports allow for curriculum planning at the student, class, school, and district levels. Additionally, schools benefit by increasing their graduation rate when students who failed to pass the 10th grade ELA portion of the FAST or the Algebra 1 EOC meet those graduation requirements by earning concordant scores on the EBRW section or the Math section of the SAT, respectively.

Barriers to Taking the SAT

Two common social barriers that students face when taking the SAT are time and the cost of the exam. The SAT requires a registration fee of fifty-five dollars per

student per exam. While students from low-income families can waive the testing fee, all students are not aware that they may be eligible for a waiver. Even those students who can afford to pay the registration fee, face challenges in participating in the Saturday offerings of the SAT. The SAT is typically offered on specified weekend dates seven or eight times per year. The need to take the SAT outside of school time—with testing sites that could be far from home—limits students' convenience and access to take the assessment. These challenges include arranging travel to and from the testing site, having to work on the weekend, or having family obligations. Thus, despite the benefits associated with the SAT, taking the SAT has been out of reach for some BCPS students.

Method

This report summarizes SAT data from the 2023 SAT School Day administration. Eleventh-grade students enrolled on the day of the exam (March 1, 2023) were included in the analyses. Results include participation rates and scores analyzed on a District-wide level and aggregated by school, gender, race/ethnicity, and special student populations. These special populations include students Eligible for Free-or-Reduced-Price Lunch (FRL), Students with Disabilities (SWD), Gifted students, and students who are English Language Learners (ELL). The Broward County SAT data were obtained by retrieving demographic and enrollment data from the district's data warehouse and testing data from the College Board website. Testing data were pulled down on August 10th, 2023, and include all data available as of that date.

Results

Eleventh Grade Participation on SAT School Day

For 11th-grade students, overall participation for BCPS, including charter schools, increased from 83.7% in 2022 to 84.4% in 2023. Figure 1 displays participation percentages for 11th-grade subgroups. Most of all 11th-grade subgroups (70% and higher) participated in 2022-23 SAT School Day. The lowest participation rate was among Students with Disabilities (SWD) which was lower than Students without Disabilities (71.6% SWD vs. 86.2% Non-SWD).

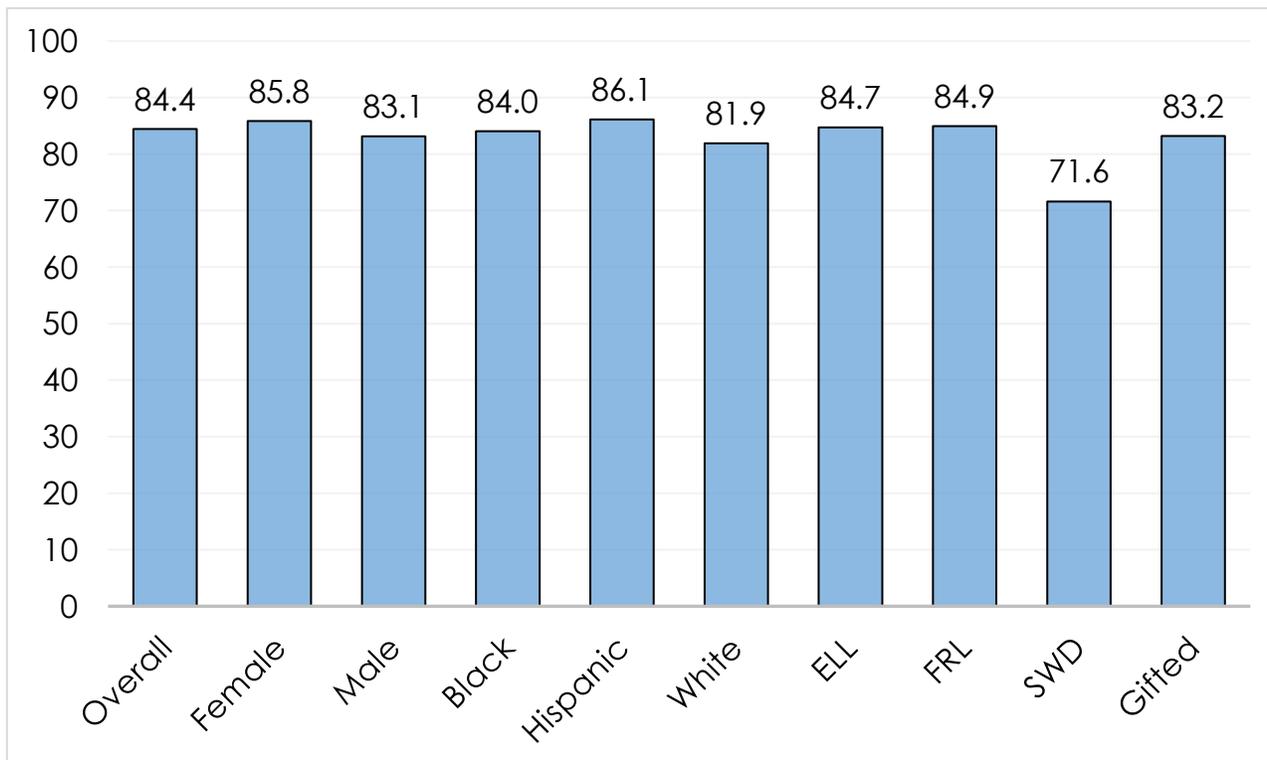

Participation by School Type

Participation among 11th-grade students enrolled in selected charter schools was lower (69.4%, $n=1,645$) than among those enrolled in traditional schools (86.5%,

n=14,758). School-by-school participation rates for 11th-grade students are provided in Appendix A.

Figure 1

SAT Participation Percentage Among 11th Grade Students

Performance

Table 1 and Appendix B display overall SAT scores by subgroup for EBRW and Math for 11th-grade students. Appendix B includes mean scores as well as the percent that met concordance, college-ready benchmarks, and the percent of students that met the Bright Futures scholarships' criteria for 11th-grade. School-by-school measures of performance are displayed for 11th-grade students in Appendix A.

EBRW Mean Score Eleventh Grade Students

Table 1 displays mean scores overall and by subgroup for 11th-grade students. On a scale from 200 to 800, the mean score for 11th-grade students was 489.7, exceeding both the concordant score and the college-readiness benchmark of 480 (see Table 1 and Appendix C). The two highest-performing groups were Gifted

students ($M=622.6$) and White students ($M=532.8$). The lowest-performing group was English Language Learners ($M=391.3$).

Mathematics Mean Score Eleventh Grade Students

Table 1 displays mean scores overall and by subgroup for the eleventh-grade students who participated in the 2023 SAT School Day. On a scale from 200 to 800, the mean score for 11th-grade students was 446.5 in 2023 (see Table 1 and Appendix C). The three groups with the highest mean scores were males ($M=450.5$), White students ($M=492.6$), and Gifted students ($M=593.8$). The lowest-performing groups were Students with Disabilities ($M=392.4$) followed by English Language Learners ($M=374.9$).

Table 1

Mean Scores of 11th Grade Students for EBRW and Mathematics

	11 th Grade	
	EBRW	Mathematics
Overall	489.7	446.5
Female	495.9	442.5
Male	483.6	450.5
Black	459.9	412.4
Hispanic	492.5	449.4
White	532.8	492.6
ELL	391.3	374.9
FRL	471.8	427.1
SWD	429.0	392.4
Gifted	622.6	593.8

ELA Concordant Scores (SAT EBRW Section)

Of the 11th-grade students who had not yet met the ELA graduation testing requirement ($N=6,229$), 10.8% ($n=671$) met the requirement on the 2023 SAT School Day (see Figure 2). Among 11th-grade students who needed to meet ELA concordance on SAT School Day in 2023, there were differences between subgroups for students who met concordance and those who did not (see Appendix C). A larger percentage of females met concordance than male students. A larger percentage of White students met concordance than Hispanic

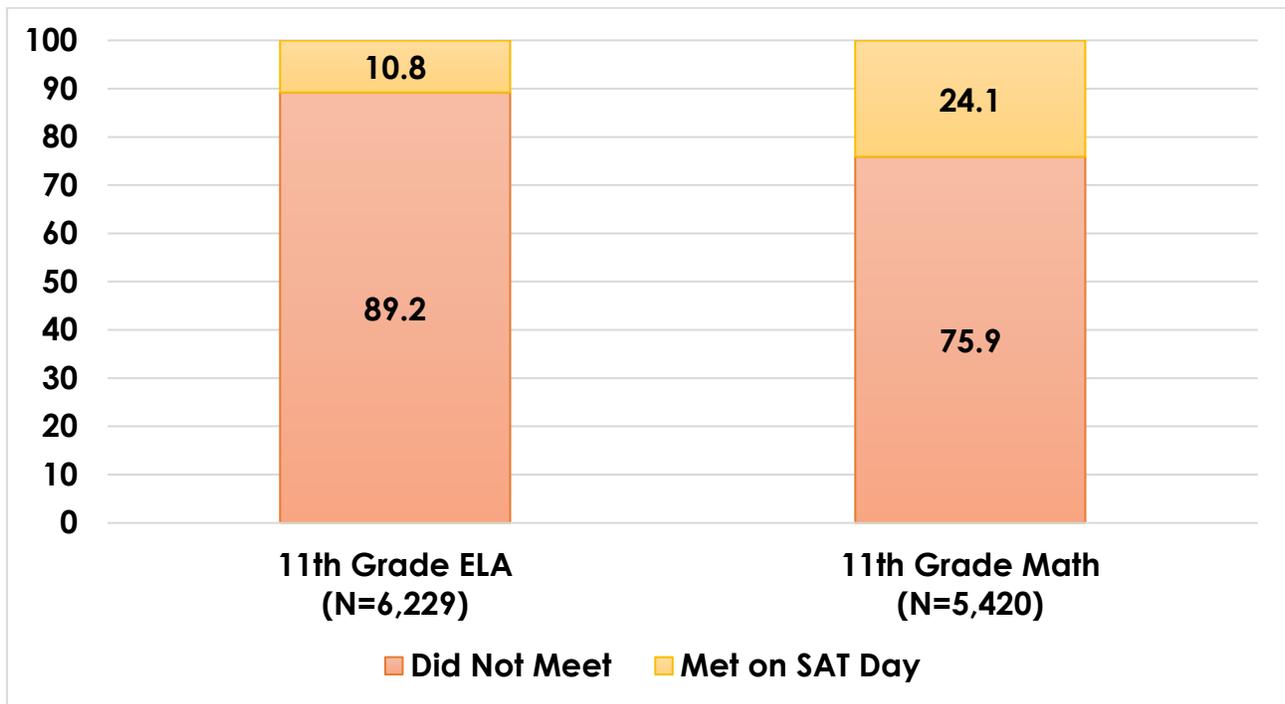

students, and a larger percentage of Hispanic students met concordance than Black students. A larger percentage of Gifted students met concordance than Non-Gifted students. Students Eligible for Free-or-Reduced-Price Lunch and English Language Learners had lower percentages of concordance than their counterparts. Students without Disabilities were more likely to meet concordance than Students with Disabilities.

Algebra 1 Concordant Scores (SAT Math Section)

A score of 420 (or higher) on the SAT Math section earns concordance for the Algebra 1 EOC graduation testing requirement. Of the 11th-grade students who had not yet met the requirement (N=5,420), 24.1% (n=1,305) met the requirement on the 2023 SAT School Day. Among students who needed to meet mathematics concordance on SAT School Day in 2023, for 11th-grade students (see Appendix B), a larger percentage of White students (40.7%) and Hispanic (27.5%) students met math concordance than Black students (17.4%). Students Eligible for Free-or-Reduced-Price Lunch (21.0%) were less likely than their counterparts (38.8%) to meet math concordance, as were English Language Learners (15.4%) compared to their counterparts (25.4%), and Students with Disabilities (11.6%) compared to their counterparts (26.2%).

Figure 2

Percent of Students Who Achieved an ELA and Mathematics Concordance Score on SAT School Day 2023 Who Had Not Met the Graduation Testing Requirement Previously

Benchmark Scores

More than half of 11th-grade participants in SAT School Day met the EBRW college-ready benchmark in 2023 (52.6%). Among 11th-grade students, a larger percentage of female students, White students, and Gifted students met the benchmark than did their counterparts (see Appendix C). Students with Disabilities, students Eligible for Free-or-Reduced-Price Lunch, and English Language Learners had a lower percentage of students that met the EBRW benchmark than their counterparts.

For 11th grade students, 21.1 percent scored at or above the Math benchmark. Among 11th grade students, a greater percentage of male students, White students, and Gifted students met the math benchmark than did their counterparts (see Appendix C). A smaller percentage of Students with Disabilities, students Eligible for Free-or-Reduced-Price Lunch, and English Language Learners met the math benchmark, compared to their counterparts.

Bright Futures Scholarships

There are two general merit scholarships students can earn from the State of Florida for attending Florida colleges or universities that fall under the banner of the Bright Futures Scholarships (Florida Department of Education, Office of Student Financial Assistance, 2021). For the 2022-2023 school year, the requirement for the Florida Academic Scholarship is an SAT total score of 1330. The requirement for the Florida Medallion Scholarship is an SAT Total score of 1210.

Florida Academic Scholarship (FAS). In 2023, among 11th-grade students, 2.2% ($n=426$) of students met the SAT Total score 1340 minimum threshold for the Florida Academic Scholarship. For 11th grade students, a greater percentage of male students, White students, and Gifted students met the FAS criterion of 1340 than did their counterparts (see Appendix B). A lower percentage of Students Eligible for Free-and-Reduced-Price Lunch, English Language Learners, and Students with Disabilities met the FAS threshold than did their counterparts.

Florida Medallion Scholarship (FMS). Among 11th grade students (see Appendix B), 7.7% of students in 2023 ($n=1,491$) met the FMS minimum threshold of an SAT Total Score of 1210. For 11th grade students, (see Appendix B), male students, White students, and Gifted students were more likely than their counterparts to meet the FMS minimum threshold. Students Eligible for Free-and-Reduced-Price Lunch, English Language Learners and Students with Disabilities were less likely than their counterparts to meet the FMS criterion of a Total SAT score of 1210.

Discussion

In 2023, BCPS hosted the eighth year of SAT School Day for all 11th-grade students. Supported by the Florida CARES Act, the Florida Department of Education in 2023 sponsored the event for the third time (Florida Department of Education, 2020), and included charter students whose principals selected them to take the SAT (they had the choice of the SAT or the ACT). All participating students were offered the *Official SAT Practice* online course to help them prepare for the exam.

Participation in SAT School Day increased in 2023. The return to face-to-face instruction for most students seemed to have a positive impact on the participation rate for SAT School Day 2022. The percentage participating in SAT School Day went from 77.0% in 2021 to 83.7% in 2022. Additionally, SAT School Day was a success in offering students access to the test who would historically have been hard-pressed to sit for the exam. For context, the year prior to BCPS launching the SAT School Day

(2015), only 49.7 percent of 11th-grade students took the SAT at any time during the school year. **Additionally, participation in 2023 was over 84% for groups with historically low SAT participation rates: Black students, Students Eligible for Free-or-Reduced-Price Lunch, and English Language Learners.** Participation varied by school type, with students from centers less likely to participate than students from traditional schools and charters. Students from charter schools were less likely to participate than students from traditional schools.

Over ten percent ($n = 671$ out of $N=6,229$) of 11th-grade students who needed to meet ELA concordance were successful on SAT School Day. Twenty-four percent ($n = 1,305$ out of $N=5,420$) of 11th graders met Algebra 1 EOC concordance on SAT School Day.

Over half of all 11th-grade students participating in SAT School Day achieved the college-readiness benchmark score for the EBRW section, while slightly less than a quarter met the benchmark for the Math section. **Bright Futures:** 7.7 percent of all 11th-grade students met the minimum threshold for the Florida Medallion Scholarship and over 2.2 percent of 11th-graders met the criterion for the Florida Academic Scholarship.

Conclusion

There are many reasons for schools to encourage students to participate in SAT School Day. SAT School Day offers free and convenient access to a popular college entrance exam accepted by nearly all U.S. colleges and universities. The school-day administration of the SAT is designed to eliminate economic and logistical barriers that have traditionally limited students' participation in this exam. Students who participate in SAT School Day can use their results to meet college entrance requirements and to apply for scholarships and grants, such as the Bright Future scholarships. Students who have not yet met the ELA or Algebra 1 graduation testing requirements can meet those requirements by earning concordance scores on the SAT. Finally, educators can use the results from the SAT School Day to guide instruction by identifying existing strengths and weaknesses in their curriculum in English, reading, writing, and mathematics. The online educator reporting portal that accompanies the SAT allows educators to tailor reports specifically at the school, class, and student levels.

School administrators can use the information in Appendix A to evaluate their school's level of participation and their students' performance on the Evidence-

Based Reading and Writing and Mathematics sections of the SAT. Administrators and educators at schools with lower mean scores on either section can use these results to inform their curriculum, instruction, and enrichment programs to best serve their students. BCPS District staff can view and interact with PSAT data through the Department's SAT and PSAT dashboard available on the SharePoint link below:

<https://browardcountyschools.sharepoint.com/sites/Intranet/Academics/TSD/SAR/Pages/PSAT-Dashboard.aspx>

Appendix B: 2023 SAT School Day school-level participation and performance - Grade 12
12th Grade

Note: Only 12th graders who participated in SAT Day School Day are included here. Missing schools indicates no 12th graders from that school participated. The concordant score for the ELA 10th grade FSA grad requirement for those who entered grade 9 prior to 2018-19 is a 430 EBRW score or a 24. The EBRW benchmark cutoff score is 480. The Math benchmark cutoff score is 530.

*Data suppressed for schools with fewer than 10 participants.

**The Florida Medallion Scholarship (FMS) and the Florida Academic scholarship (FAS) are the two Bright Futures scholarships. A total SAT score of 1210 earns students eligibility for the FMS while a total SAT score of 1330 earns students eligibility for the FAS.

Appendix C: 2023 SAT School Day scores by subgroup - Grade 11

Note: The concordant score for the ELA 10th grade FSA grad requirement for those who entered grade 9 on or after 2018-19 is a 480 EBRW score or a 24. The EBRW benchmark cutoff score is 480. The Math benchmark cutoff score is 530.

*The Florida Medallion Scholarship (FMS) and the Florida Academic scholarship (FAS) are the two Bright Futures scholarships. A total SAT score of 1210 earns students eligibility for the FMS while a total SAT score of 1330 earns students eligibility for the FAS.

Appendix D: 2023 SAT School Day scores by subgroup - Grade 12

Note: Only 12th graders who participated in SAT Day School Day are included here. Missing schools indicates no 12th graders from that school participated. The concordant score for the ELA 10th grade FSA grad requirement for those who entered grade 9 on or after 2018-19 is a 480 EBRW score. The EBRW benchmark cutoff score is 480. The Math benchmark cutoff score is 530.

*Data suppressed for groups with fewer than 10 participants.

**The Florida Medallion Scholarship (FMS) and the Florida Academic scholarship (FAS) are the two Bright Futures scholarships. A total SAT score of 1210 earns students eligibility for the FMS while a total SAT score of 1330 earns students eligibility for the FAS.
